TELECOMANDO  
STANDARD

TELECOMANDO  
SEMPLIFICATO

TELE System introduces PALCO20X the TV range that offers 360 ° entertainment at home or on vacation.

Thanks to the 12V power supply (power supply included, adapter 12V \* for optional cigarette lighter), you can use PALCO20X even outside the home: caravans, campers, trucks, boats, etc. The TV becomes a universal entertainment device for offering you hundreds of free and pay, digital terrestrial and satellite channels even during your holidays.

The PALCO TVs differ in their ease of installation and automatically perform the functions of scanning, sorting and updating channels. Connecting a hard disk to the USB2.0 port, they become Mediaplayer.

All models are CI + Ready and are equipped with CI / CI + slots compatible with HD CAMs to access

pay digital terrestrial content and with the tivùsat certified CAM.

Completing the features of the PALCO20X line, two remote controls: a standard for setting the TV at the time of first installation and a "simplified" for essential functions, with large buttons, designed specifically for older people or as a replacement remote control.

## Double tuner, double show!

The first line of 3rd generation HD TVs featuring a double tuner, Digital Terrestrial (DVB-T2) and Satellite (DVB-S2) both with 10-bits H.265/HEVC encoding that combines technology and maximum ease of use. TV becomes the center of home entertainment with hundreds of terrestrial and satellite channels, Italian and foreign, pay or free even in high definition.

## Compatible CAM tivùsat & digital terrestrial pay

The CI+ slot offers maximum compatibility with CAMs to access the pay content of terrestrial digital and with the certified TELE System CAM tivùsat to expand the experience and the quality of vision.

Loading satellite channels in "default" mode provides the Italian channel list as defaults.

## "basic" remote control

The installation of PALCO20X is performed in two simple steps, the functions of scanning, sorting and updating channels and are also commandable with the provided facilitated remote control, with large keys for essential functions, thought especially for older people.

## TV programs and movies always with you

Thanks to the 12V \* power supply, you can use PALCO20X even outside the home: campers, caravans, trucks, boats, etc.

\*12V cigarette lighter adapter with optional 1.5m cable.

## Hotel Mode function

The Hotel Mode feature allows you to define maximum audio values, set the volume and decide the channel when you turn it on, and select the source signal in advance. It is particularly suitable for hotel facilities because it prevents users from accessing the most advanced features such as the menu for managing channels.
