Mineral values for Kwikbeet are total values within the product naturally occurring minerals from the raw materials. Such materials are naturally variable and as such total values may vary.

Kwikbeet Composition

Unmolassed sugar beet pulp, dried

Feeding Rate

Kwikbeet should be weighed before soaking. For every 100g of Kwikbeet, add 500ml of water and soak for 10 minutes before feeding.

Feed 100g/100kg bodyweight per day in conjunction with free access to forage. Do not exceed 600g/100kg bodyweight per day in total. Divide into at least 2-3 meals per day.

Ensure a minimum intake of 2kg/100kg bodyweight of forage per day.

Fresh drinking water must be available at all times.

1 level Stubbs Scoop
approximately contains:
1.4kg/3.1lbs
