claudi[®]
autumn - winter
2025 - 2026

With pride, we present our new autumn/winter collection: our first complete collection under our direction as the new faces behind CLAUDI, crafted with meticulous attention to detail and a deep passion for high-quality interior textiles. In close collaboration with our dedicated team, we have aimed to create a balanced collection where style and luxury come together in refined details. Each cushion is carefully made, with special attention to materials and finishing. This collection not only reflects our passion for the craft but also the joy with which we have embraced the entire process, from design to realization.

Distinct Styles

For this catalogue, we opted for a subtle renewal in presentation. The three CLAUDI styles, Chique, Pure, and Eclectic, are showcased separately, allowing each style to fully express its unique character and strength. Naturally, all within the trusted CLAUDI signature, maintaining our quality and distinctive style. This approach enables us to address our diverse audiences more directly, making it easier for them to identify with an atmosphere that truly suits their personal taste.

Chique Lustrous fabrics, refined textures, and an elegant, luxurious appearance.

Pure Natural materials, soft hues, and a calming, harmonious ambiance.

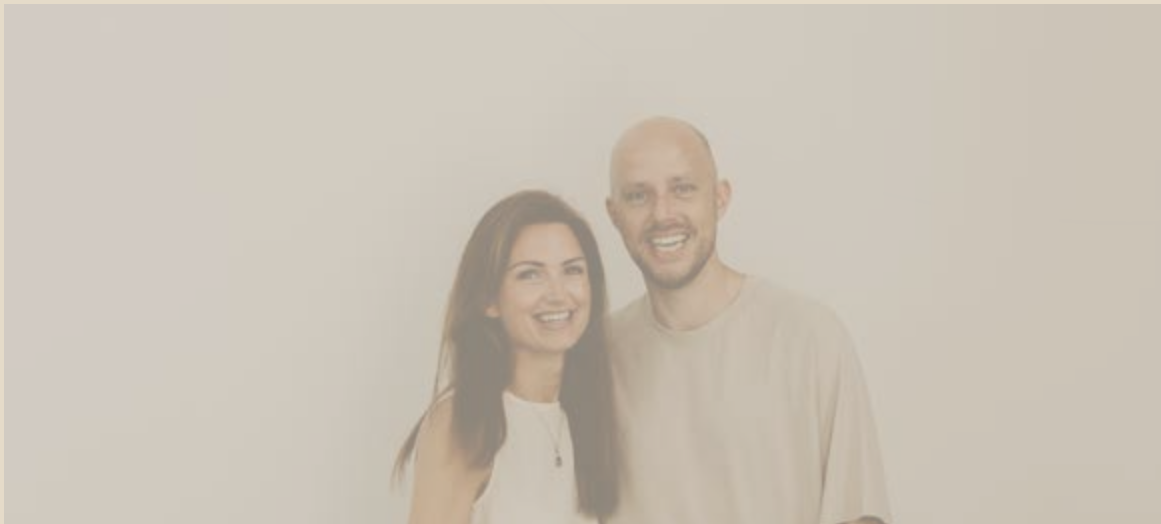

Eclectic Bold prints that stand strong individually but together form a surprising and balanced ensemble.

Poufs, our stylish addition

Our poufs have been consciously reintroduced to the collection. Thanks to their functional character and the possibility to upholster them in any fabric from our extensive collection, they can be fully adapted to suit any interior style. A product with so many uses and customization options is, in our view, a natural and indispensable part of our collection.

We hope this catalogue inspires and delights you, and we wish you a stylish and warm autumn and winter!

Karel & Laurien Deken and team

The values of Claudi

HIGH QUALITY

Our cushions are designed and manufactured by hand in The Netherlands.

The complete production process is under our control. This is how we guarantee the high quality standards.

We only use interior fabrics of high-quality because they give a rich appearance to the interior and remain beautiful for a long time.

The luxury feather filling we use, which is of Dutch manufacture, is largely from recycled duck feathers. Which positively impacts the environment.

EXCLUSIVE

Our collections are varied and makes every interior unique.

We are always looking for new fabrics and fresh ideas to create the most stylish combinations.

Cushions and plaids add a new dimension to the latest home trends. The interior gives character and makes furniture come alive.

Our goal: Let more people enjoy a unique interior so they feel at home, are proud and can enjoy it with family and friends.
