

## **Are you buying from outside the E.U.? This is how it works:**

Wilhelmina Designs is based in The Netherlands as part of the European Union. All our prices are shown in euros, including Dutch VAT (21%). If you are from outside the E.U. you import the goods and the VAT is shifted automatically on our invoice. The country where the goods are delivered is decisive. Therefore you do not pay VAT with us, which you must still have to pay with the local authorities upon arrival in your country. Wilhelmina Designs provides for the proper documentation in conjunction with the carrier.

### **paying import duties**

In most cases, the postal or courier company that is taking care of transport will submit the report to Customs. The report must contain details that are important to Customs, such as value and a description of the goods. If this information is not known, the postal or courier company check this with you.

The costs set out below are not paid by the sender to the postal or courier company, the postal or courier company will charge these costs to you upon delivery of the package:

### **customs costs**

Costs that the postal or courier company has incurred for submitting the report to Customs.

### **processing costs**

Costs for other work that the postal or courier company has done for you.

### **any taxes to be paid**

(import taxes, such as import duty, VAT and excise duty)

The amount of tax that you must pay for importing varies per product. Use this quick tool to calculate import duty & taxes. This calculation is indicative only and no rights can be derived from it.
