NANO TECHNOLOGY

WE CONCENTRATE QUALITY ✨

ProNano is a fast-growing, internationally-oriented company. We strive to be the leader on the European market and are expanding worldwide.

Our offer presents a wide range of products that have been designed for contactless and scratch free cleaning of various vehicles: motorcycles, cars, pick-ups, vans, trucks, trailers, tanks, RV's, boats, yachts. The line has been expended to support also industrial and agricultural sectors to clean machinery and construction equipment.

These car and truck cosmetics are extremely efficient, high quality and based on **Nano Technology**.

Our products are suitable for the following:

- car/truck washes (touchless, self-service, automatic drive-thru)
- cars, RV's, campers rental
- car/truck fleets
- truck stops service areas
- marines maintenance services for boats, yachts, cruise liners, dredgers, passenger and naval ships, offshore production, tankers, and support vessels
- transport companies
- farmers with various agricultural vehicles, machinery and equipment
- industrial sector and giant trucks washes
- service and maintenance sector at the airport

In order to reach all our clients, we have developed international distribution network. Our products are available in countries like: Holland, Denmark, France, Germany, Belgium, Great Britain, Finland, Norway, Hong Kong, United States, Costa Rica, Mauritius. We strive to open new locations worldwide.

We invite you to become our business partner.

PROFESSIONAL CLEANING PRODUCTS

We present an innovative, extremely efficient products that are designed for contactless and scratch free cleaning of various vehicles, machinery and equipment.

WE CONCENTRATE QUALITY ✨

ProNano Plus – it is an innovative single-phase, extremely efficient product that is designed for contactless, scratch free cleaning of various vehicles: cars, pick-ups, vans, trucks, trailers, boats, etc. ProNano Plus has a deep cleansing effect and also has a color and shine enhancing effect. It is based on **Nano Technology** and it has anti-corrosive properties.

USAGE/MIXING RATIO

For high pressure method (snow foam method):

250 ml of ProNano Plus and 750 ml of water (in 1 L cup).

Shake it well before use. Spray the vehicle from the bottom to the top, wait 2–3 minutes and rinse it off thoroughly using the high pressure washer, minimum 145 bars.

With 1 L ProNano Plus (concentrated) you can clean 4 trucks and trailers, 16–18 cars, using the high pressure method.

For low pressure method (doesn't create foam):

50 ml of ProNano Plus and 950 ml of water (in 1 L cup).

Shake it well before use. Spray the vehicle from the bottom to the top, wait 1–1 ½ minutes and rinse it off thoroughly using the high pressure washer.

With 1 L ProNano Plus (concentrated) you can clean 3–4 trucks and trailers, 18–20 cars, using the low pressure method.

1 L / 5 L / 20 L / 200 L / 1000 L /

Type: CONCENTRATE

Diamond Nano Wax – product with a triple formula of action: dries the surface of the washed vehicle, gives the treated surface optimal paint protection and a great, deep shine; it makes a vehicle water and dirt repellent for 2–3 months. It is based on **Nano Technology**.

USAGE/MIXING RATIO

For high pressure method:

100 ml of Diamond Nano Wax and 900 ml of water (in 1 L cup).

Shake it well before use. Spray the vehicle from the bottom to the top, wait 30–60 seconds and rinse it off thoroughly with low pressure to remove excess wax residue.

For low pressure method:

15 ml of Diamond Nano Wax and 985 ml of water (in 1 L cup).

Shake it well before use. Spray the vehicle from the bottom to the top, wait 30 seconds and rinse it off thoroughly with low pressure to remove excess wax residue.

1 L / 5 L / 20 L / 200 L / 1000 L /

Type: CONCENTRATE

ProNano Pink Snow Foam – it is an innovative single-phase, extremely efficient product that is designed for contactless, scratch free cleaning of various vehicles: cars, pick-ups, vans, trucks, trailers, etc. ProNano Pink Snow Foam has a deep cleansing effect and also has a color and shine enhancing effect. It is based on **Nano Technology** and it has anti-corrosive properties. Has a pleasant sweet Bubble Gum smell.

USAGE/MIXING RATIO

For high pressure method (snow foam method):

250 ml of ProNano Pink Snow Foam and 750 ml of water (in 1 L cup).

Shake it well before use. Spray the vehicle from the bottom to the top, wait 2–3 minutes and rinse it off thoroughly using the high pressure washer, minimum 145 bars.

With 1 L ProNano Pink Snow Foam (concentrated) you can clean 4 trucks and trailers, 16–18 cars, using the high pressure method.

For low pressure method (doesn't create foam):

50 ml of ProNano Pink Snow Foam and 950 ml of water (in 1 L cup).

Shake it well before use. Spray the vehicle from the bottom to the top, wait 1–1 ½ minutes and rinse it off thoroughly using the high pressure washer.

With 1L ProNano Pink Snow Foam (concentrated) you can clean 3–4 trucks and trailers, 18–20 cars, using the low pressure method.

Type: CONCENTRATE

ProNano Strong – Powerful two-phase cleaner, specially developed for very dirty vehicles. Suitable to clean polyester, slide & tilt trailers, motors, chassis, construction equipment, iron / ground water for agricultural equipment / machinery, etc. It is based on **Nano Technology** and it has anti-corrosive properties.

USAGE/MIXING RATIO*Shake well before use to create a uniform color.***For high pressure method (snow foam method):**

250 ml of ProNano Strong and 750 ml of water (in 1 L cup).

Spray the vehicle from the bottom to the top, wait 2–3 minutes and rinse it off thoroughly using the high pressure washer, minimum 145 bars.

With 1 L ProNano Strong (concentrated) you can clean 4 trucks and trailers, 16–18 cars, using the high pressure method.

For low pressure method (doesn't create foam):

50 ml of ProNano Strong and 950 ml of water (in 1 L cup).

Spray the vehicle from the bottom to the top, wait 1–1 ½ minutes and rinse it off thoroughly using the high pressure washer.

With 1 L ProNano Strong (concentrated) you can clean 3–4 trucks and trailers, 18–20 cars, using the low pressure method.

1 L | 5 L | 20 L | 200 L

Type: CONCENTRATE

ProNano Activator Car & Truck – extremely powerful cleaner for aluminum, stainless steel, light metals and painted surfaces of cars, trucks, trailers, buses, tanks, construction equipment, etc. It easily dissolves dirt and removes all kind of impurities from aluminum rims, including sediment from brake pads, stains caused by hard water and also removes rust. The product quickly gets into a chemical reaction, thanks to which all impurities, even permanent dirt, are completely removed and the surface looks like new.

USAGE/MIXING RATIO

200 ml of ProNano Activator and 800 ml of water (in 1 L cup).

Shake it well before use. **APPLY WITH LOW PRESSURE AND SPRAY ONLY ON THE ALUMINUM, STAINLESS STEEL AREA** (i.e. grille, bar side steps, bumper guards, etc.).**WARNING:** avoid any other parts, including Alcoa or Dura Bright wheels because it may cause some chemical reaction due to being a strong product. Wait max 20–30 seconds and rinse it off thoroughly using the high pressure washer.

1 L | 5 L | 20 L | 200 L

Type: CONCENTRATE

ProNano Activator Agri extremely powerful cleaner for aluminum, stainless steel, light metals and painted surfaces of agricultural vehicle, machinery equipment, etc. It's stronger product than Activator Car & Truck because was developed for farmers' equipment due to constant contact with dirt, mud, ferrous water, etc. It easily dissolves dirt and removes all kind of impurities from aluminum rims, including sediment from brake pads, stains caused by hard water and also removes rust. The product quickly gets into a chemical reaction, thanks to which all impurities, even permanent dirt, are completely removed and the surface looks like new.

USAGE/MIXING RATIO

200 ml of ProNano Activator and 800 ml of water (in 1 L cup).

Shake it well before use. **APPLY WITH LOW PRESSURE AND SPRAY ONLY ON THE ALUMINUM, STAINLESS STEEL AREA** (i.e. grille, bar side steps, bumper guards, etc.).**WARNING:** avoid any other parts, including Alcoa or Dura Bright wheels because it may cause some chemical reaction due to being a strong product. Wait max 20–30 seconds and rinse it off thoroughly using the high pressure washer.

ProNano Antibacterial – it is the product for cleaning cars and trucks that transport foods such as meat, fish, fruit and vegetables. It eliminates the bacteria present in the vehicle. Also it has a disinfectant characteristic; its menthol scent absorbs and eliminates the unpleasant smell. It is based on **Nano Technology**.

USAGE

Shake it well before use. Spray the entire inside (walls, floor, and ceiling) of the trailer (back of the car, truck, where the food is being stored). Closed the door for 15 minutes. During this time the product not only removes bacteria but also absorbs the unpleasant smell and also makes is 99% disinfected.

1 L / 5 L / 20 L / 200 L /

Type: CONCENTRATE

Insect Clean Concentrated – Insects and bugs are often difficult to be removed from the bodywork, windows, car and truck panes, bumpers, grilles, etc. We found a solution for it and are offering a great remover: Insect Clean.

USAGE/MIXING RATIO

200 ml of product and 800 ml of water (in 1 L cup).

Shake it well before use. **APPLY WITH LOW PRESSURE.**

Spray the affected area, wait 1 minute (do not let it dry) and rinse it off thoroughly using the high pressure washer.

1 L / 5 L / 20 L / 200 L /

SPECIALIZED PRODUCTS

We carry a great variety of specialized products for professional cleaning and removal of all kinds of dirt.

750 ml \ 5 L \ 20 L \ 200 L

Type: READY TO USE

All Wheel Clean – it is used for cleaning rims. This product contains a unique combination of ingredients that dissolves all kind of dirt created while driving i.e., brake dust, grease, oil, mud, etc. Specially developed for Alcoa and Dura Bright rims.

USAGE

Spray on rims, wait 60–80 seconds and rinse it off thoroughly using the high pressure washer.

Inox Red – it is a strong rims cleaner, which effortlessly removes old dirt, oil residue, dirt from street, etc. It is developed for different types of cars' rims: standard, metal, paint & powder coated.

USAGE

Spray on rims, wait 2 to 3 minutes, until the occurrence of red color, then rinse it off thoroughly using the high pressure washer.

Motor Clean – this product is great to clean engines and their components. It contains a unique combination of components that dissolves all types of grease, oil and other type of dirt created during the exploitation of the car.

USAGE

Spray on a cold engine. Do not let the product dry on the surface. Wait 1 minute then rinse it off thoroughly using a high pressure washer.

Insect Clean – Insects and bugs are often difficult to be removed from the bodywork, windows, car and truck panes, bumpers, grilles, etc. We found a solution for it and are offering a great remover: Insect Clean.

USAGE

Spray the affected area, wait 1 minute (do not let it dry) and rinse it off thoroughly using the high pressure washer.

Tar & Grease Remover – it removes all types of stains and blemishes, residues from asphalt, tar, grease and resins. Suitable to remove the grease from all types of vehicles. Does not scratch the car paint.

USAGE:

Spray on the greasy surface, wait 2 minutes (do not use on hot surface, do not let it dry) and rinse it off thoroughly using a high pressure washer, preferable with warm water.

ProNano Concrete Remover – this product is widely used in construction sector. It is an innovative, all-ready product, extremely powerful and efficient that removes concrete and lime from construction vehicle and equipment. It is 95 % biodegradable product.

USAGE

APPLY WITH LOW PRESSURE.

Spray the affected area, wait 1–2 hours (it depends on the level of soiling and the time in which the vehicle remained dirty, wait until the concrete becomes slushy). Keep it wet during the process, rinse it off thoroughly using the high pressure washer.

CAR & TRUCK COSMETICS

We offer a wide range of Car & Truck cosmetics for internal and external cleaning.

WE CONCENTRATE QUALITY 

Black Pro – it restores the original color of tires, plastic parts, bumpers and side protection strips. Gives them soft sheen and deepens the color. It creates a delicate coating that protects against discoloration and cracking. It has a prolonged effect.

USAGE

Pour a little amount of the product on the sponge and apply to the surface of the part that requires cleaning, apply it evenly throughout and let it absorb.

750 ml / 5 L /

Type: READY TO USE

Detailing Wax – perfectly polishes and deepens the color of the painted surfaces, quickly restores the surface and masks slight scratches. The unique composition of this product forms a water-repellent coating that resists water and dirt. After applying and wiping, the product does not leave streaks, holograms or white traces of hard water. It does not contain abrasives and is therefore safe for the bodywork. It makes the treated surface water and dirt repellent for 2–3 months. It is based on **Nano Technology**.

USAGE:

Spray it on the surface and spread it evenly with the microfiber cloth. After 1–1 ½ minutes polish it with the microfiber cloth.

750 ml /

Type: READY TO USE

Window Shine – it protects against glare and UV radiation. The product provides a higher contrast and a clearer color perception, resulting in rest of eyes while driving. It gives Polaroid effect.

USAGE:

Before treatment thoroughly clean/degrease the window (use any window cleaner or ProNano Window Clean), make sure the window is dried. Then shake well Window Shine, before and during use. Spray the product evenly on the window and then rub it with the microfiber cloth. After 60 to 80 seconds wipe the surface well until it is spotless and streak-free.

750 ml /

Type: READY TO USE

Window Clean – it cleans and gives shine to windows and mirrors, removes smudges, finger prints, etc. It is perfect for households and offices for cleaning surfaces such as mirrors, crystals, kitchen furniture and ceramic products. It leaves a pleasant scent.

USAGE:

Spray the product on the surface and wipe it off with paper towel or microfiber cloth.

750 ml /

Type: READY TO USE

750 ml

Type: READY TO USE

Cockpit Shine – great product for the maintenance and restoration of the dashboard. It creates anti-static surface and prevents the buildup of dirt and dust. It gives a pleasant scent.

USAGE

Pour a little amount of the product on the sponge and apply to the surface of the part that requires cleaning, apply it evenly throughout and let it absorb.

750 ml

Type: READY TO USE

Interior Clean – ideal product for the maintenance and restoration of the entire inside of the vehicle. The product cleans and repairs plastic parts, lacquered surfaces, upholstery, doors, etc. It contains a high concentration of active substances and removes stains, dust, unpleasant odors from cigarette smoke and leaves a pleasant fresh scent.

USAGE

Spray the product directly on the part to be cleaned, after about 2 minutes polish it with a cloth. You can also spray the product on the sponge or cloth first, rub it in and after 2 minutes polish it.

750 ml

Type: READY TO USE

Hydro Protect – this product makes the treated surface water and dirt repellent. It protects the treated surface against algae and fungus. Contains a high concentration of active substances combined with the extremely effective properties of **Nano Technology**. ProNano Hydro Protect can be used for convertible roofs, car & truck interior, boat covers, tents, working clothes, shoes, and all other textile types.

USAGE

Shake well before and during use. Spray the product sufficiently and evenly on a clean and dry surface. Let the product dry thoroughly and repeat this treatment for an ultimate end result.

750 ml

Type: READY TO USE

Leather Conditioner – Milky product for cleaning, refreshing, impregnating and renovating leather car upholstery. Can be used for any color of both natural and artificial leather. Protects leather and stitching from absorbing water, sweat and dirt. The impregnated surface will continue to breathe; the ingredients of the formula nourish the skin. Protects against UV radiation and cracking, gives an intense scent of new exclusive leather.

USAGE

Apply the product evenly on the surface, rub it in and let it absorb, polish it at the end.

Tropic air freshener – air freshener, which its fragrance is subtle, gentle like a breath of freshness. It can be used wherever there is a need to refresh the air. The sophisticated formula will make the unpleasant odors neutralized and leave a unique scent note in their place.

65 ml /

Ocean air freshener – air freshener with a fresh, perfumed fragrance. Effectively refreshes the air by filling the rooms with pleasant, fresh fragrance. The active components of the product bind with unpleasant odors and neutralize them. Removes unpleasant odors of cigarette smoke, smells of animal, car and organic origin. The product is very efficient, easy to use, does not leave stains.

65 ml /

Beach air freshener – air freshener, which will make you feel special in its surroundings. Its tempting, sweet fragrance envelops every room with a delicate, sensual aroma. It can be used in all types of office rooms, toilets, stairwells, cars and wherever there is a need to refresh the air.

65 ml /

Aqua air freshener – air freshener with a highly concentrated recipe. Its scent is intriguing and strong. It can be used wherever there is a need to refresh the air. The sophisticated formula will make the unpleasant odors neutralized and leave a unique scent note in their place.

65 ml /

TOOLS

Tools that we offer are designed to make cleaning process easier and more efficient.

WE CONCENTRATE QUALITY ✨

High-Pressure Washer Nilfisk MH 4M Semi Pro

The MH 4M high-pressure washer is equipped with industrial NA5 pump, with 3 ceramic pistons and a high efficiency 4 pole motor. The flow activated control system improves user comfort and handling as well as overall machine reliability. It is suited for all hot water slightly heavier cleaning applications up to 4–6 hours use per day and due to the improved fuel saving EcoPower boiler system, it offers very high efficiency and quick cleaning.

The MH 4M concept ensures the most optimal transport concept across a wide variety of surface types with the 4 large wheels and great balance. Optimal accessory storage facilities with double lance holders, turnable hook for easy removal or winding of electrical cable, innovative spray gun holder and easy storage of detergent tanks. Together with the quick service access to all vital parts, this series will provide remarkable cleaning results, saved time and reduced costs.

- High efficiency 4 pole motors
- EcoPower boiler with EcoMode function
- Brass pump head
- Flow or Pressure activated unloader system
- Innovative design with 4 big wheels
- Easy to transport, can even be pushed/pulled across uneven surfaces
- Diesel oil tank with level sight
- As standard delivered with 10 L external detergent tank (A) and space for an extra tank (B)
- Low fuel warning system
- Onboard diagnostics function

Nilfisk High Pressure Washer MH 7M Pro

The tough and robust MH 7P series combines low running costs, ease of use, best in class mobility and high cleaning efficiency. The most effective tool for heavy duty, industrial hot water cleaning. The MH 7P series features low running and maintenance costs, robustness, durability and high cleaning efficiency.

Heating costs are reduced with EcoPower boiler system with > 92% heating efficiency and high heating power levels for even hotter water. Sound level is reduced and lifetime extended with the famous C3 pump and 1450 rpm motor.

- EcoPower boiler with EcoMode function
- EcoPower boiler > 92% efficiency giving reduced fuel costs
- Brass pump head
- 4 ceramic pistons
- Flow activated unloader system
- Innovative design with 4 big wheels
- Easy to transport, can even be pushed/pulled across uneven surfaces
- Oil tank and oil sight
- Low pump oil warning system
- Low fuel warning system
- Onboard diagnostics function
- Easy to use control panel

Stainless Steel Hose Reel

Stainless steel retractable hose reel with 20 meter high pressure hose 3/8 (400 bar / 150°C).

Nilfisk Ergo 2000 Gun

User-friendly spray gun. Low activation forces and low holding forces. Compatible with Nilfisk Hot & Cold Professional Pressure Washers.

Specification:

- Push-Fit Connection
- Plastic & Stainless Steel Construction
- 1 Settings
- Spray Width: 10 mm
- Flow Control Trigger
- Ergonomic Grip

Nilfisk Foam Sprayer with 1 L Bottle

Foam sprayer, which is compatible with Nilfisk pressure washers. Its fast, efficient performance ensures the cleaning area is covered with a layer of rich foam, which stays longer making the surface easier

to clean and reducing the need to reapply the foam. The foam gun can be set to 'long distance', which allows applying foam up to 10 meters. Variable angle spraying pattern from horizontal to vertical.

Suitable for applying the ProNano Plus/Strong and the Diamond Nano Wax.

Universal Foam Sprayer with 1 L Bottle

Universal car wash gun, high pressure foam cleaning sprayer, which is compatible with any pressure washer. Suitable for cleaning large cars and machines. The foam gun can be set to 'long distance', which

allows applying foam up to 10 meters. M22 Pressure Washer Adapter. Variable angle spraying pattern from horizontal to vertical.

Suitable for applying the ProNano Plus/Strong and the Diamond Nano Wax.

Nilfisk Foam Injector Standard

The standard chemical injector it's made of copper and it is ideal for vehicle cleaning. It's use on high pressure systems.

ProNano products can be applied by simply using the built-in device of the high-pressure cleaner. However, on a high-pressure cleaner, extraneous, or downstream, injections can offer various advantages:

- Prevent the products from flowing through the parts of the high pressure cleaner
- Enable the user to easily connect and disconnect them
- Reduce the time between turning off the product and the actual shutdown
- Can be placed closer to the work-place, making refilling and switching on and off easier

Suitable for ProNano Plus/Strong and the Diamond Nano Wax.

Nilfisk Tornado Plus Lance 1120

Nilfisk Tornado Plus 1120 mm is stainless steel twin lance that fits all Nilfisk guns.

Double lance with separate high and low pressure nozzle.

Easy pressure adjustment and optimal low pressure spray pattern for flushing.

Nilfisk Lance 94 cm Universal Plus 940 (incl. Nozzle)

Nilfisk Lance 94 cm Universal Plus 940 + Tornado Plus nozzle 0680 1/8 inch.

The Universal Plus 940 is a lance that is compatible with Nilfisk

high-pressure washer. Used for cleaning surfaces and equipment with foam-based products. It is 94 cm long, comfortable to hold and because it is curved, it easy to clean and reach all parts of vehicles, in example wheel arches, chassis, etc.

Nilfisk Lance 156 cm Universal Plus 1560 (incl. Nozzle)

Nilfisk Lance 156 cm Universal Plus 1560 + Tornado Plus nozzle 0680 1/8 inch.

The Universal Plus 1560 is compatible with almost all Nilfisk high-pressure washers, as long as there is only one click system on the gun. Due to the size of this lance (156 cm) it is very easy to clean higher vehicles, machinery, where it is hard-to-reach.

Nilfisk Foam Injector Stainless Steel

The stainless steel injector is ideal for vehicle cleaning. Due to the material it is made of, it will not rust when in constant contact with water. It's use on high pressure systems.

ProNano products can be applied by simply using the built-in device of the high-pressure cleaner. However, on a high-pressure cleaner, extraneous, or downstream, injections can offer various advantages:

- Prevent the products from flowing through the parts of the high pressure cleaner
- Enable the user to easily connect and disconnect them
- Reduce the time between turning off the product and the actual shutdown
- Can be placed closer to the work-place, making refilling and switching on and off easier

Suitable for ProNano Plus/Strong and the Diamond Nano Wax.

Nilfisk Lance 206 cm Universal Plus 2060 (incl. Nozzle)

Nilfisk Lance 206 cm Universal Plus 2060 + Tornado Plus nozzle 1/8 inch.

The Universal Plus 206, due to its length of 206 cm, reaches the highest, hard-to-reach areas of giant vehicles, agricultural machines, construction equipment, yachts, etc. It is compatible with Nilfisk high-pressure washer.

Nilfisk Lance Double 10 cm 1505 – 15/65°

High pressure, double short lance with adjustable pressure 1505 – 15/65°. It is used for cleaning motors and hard-to-reach areas.

Nilfisk Foam Lance 120 cm

High pressure foam lance, it is stainless steel construction. Quick release couplings for easy connection, water flow 10–25 L/min., max 85°C. It is compatible with Nilfisk Ergo 2000 gun. This lance is used for cleaning surfaces and equipment with foam-based products.

Nilfisk High Pressure Hose 3/8 x 20 m

20 meter high pressure hose, max 400 bars. Complete with 2 couplings 3/8. Ideal for extending away from the machine.

LOW PRESSURE INSTALLATIONS

We offer Low Pressure Installations for the convenience of cleaning variety of vehicles, machinery and equipment for the following sectors:

- car / truck washes
- cars, RV's, campers rental
- car / truck fleets
- truck stops service areas
- marines maintenance services for boats, yachts, cruise liners, dredgers, passenger and naval ships, offshore production, tankers, and support vessels
- transport companies
- farmers with various agricultural vehicles, machinery and equipment
- industrial sector and giant trucks washes
- service and maintenance sector at the airport

Low pressure installation is assembled in ProNano Head Quarters, so you do not have to install it yourself.

ProNano Low Pressure Installation Combo Plus & Diamond

This package contains:

- 50 L ProNano Plus Concentrate 15 L & Diamond Nano Wax Concentrate
- 2 Hose reels 20 m
- 2 Water Pumps
- 2 Pressure regulators
- 2 IBC barrels
- 2 Low pressure guns

Low pressure installation is assembled in ProNano Head Quarters, so you do not have to install it yourself.

Diamond Nano Wax Low Pressure Installation

This package contains:

- 15 L Diamond Nano Wax Concentrate
- Hose reels 20 m
- Water Pump
- Pressure regulator
- IBC barrel
- Low pressure gun

Low pressure installation is assembled in ProNano Head Quarters, so you do not have to install it yourself.

ProNano Plus Low Pressure Installation

This package contains:

- 50 L ProNano Plus Concentrate
- Hose reels 20 m
- Water Pump
- Pressure regulator
- IBC barrel
- Low pressure gun

Low pressure installation is assembled for use in ProNano HQ, so you do not have to install it yourself.

Refill Kit

Diamond Nano Wax Low Pressure Installation

Refill kit for the Diamond Nano Wax Low Pressure Installation:
15 L Diamond Nano Wax Concentrate

Refill kit for the ProNano Plus Low Pressure Installation:
50 L ProNano Plus Concentrate

ACCESSORIES

In addition to a substantial range of tools, our offer consists of a variety of accessories, which will significantly improve and enhance your cleaning results.

WE CONCENTRATE QUALITY ✨

Sponge

Efficient sponge for interior and exterior vehicle care. This sponge can be used to apply ProNano products such as Black Pro and Cockpit Shine.

Microfiber Cloth

With millions of fibers, this cloth lifts and holds dirt, grease, grime, liquids and bacteria. These fibers include both positive-charged polyester fibers and negative-charged nylon fibers that actually attract and pull up whatever is on the cleaning surface. It can be used to apply Diamond Wax to leave the effect of "shine like a diamond".

Silicone Car Squeegee

It may be used to quickly and efficiently dry any large flat surface. The silicone blade will not scratch and leaves a clean, streak-free finish. Its comfort handle allows for a better control. Use on vehicle windows, vehicle surface, shower doors, tile, boats and more.

Aluminium Handle 1310 mm

The aluminum handle has a comfortable grip, rounded top and hanger. It can be used with car squeegee. Due to its length it helps to reach the highest parts of vehicles.

Low Pressure Sprayer 1 L

Innovative hand-operated pressure sprayer for creating and applying cleaning foam. The sprayer comes with a hand pump to build up pressure. It generates a powerful cleaning foam thanks to the design of its nozzle. It produces a dense foam that softens dirt and allows its easy removal. Easy to operate.

Low Pressure Sprayer 5 L

High-performance pressure sprayer for applying cleaning foam. The low pressure sprayer sets new standards: ergonomic, practical, powerful – with extensive basic equipment. Integrated compressor connection allows for long working intervals without manual pumping. Spiral hose is ideal for achieving a wide range and even more flexibility. It also includes pressure regulator with manometer on the quick-closing valve. Effortlessly adjustable degree of foaming.

Low Pressure Sprayer 12 L

The new piston knapsack sprayer with a filling capacity of 12 liter meets the latest ergonomic findings and reduces physical stress when used. The sprayer features a back-friendly tank that adapts to the body. Padded shoulder strips with a quick-release system ensure a good grip and prevent shoulder pain.

Battery Sprayer Model 1600E

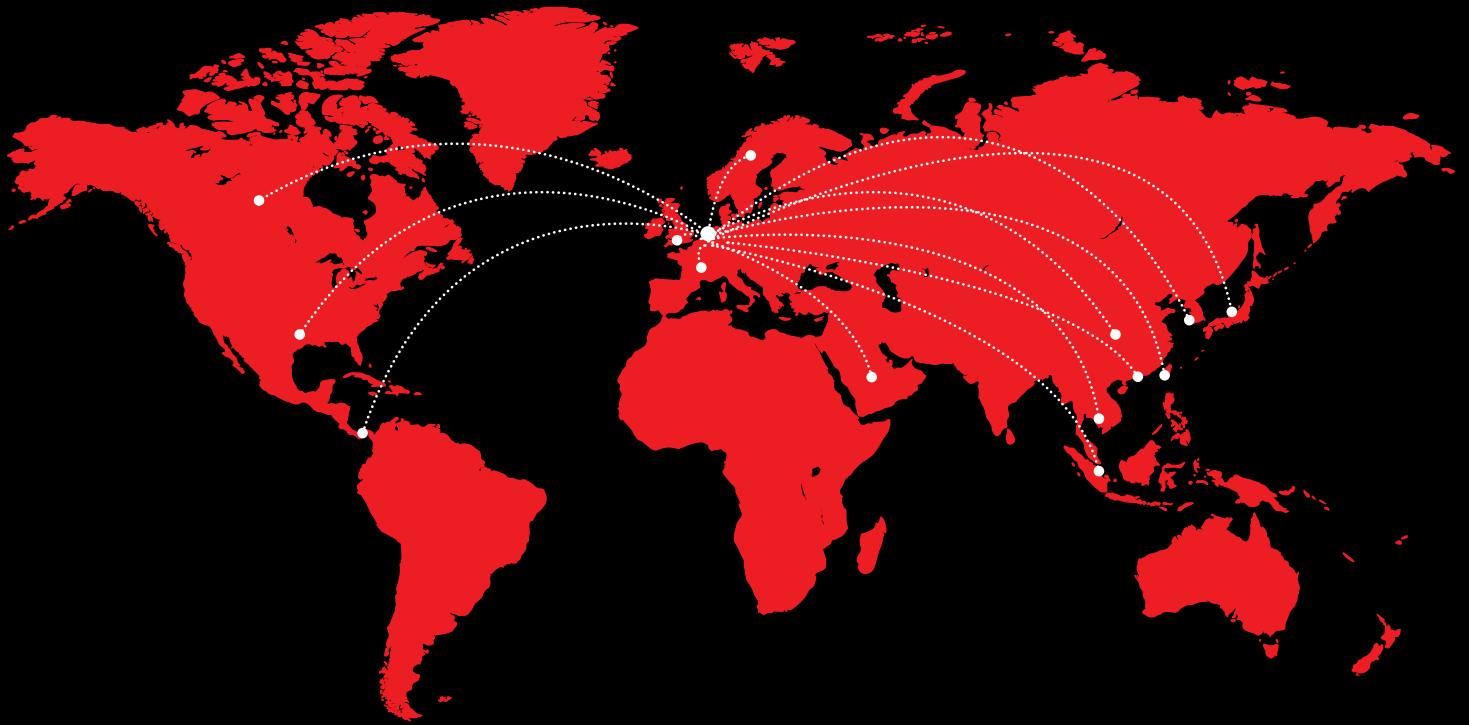

Battery operated, universal pressure sprayer with full electric pump for great workability.

- Capacity: 16 L
- Stainless steel lance with manometer
- Carrying system: backpack frame with shoulder straps
- Time to full battery: 230 V/approx. 4 hours
- Battery: lead-gel/12 V/9 Ah
- Weight: 7 kg

Battery Sprayer Model 1600E can be carried on the back and is suitable for ProNano products.

Tip: After use, fill the tank with clear water and spray 1–2 minutes to clean it well.
