aegex10™ intrinsically safe tablet

Aegex Technologies provides intrinsically safe solutions for the world's most hazardous industrial operations in oil and gas, chemical, mining, pharmaceutical, public safety, utilities and other industries with explosive environments. Aegex solutions bring real-time connectivity to hazardous areas, helping organizations harness the power of data to optimize efficiency, safety and productivity.

Oil & Gas

Chemical

Mining

Pharmaceutical

Public Safety

Utilities

The **aegex10™ Intrinsically Safe Tablet** is the most advanced, efficient, lightweight and rugged Windows tablet that is purpose-built for **Zone 1 / Division 1 hazardous areas**. Simple to deploy, it is the basis for an Industrial Internet of Things platform for hazardous industries, allowing operations to easily begin their digital transformation to Industry 4.0.

- **Purpose-Built Intrinsically Safe and Enterprise-Class Tablets:**

Aegex devices are certified ATEX/IECEX Zone 1; certified by SGS to UL 913 Class I, II, III Division 1 Groups A-G; and IP65 for hazardous (classified) locations.

- **Solutions for All Hazardous Zones and Jobs:**

Aegex devices run the operating system and applications that allows for secure enterprise deployments.

- **Enterprise Collaboration**

Aegex devices use 4G LTE or Wi-Fi for real-time communications.
