# Bistro Table

Available in :

Black Glass

Tzalam

Corten Steel

AVAILABLE ALSO IN WHITE FRAME

## Materials :

Each Tzalam table is handmade from specially selected Tzalam hardwood and therefore has its own character. Cor-ten is steel with a protective feature against atmospheric corrosion. It forms a typical rust layer causing further oxidation to be prevented. This rust layer will change over time and gives the table its unique character.

The glass is tempered

## Maintenance :

The Bistro table is very durable and almost maintenance free. However, the Tzalam table needs to be treated with a suitable lacquer from time to time.

The corten steel table is suitable for use both indoors and outdoors without any special maintenance. The corten steel is delivered without treatment and will naturally oxidate.
