

SELF DUMPING CONTAINER

SBTCMC-Serie

DESCRIPTION

- Made of steel structure and reinforced base,
- Excellent powder coating finishing, Standard color: Industrial blue RAL5010 (Other RAL on request).
- Designed for forklift use only.
- **Application** : Used in many industries, including those that handle mining, glass concrete, scrap, metal, lumber, waste, plants.
- **Operation** : Thanks to the double dumping mechanism the operator can open and close the bucket without stepping out of the forklift. It releases the content hands free with bump and dump feature.
This series is characterized by its safety, versatility and high load and carrying capacity. The rolling system under the buckets reduce the impact on the forklift during the dumping operation.
- **Optional**: The container can be mounted on wheels. Wheels are provided on request.
- **Safety**: It is advised to use the container with a safety chain during maneuvering to avoid accidents.
