Stackable and nestable containers with lid. They can be safely stacked when loaded and perfectly nested when empty.

Boxes mainly intended for delivery of online sold grocery products. They take less space in the truck when they return empty. Suitable for food retail, industry, and distribution.

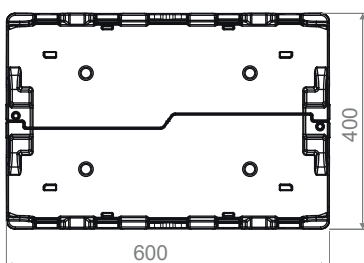

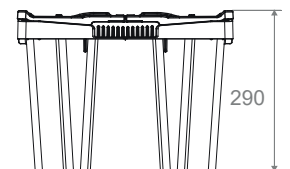

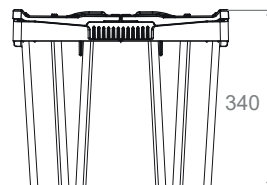

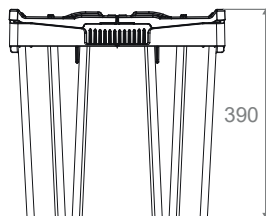

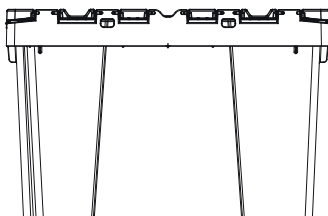

- Stackable and nestable.
- Stackable both with the lids open and closed.
- Long lasting and resistant.
- Lids that offer a perfect closing for the boxes.
- A seal can embrace the closed lids to control if the box has been opened.
- Different colours available in order to identify different products or to show the corporate identity.
