Sugar	3%
Est. DE	11.5MJ/kg

Vitamins	
Vitamin A	4,500iu/kg
Vitamin E	75mg/kg
B1	2mg/kg
B2	10mg/kg
B6	200mg/kg
B12	0.02mg/kg
Biotin	0.3mg/kg

Macro Minerals	
Calcium	1.7%
Phosphorus	0.2%
Magnesium	0.1%
Sodium	0.1%

Micro Minerals	
Copper	4.5mg/kg
Zinc	10mg/kg
Manganese	40mg/kg
Iron	220mg/kg
Selenium	0.2mg/kg

Mineral values for Alfalfa Oil Plus are total values within the product and are naturally occurring from fibres and other raw materials. Such materials are naturally variable and as such total values may vary slightly.

Alfalfa Oil Plus Composition

Alfalfa, Rapeseed oil

Feeding Rate

Alfalfa Oil Plus is the ideal high calorie, high oil chaff for performance horses and ponies in medium-hard work. It is also suitable for horses and ponies that are losing or have lost condition. Alfalfa Oil Plus has been carefully dust-extracted and the alfalfa leaf pelleted to keep all of the natural goodness and nutrition of the alfalfa in the bag. Alfalfa Oil Plus can be fed alongside any of the Dodson & Horrell concentrate feeds. Alternatively it can be fed as a replacement for the concentrate feed, with the addition of Ultimate Balancer of Performance Vitamins & Minerals to balance the diet.

As a chaff addition to the concentrate feed:
150-400g/100kg bodyweight per day, in conjunction with free access to forage. For example, feed a 500kg horse 750g-2kg per day.

As a replacement for the concentrate feed:
500g-1kg/100kg bodyweight per day, fed with Ultimate Balancer or Performance Vitamins & Minerals and free access to forage. For example, feed a 500kg horse 2.5-5kg per day.

Do not exceed 1kg/100kg bodyweight per day in total. Divide into at least 2-3 meals per day.

Ensure a minimum intake of 2kg/100kg bodyweight of forage per day.

Fresh drinking water must be available at all times.

1 level Stubbs Scoop
approximately contains:
0.7kg/1.4lbs
