After Glow is a masterpiece by the hands of Dutch interior-design studio Nicemakers. For this refined design they were inspired by an old Japanese artwork showing semi-transparent lanes crossing each other in a simple yet satisfying rhythm. A very specific mix of colored yarn was assigned to each individual rectangle. Together they create a gradient between the four different colors residing in the 4 separate corners of the rug.

In the two corners on the top are shiny Eucalyptus colors, while the two corners on the bottom are the more matt Mohair colors, giving the rug a degrade in shimmer as well as in color. This elaborate piece of textile is so detailed, that it must always be made at 250 x 350 cm or larger. It comes in 4 standard color-combinations, all designed by Nicemakers as well.

## CARE INSTRUCTIONS

- We advise you to **vacuum** the rug once or twice a week with a normal (upright or cylinder) vacuum cleaner but without the brush or beater bar engaged. Rugs with a high pile need to be vacuumed even more often.
- Do not use a vacuumer with a rotating brush, this will damage the yarn.
- Rugs made from natural materials are subject to some **pilling** during the first few months. This is a common characteristic of natural cut fibers and will disappear after 3 or 4 months of normal use.
- A dry environment can result in extra pilling of the yarn. A **humidity** between 50-70% will benefit the lifecycle of your rug.
- In order to avoid '**regular use marks**', we advise you to turn the rug every once in a while.
- **Wet stains** need to be removed immediately, before the yarn absorbs the fluid. Absorb the stain using a strong absorbing paper (like kitchen paper). Do not, in any case, rub or put pressure on the rug when wet. This can damage the fibers and the structure of the rug.
- **Light stains** can safely be treated with JAMES cleaning agents, which have been successfully tested on our products. Please follow the instructions of the JAMES staindisc, also shown on our site. We can not guarantee safe use of cleaning agents by any other brand, since they have not been tested.

- Please do not use highly acidic cleaning agents to remove stains from your rug. This will cause discoloration of the yarn.
- In case of **heavy staining** or transferred dirt, we advise you to always have your rug drycleaned by a specialist in rug cleaning. Please state clearly that this rug needs to be cleaned without using water.
- When in **doubt**, please don't hesitate to contact us, or take a look on our website, [www.frankly.amsterdam/careinstructions](http://www.frankly.amsterdam/careinstructions), for more information.
