

PD405

DMR handheld radio

For entering the world of DMR radio

The PD405 DMR handheld radio gives you conventional DMR radio at a starter price. It is particularly enduring and achieves with the rechargeable battery supplied operation times of up to remarkable 16 hours in digital mode.

Impressive voice quality

With its embedded digital technology the PD405 produces outstanding voice quality even in noisy environments and at the outer perimeter of radio coverage.

Mixed analog & digital channel

Due to this function the PD405 can differentiate between analog and digital signals received and changes automatically to the corresponding operating mode.
