Mineral values for Alfalfa are total values within the product and are naturally occurring from fibres and other raw materials. Such materials are naturally variable and as such total values may vary slightly.

### Alfalfa Composition

Alfalfa, Cane molasses

### Feeding Rate

Feed 100g-600g/100kg bodyweight per day in conjunction with free access to forage.

Do not exceed 600g/100kg bodyweight per day in total. Divide into at least 2-3 meals per day.

Ensure a minimum intake of 2kg/100kg bodyweight of forage per day.

Fresh drinking water must be available at all times.

1 level Stubbs Scoop  
approximately contains:  
**0.5kg/1.1lbs**
