CLEAN  PROTECT  CARE

## POWER CLEANER

Ultramar Power Cleaner is a super-strong fabric cleaner. For when nothing else helps. Removes heavy contamination and deeply absorbed stains from your boat cover, tent or convertible top. For best results, always clean first with Sprayhood & Tent Shampoo.

Size	1 litre
EAN:	8716462007885
SKU:	CL-PC-01000-7885

“I was quite sceptical, but my boat cover and cockpit cover are indeed once again like new.” - **(REVIEW) W. Groenier**

- As a professional, we have encountered the most soiled fabrics.
- In some cases, the dirt has penetrated deeply.
- Spider droppings can leave black spots.
- Dirt can firmly attach itself to the fabric.
- With Ultramar Power Cleaner, you can even clean a heavily soiled boat cover, convertible top, tent or sun protection.
- First clean the fabric with Sprayhood & Tent Shampoo for optimum results.

CLEAN  PROTECT  CARE

## POWER CLEANER

### Why always clean and impregnate in 3 steps?

- The dirt on your boat cover, convertible top or tent never consists of 1 type of dirt. It is sand, soot from exhaust gases, mould, algae and moss, droppings from insects and birds, salt, limescale etc.
- You can never remove that properly with 1 product.
- Therefore, always clean in 2 steps. That way, you can be sure that the fabric is perfectly clean.
- The impregnating agent then adheres much better to the fabric. And that in turn ensures that the cloth stays clean and watertight for much longer.

### To use for:

- Deeply penetrated soiling in the tent fabric.
- Difficult spots in the tent fabric or boat cover.
- Spots from spiders, mosquitoes and flies.

### Directions for use:

1. Apply Ultramar Power Cleaner to the dry fabric
2. Rub in with a soft brush
3. Allow to soak in for approximately 1 hour.
4. If you don't see any change, spray on a little extra Power Cleaner and rub in with a brush again.
5. Let it soak in again. Repeat this until the spots are gone. This may sometimes take a few hours.
6. Rinse well with a brush and plenty of water.

### Usage:

Usage depends on the type of fabric: 1 Litre: between 8 m<sup>2</sup> and 15 m<sup>2</sup>

### Tip:

After use, treat with a strong impregnating agent to protect and make the fabric waterpro

### Reviews

*"The fabric is completely clean and waterproof again. Great explanation. Also about further maintenance. Ultramar is Top! Raymond"*
