Manual Introduction

Before use, kindly read this "Administrator Manual" thoroughly to have an understanding of the contents

After reading, place it within reach at all times such as at the side of this product.

This manual is for administrator who has working knowledge of fundamental terms and concepts of computer networking, converged voice and data networks to include LANs, WANs, and IP switching and routing.

Web Configuration Tool

A PC browser can be used as an alternative to configuring system. Ensure that the PC is connected to the same AP as the phone and enable <Lock PC Sync>

Menu > Settings > Preference > Lock PC Sync >Enable > set the password for Web Configuration Tool

1. Enter the phone's IP address:8080 in the address bar of the PC's web browser and press <Enter>

2. After displayed Web Configuration Tool, click <setup> button above the right side.
