## Materials :

We use recycled PVC whenever possible. Residues during production are reused in new products.

The PVC cords are resistant to temperatures from -18°C to +80°C and direct sunlight, contain anti-oxidants and are free of phthalates and heavy metals.

This not only ensures that the seat is less harmful to our environment, but also makes it suitable for both indoor and outdoor use.

**The frame is available in black, white and stainless steel.**

## Maintenance :

This Acapulco chair has a guaranteed quality and durability, because of the solid steel frame and the seat made of high quality hand-woven PVC.

The chair is suitable for years of use both indoors and outdoors without any special maintenance. Clean it with water and a little soap and dry with a soft cloth.
