

PRODUCTS

Wood wool is a functional, natural material.

BAUX Acoustic Wood Wool is made from two of the world's oldest building materials, wood and cement.

The combination is simple and ingenious. Wood fibre offers excellent insulation, heat retention and sound absorption. Cement, a proven and popular building material, is the binder that provides strength, moisture resistance and fire protection. Therefore, BAUX Acoustic products are versatile and durable in all climates.

ACOUSTIC TILES

SQUARE

Large: 2.97 tiles per m²
Small: 11.9 tiles per m²
25 mm thick

RECTANGLE

Large: 1.49 tiles per m²
Small: 5.95 tiles per m²
25 mm thick

CIRCLE

Large: 3.78 tiles per m²
Small: 15.1 tiles per m²
25 mm thick

TRIANGLE

Large: 5.95 tiles per m²
Small: 23.8 tiles per m²
25 mm thick

PLANK

NATURALLY COLOURED

Large: 2.97 tiles per m²
Small: 11.9 tiles per m²

SOUND

This graph shows the practical absorption coefficient of BAUX Acoustic Wood Wool at any given audio frequency.

The material structure of BAUX Acoustic products reduces sound reflections, making it a great sound absorber. The material dampens noise and contributes to restful acoustics in residential buildings, industrial premises and public spaces.
