Spring - Summer
2026

The values of Claudi

First year

Our first year with Claudi under our wing is now behind us. It was an intense year, full of new steps, choices and a few changes here and there, but above all a very beautiful and valuable year. A period in which we were able to build, refine and innovate together. That gives us a tremendous amount of energy.

Teamwork

We have made subtle but meaningful adjustments to our presentation and photography. We approached the collection in a fresh way. Together with our committed and enthusiastic team, each and every one of whom are wonderful, valuable colleagues, we have enjoyed working on every step of the process.

Collection Spring/Summer 2026

This season, you will see a collection that feels like a natural continuation of Claudi's signature style, with plenty of room for innovation and colour, perfectly suited to spring.

Soft, brownish naturals remain as popular as ever and once again form a warm, calm base. Think of shades such as sand, linen and clay: calm, timeless and easy to combine. These are complemented by refined pastels and fresh spring colours that bring light and airiness to the interior.

Subtle nuances alternate with striking accents and prints that add character and a playful touch.

Our three styles create a versatile collection with plenty of variety, from serene, soft combinations to more striking sets, making it easy to mix and match to give your interior a fresh, personal spring look.

Inspiration

We hope this collection inspires you to play with color, texture, and combinations, giving your interior a fresh, contemporary, and personal touch.

Make it a wonderful new season!

Karel & Laurien Deken and team

HIGH QUALITY

Our cushions are designed and manufactured by hand in The Netherlands.

The complete production process is under our control. This is how we guarantee the high quality standards.

We only use interior fabrics of high-quality because they give a rich appearance to the interior and remain beautiful for a long time.

The luxury feather filling we use, which is of Dutch manufacture, is largely from recycled duck feathers, which positively impacts the environment.

EXCLUSIVE

Our collections are varied and makes every interior unique.

We are always looking for new fabrics and fresh ideas to create the most stylish combinations.

Cushions and plaids add a new dimension to the latest home trends. The interior gives character and makes furniture come alive.

Our goal: Let more people enjoy a unique interior so they feel at home, are proud and can enjoy it with family and friends.
