

PH 3½-3 Amber coloured Glass Table

Design:

Poul Henningsen

Concept:

The fixture is designed based on the principle of the reflective three-shade system. It directs the majority of the light downwards and distributes a glare-free light. The shades are made of Italian mouth-blown glass. The amber tone and glossy surface on the outside of the shades in combination with the sandblasted matt underside, gives a soft and diffuse light distribution. The stem and base are brushed brass, untreated and it will become darker unless polished.

Finish:

Brushed brass. Amber coloured glass.

Material:

Shades: Mouth-blown amber coloured one layered glass. Glossy on the outside, sandblasted on the inside. Top plate, base and stem: Brass, brushed and untreated.

Mounting:

Brown textile cable 2x0,75mm². Through-switch.

Class:

Ingress protection IP20. Electric shock protection II w/o ground.

Info notes:

Please note that the brass is untreated. This means that the surface will change over time and develop a patina if left unpolished. This process may have already begun when the product is delivered.
