

How to build The Lowdown

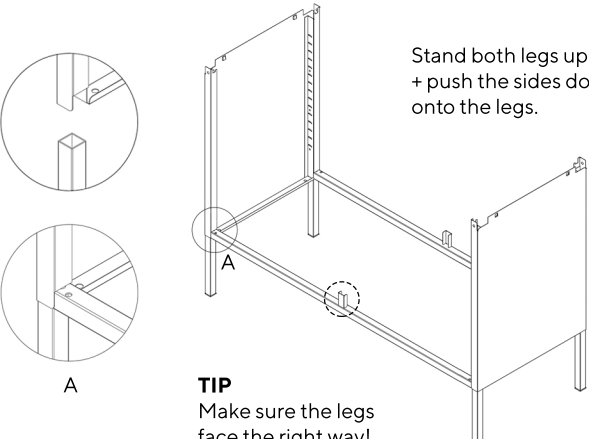

Mustard lockers are beautifully designed to make putting them together simple + argument free! No tears + no allen keys! All you need to get started is a **phillips head screwdriver**!

We made a video taking you through the build step by step. Watch it here: mustardmade.com/pages/build-it It's easy, you got this!

We recommend you attach the locker to the wall to prevent tipping + causing injury. Use the extra screws + plugs provided to screw through the two holes in the back panel.

1

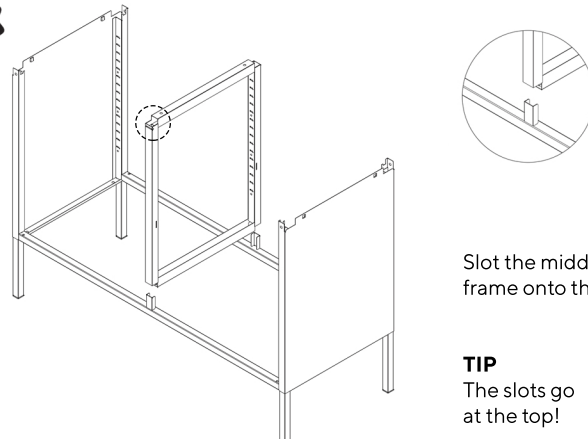

Stand both legs up + push the sides down onto the legs.

A

TIP
Make sure the legs face the right way!

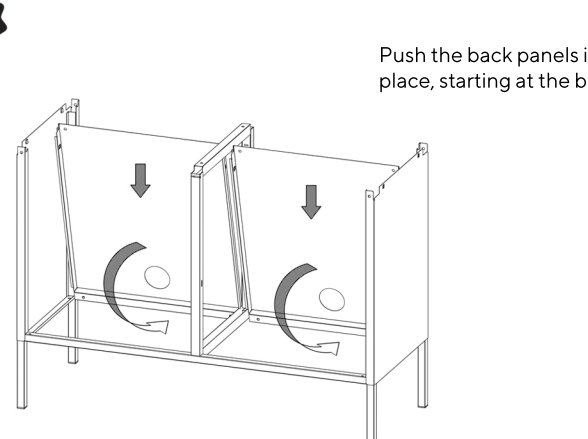

2

Slot the middle frame onto the legs.

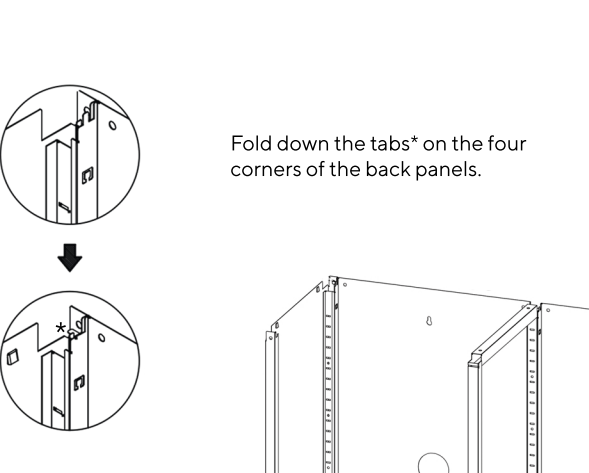

TIP
The slots go at the top!

3

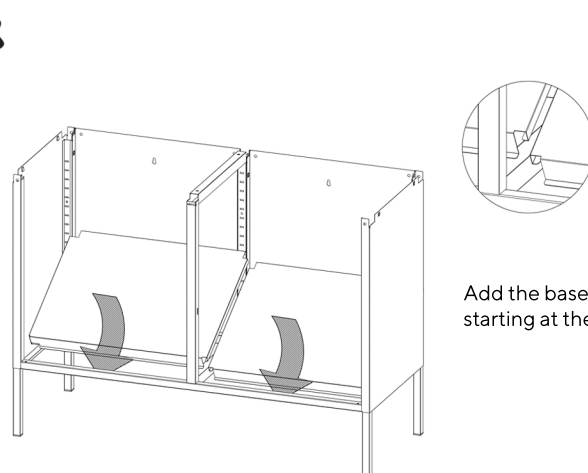

Push the back panels into place, starting at the bottom.

4

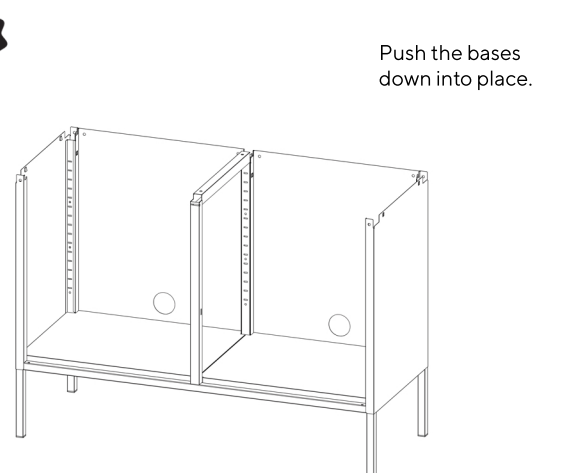

Fold down the tabs* on the four corners of the back panels.

5

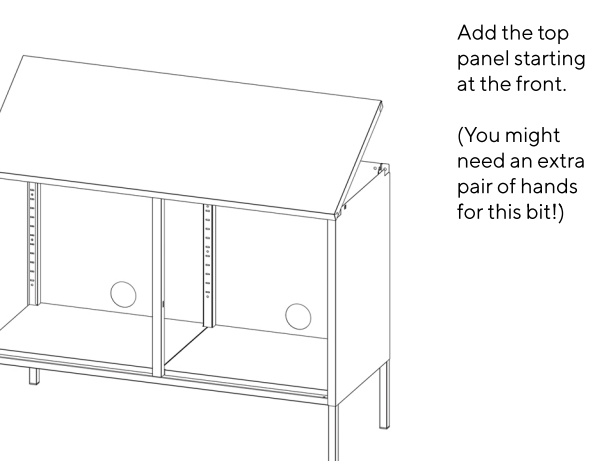

Add the bases, starting at the front.

6

Push the bases down into place.

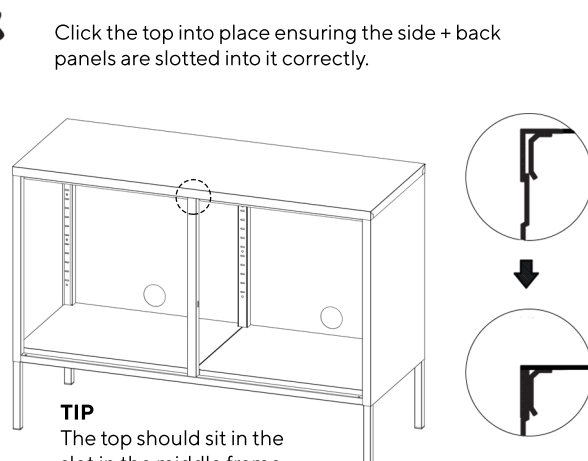

7

Add the top panel starting at the front.

(You might need an extra pair of hands for this bit!)

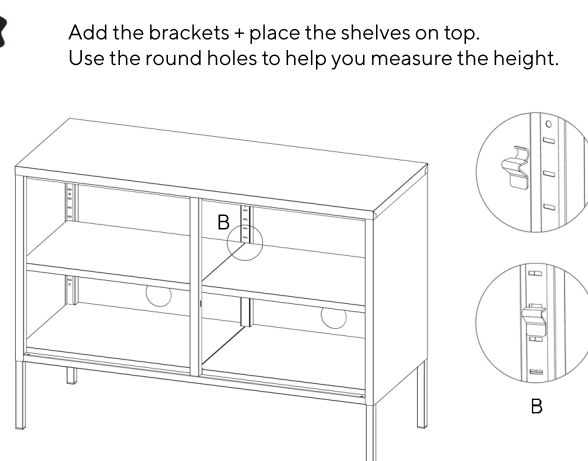

8

Click the top into place ensuring the side + back panels are slotted into it correctly.

TIP
The top should sit in the slot in the middle frame.

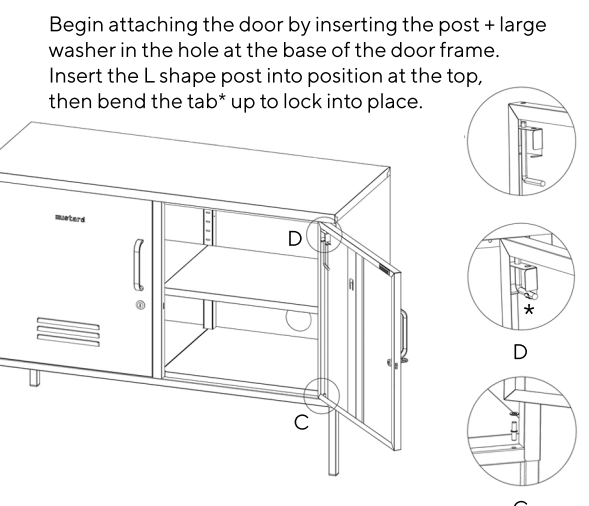

9

Add the brackets + place the shelves on top. Use the round holes to help you measure the height.

B

10

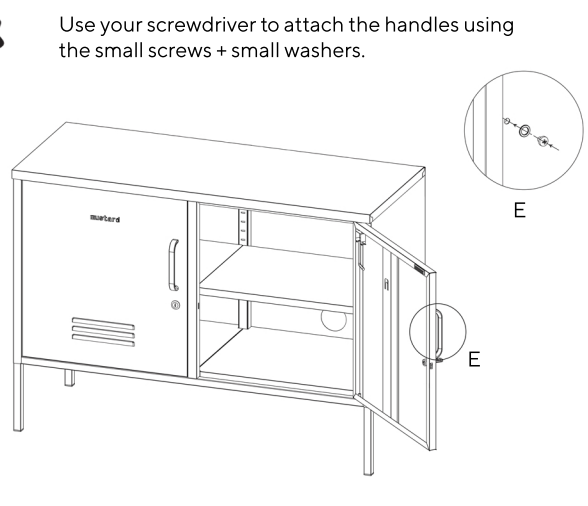

Begin attaching the door by inserting the post + large washer in the hole at the base of the door frame. Insert the L shape post into position at the top, then bend the tab* up to lock into place.

C

D

11

Use your screwdriver to attach the handles using the small screws + small washers.

E

12

You're Amazing!

Pat your self on the back + fill your locker with things!
