FOR LINEN

HOUSE
IN STYLE

CATALOGUE 2021

I proudly present to you a unique concept, Homelinen Labels, consisting of two labels that complement each other flawlessly.

Passion for Linen is the specialist in linen products. Because of the carefully selected raw materials from Europe and the production on-site, we offer high quality, both in colors and in production. All products are sustainably tailored, and the collection contains both beautiful basics and real eye-catchers.

House in Style offers various products such as percale cotton, cotton satin, jersey, flannel, as well as woollen plaids and decorative cushions, all of which can be perfectly combined with all the Passion for Linen linen items.

The strength of the Homelinen Labels is the combination of materials and the total range of products for bed & living. The products of both labels suit every interior and are mainly executed in basic colors; we consciously choose to leave out prints and temporary trends of the collection. As a result, we offer a timeless collection, of which many products are always available. Consequently, supplementing or replacing items is always possible for the consumer, who will be bound to you for a longer period of time.

Pure linen bedding has always been present, it is not subjected to trends and fads. The love for linen is endless and linen adapts effortlessly to every season. The spring and summer of 2021 are all about tranquility and romance. This collection contains a lot of white, off white and natural and light earth colors. In this catalogue, you will find our complete collection. As a true lover of linen, I am very curious to hear what you think of the collection.

If you have any questions, do not hesitate to contact me. I'm happy to answer all of your questions!

Sincerely,

Barbara Sprengers

Hope you will join us in loving our products!
