Unpacking Operation

1. Check if parts are complete as per the **【Packing List】** (Page 3).
2. Put the product properly as per **【Product Structure】** (Page 3).
3. Make sure to use the power adapter attached. Automatically turn on after power on.
4. Refer to **【Wi-Fi Connection】** (Page 6) for network configuration.
5. Ensure that there are no objects in the food bowl and carry out **【Scale Reset Instructions】** (Page 7).
6. Add sufficient foods into the food bucket and make sure it is below the Max scale.
7. The Product is available for use after finishing the steps above.

Wi-Fi Connection

1. Search "CATLINK" in mobile phone application market, download and install CATLINK APP, or scan the right QR code for download:

2. Connect the 2.4GHz Wi-Fi. The 5GHz frequency range, as well as the Wi-Fi requiring special authentication in hotel and airport, is not supported yet.

* Wi-Fi name should not contain Chinese, space or other special characters to avoid affecting the Wi-Fi connection.

3. Open CATLINK APP to register and login. Find and click "Add device" -> "CATLINK Feeder" and follow the tips.

* Please authorize the location information. GPS should be enabled for Android mobile phone.

4. Long press the Wi-Fi connection button of feeder, release it when hearing the "Beep" sound and indicator is flickering in green.

* Keep the product close to router as much as possible and make sure it is powered on.

The Wi-Fi Connection Button
at rear side of the product

5. Click "Next" on CATLINK APP, enter Wi-Fi password, click "Next" and wait for success of Wi-Fi connection.

* For any connection failure, please repeat the operation and check if Wi-Fi password is entered correctly. For any unsmooth connection of some Android mobile phone, please use other mobile phones for Wi-Fi connection if possible and when it succeeds, switch to your mobile phone for normal use. If connection fails after correct operation for multiple times, please contact the after-sales service.

6. When CATLINK APP prompts success connection, scan the QR code on the side of the Feeder for binding.

7. After completing the above steps, APP related functions can be use normally.

Scale Reset Instructions

1. Empty bowl and make sure there is no object.

2. Put the bowl properly.

*Weighing sensor is installed at the bottom of the tray of bowl. Please handle it gently to keep data correct and prolong the service life.

3. Long press the scale reset button and release it when hearing the “Beep” sound and indicator is flickering in

*It is recommended to use the CATLINK APP to do scale reset. The weight data is available on the APP. When the weighing data is displayed as 0, on the APP the weight reset is done.

The Scale Reset button at rear side of the Product

4. After completing the steps above, the ceramic bowl has been weighed and reset to zero.

Button Operation

- **Dispensing one portion of the food:** short press the feed button once and then release;
- **Continuous dispensing:** long-press the feed button to dispense the food continuously; release the button to stop dispensing;
- **Lock the feed button:** Press the feed button three times to lock it; press the feed button three times again to unlock it.

Use of UFO Tag

UFO Tag contains a pet-ID-chip.

**Please follow the instructions of CATLINK APP.*

**The collar can be changed according to the cat's condition.*

Use of Desiccant

Desiccant
storage box

1. Desiccant bin is installed at the upper cover of food bucket.

2. It is recommended to replace the desiccant regularly.

** It is recommended to refer to the CATLINK APP desiccant replacement prompt function.*

Cleaning and Other Notices

Notice

1. **Power off and shut down** (including main and backup power)
2. **Washable parts:** baffle, food container lid, desiccant storage box, food container liner, ceramic bowl
* Make sure to wipe the parts with dry tissue after washing with water
3. **Parts that can only be wiped with wet wipes:** exterior and interior of base (including food dispensing channel)
* Contains electronic components, do not wash directly
