

The only choice for
commercial landscapers
to replace petrol

Catalogue 2026

“The quality is unbeatable.
The team loves the way everything
works. The batteries are super.
Nothing comes close.”

Thomas Peters, Greenkeeper Royal
Portrush Golf Club, Northern Ireland

Kress 

OFFICIAL LANDSCAPING EQUIPMENT

We've never made an internal combustion engine.
And never will.

**Kress has always
been at the forefront
of electric innovation.**

Founded by Christian Kress in 1928, the company's initial focus was electric motors.

By the 1960s, the brand expanded into stationary workshop machines and portable power tools.

With a state-of-the-art R&D centre in Switzerland in 1979, the emphasis shifted towards cordless tools, and Kress distribution expanded to 60 countries.

Joining the international Positec Group in 2017 supercharged the brand's focus on cordless outdoor power equipment for professionals and homeowners.

In 2023, Kress proudly introduced the 8-minute CyberSystem, setting a new global standard in battery power, charging time and lifespan.

As an icon of German engineering, Kress remains committed to a future free of fossil fuels.

**Groundbreaking
Innovations**

8-minute charging to 100% with Kress CyberSystem, the fastest charging, longest-lasting battery solution in the market.

Dealer network

100% commitment to Independent Dealer Network.

Green values

Holding both Leed Platinum and WWF Platinum certifications, Kress is not only dedicated to minimising our own environmental impact but is also committed to empowering users worldwide to reduce their carbon footprint.

Contents

“ Kress Commercial not only elevated our bottom line, but it’s also compliant to California’s regulations without impacting on productivity.”

CyberSystem 60 V Commercial

Why Kress batteries are unique

Kress does not assemble third-party cells designed for general use. Kress 8-minute batteries are the fruit of extensive research and proprietary technology, engineered to create the ideal power solution specifically for commercial landscaping demands.

“Our partnership with Kress brings battery-powered outdoor equipment to the field, elevating service levels while protecting our planet.”

Stuart Barker, Programmed Property Services, Australia

Conventional batteries
overheat—wasting energy,
slowing down charging, and
shortening lifespan.

Kress 8-minute batteries stay
cool—more power to the tool,
ultra-fast charging on the job,
and much longer lifespan.

CyberSystem
60 V Commercial

6.5kW*

The only choice
for commercial landscapers
to replace petrol

CyberSystem

Ready to abandon petrol? Look no further. Still clinging to petrol? It's time to evolve.

Insane power

The era of batteries chasing the power of petrol engines is over. Now, it's their turn to try and catch up with Kress.

“ I tried other brands but was not satisfied: they lacked productivity, efficiency, and savings. Kress has enabled my crews to work better. ”

Fabio Armani, Eco Garden Net,
Tuscany, Italy

*Peak power output of the Kress 8-minute 240 Wh battery, achievable for up to 10 seconds; continuous is 3.2 kW, deliverable up to full battery discharge.

The new paradigm of power

Kress 8-minute CyberPack batteries excel over internal combustion engines, ensuring peak performance across RPMs. Their unique composition enables high discharge current without compromising cell integrity or longevity.

Extreme longevity

Guaranteed for 3,000 cycles, Kress 8-minute CyberPack batteries are the only batteries to outsave fossil fuels.

3000
cycles

Ultra-fast on-site charge

At just 8 minutes*, batteries power up faster than they wind down. Even better, they charge on the go - no AC outlet needed.

* With 8-minute CyberPack batteries

“I converted all my crews to Kress. Prioritising our employees' health is one of the best retention strategies we have.”

Justin White, CEO of K&D,
California, USA

Why many battery systems fall short as a true alternative to petrol

Conventional lithium battery systems lack the high-power output needed for commercial landscaping, charge too slowly, and miss the convenience of unplugged on-site charging. Their shorter lifespans mean more frequent replacements and higher costs.

Energy system - CyberSystem

No AC outlet available on site

Bring the energy on site and recharge batteries in just 8-minute. Power through the workday with no interruptions.

Transportability and flexibility

Bring the energy with you and recharge batteries on site. Power through the workday with no downtime.

AC outlet available in the job site

Plug into our super-fast charger with just a minimal set of batteries to ensure continuous operation without downtime.

“Thanks to Kress, I have been able to make a change that brings benefits to everyone involved and also generates savings.”

CIS, Tuscany, Italy

**Why choose Kress
Commercial tools**

Switching to Kress Commercial battery-operated tools will relieve you and your workforce from health risks associated with fossil-fueled engines.

Vibration

Exposure to prolonged or excessive vibration can lead to a condition known as hand-arm vibration syndrome (HAVS).

Air pollution

The particulate emissions from a two-stroke engine operating for just one hour are equivalent to those from driving a car for 1,000 miles.

Source: California Air Resource Board

Noise

Prolonged exposure to high levels of noise has consequences on both physical and mental health.

CyberTank 60 V Commercial

Ultra-fast on-site charge

Achieve a 100% charge for your batteries in just 8 minutes*, ensuring uninterrupted operation during your daily tasks.

Guaranteed for longevity

The Kress Commercial CyberTank excels in battery longevity with its automotive-grade LFP cells and tri-port management system, ensuring superior performance and extended lifespan.

DC-DC ports

With triple DC-DC ports enable simultaneous charging of multiple Kress 60 V batteries, ensuring uninterrupted power and boosting on-site efficiency.

Durable by design

With durable metal housing and IPX4 water-resistance, it withstands tough conditions, ensuring reliable performance and longevity in demanding professional environments.

* In boost mode

5 kWh CyberTank portable power station

KAC875E

The tank—
reinvented for clean
energy

The CyberTank delivers 5 kWh of quiet, emission-free power to keep your batteries charged all day. Perfect for fleets and councils, it charges CyberPacks in as fast as 8 minutes with boost mode.

Stored energy	5.04 kWh
Charge time (standard)	1 × 240 / 660 Wh: 14 min
	2 × 240 / 660 Wh: 14 min

CyberCapsule

60 V Commercial

The energy link

Serving as the power source of CyberTank Lite charging solution, it ensures 5 full charges of 240 Wh CyberPack batteries.

Dual-use power hub

Featuring an impressive 1.5 kWh energy storage capacity and a peak output power of 9.7 kW, the CyberCapsule can double as a substantial battery module.

Durability redefined

The Kress CyberCapsule is built to last, withstanding rigorous conditions with its sturdy construction and IPX5-rated sealed PCB.

Durability redefined

Even under high discharge currents, the Kress CyberCapsule batteries are warranted for 5-year or 1200-cycle (whichever comes first), ensuring long-lasting cost savings.

60 V 1.5 kWh CyberCapsule

KAC815

Modular energy,
anywhere

A portable 1.5 kWh energy module that stores power for on-the-go recharging. Paired with the CyberLite charger, it powers your batteries in the field or serves as a high-capacity backpack battery for direct tool use.

Max. voltage	60 V
Energy capacity	1.5 kWh

CyberLite charger 60 V Commercial

Ultra-fast charging

The CyberLite charger is a game-changer, boasting the ability to power a 240 Wh CyberPack from a 1.5 kWh CyberCapsule in an astounding 12 minutes.

Redefining resilience

Built for endurance, the Kress Commercial CyberLite charger features a robust design with an IPX5 rating, ensuring reliable protection against drops, dust, impacts, vibrations, and the elements.

Stay in control

The CyberLite charger has intuitive LED indicators for quick charge updates and system diagnostics for optimal battery management and performance.

Power in hand

With an ergonomic handle and light build, the charger offers excellent portability, engineered for landscape professionals who need reliable power anywhere.

60 V Kress Commercial CyberLite charger

KAC844

Charge anywhere, no outlet needed

The CyberLite is a portable DC-DC charger that draws energy from a CyberCapsule to recharge any CyberPack in the field—no AC power required. With a 12-minute charge time for 240 Wh, it keeps your tools powered and your team mobile.

Output voltage	60 V
Charging current	30 A
Charging time (240 WhCyberPack)	12 min
Weight	11.8 kg

CyberPlug charger 60 V **Commercial**

High-speed charging hub

With 1800 W output and advanced air cooling, the Kress CyberPlug delivers fast, efficient charging from any AC outlet-ideal for professionals seeking speed and reliability.

Redefining resilience

Built for durability, the Kress Commercial CyberPlug charger features a rugged design to handle tough conditions. With an IPX5 rating, it resists water, dust, impact, vibrations, providing dependable performance in any environment.

Dual-port design

The dual ports intelligently recognize and sequential charge a pair of batteries from the Kress CyberSystem lineup, optimising downtime.

Universal compatibility

Kress CyberPlug can charge all Kress 60 V batteries and CyberPacks.

60 V Kress Commercial 30 A CyberPlug charger

KAC840

Plug-in fast charging

The CyberPlug is a powerful AC charger built for commercial crews with access to jobsite power. It charges multiple CyberPacks back-to-back, reaching full charge in just 12 minutes (240 Wh) or 25 minutes (660 Wh).

CyberPack Nano 60 V Commercial

Small but powerful

Delivering 240 Wh of robust energy in a sleek package, the CyberPack Nano offers consistent power for professional-grade tools without the bulk.

Enhanced longevity

Even under high discharge currents, the Kress CyberPack Nano batteries are warranted for 4-year or 1200-cycle (whichever comes first), ensuring long-lasting cost savings.

Built to last

Fortified with a sealed PCB and air-cooling system, ensuring IPX5-rated protection against the elements. Dependable in the toughest conditions, it's the professional's choice for consistent performance.

“With Kress technology we're able to run crews with an 8-minute charge. We're charging batteries on the go—all day.”

Chris Angelo, President and CEO
Stay Green, California, USA

Lawn mower 60 V **Commercial**

Power is nothing without torque

Delivers higher torque than other battery-powered models and outperforms popular gas-powered mowers.

Precision cut quality

Excels in delivering a superior finish across various mowing modes.

Less time emptying, more time mowing

Advanced LiftStream™ airflow maximizes bag capacity, reducing emptying frequency by up to 33%.

Unstoppable uphill, easy on turns

Powered by a dedicated brushless motor, provides smooth and consistent traction across all terrains.

51 cm reinforced steel deck SP lawn mower

KC711.9

Simply unboggable This commercial-grade self-propelled mower powers through dense, overgrown grass—without ever bogging down.

Voltage	60 V
Motor type	Brushless
Cutting mode	mulch / bag / rear side discharge
Cutting height	25 mm - 115 mm
Torque	11 Nm
Deck material	Reinforced steel
Bag capacity	88 L
Weight (bare)	42 kg
IP rating	IPX5

47 cm reinforced steel deck SP lawn mower

KC720.9

Seriously unstoppable This self-propelled mower delivers 190 cc-equivalent performance with 11 Nm of torque—powering through thick, overgrown grass without bogging down.

Voltage	60 V
Motor type	Brushless
Cutting mode	mulch / bag / rear side discharge
Cutting height	20 mm - 80 mm
Torque	11 Nm
Deck material	Reinforced steel
Bag capacity	70 L
Weight (bare)	38 kg
IP rating	IPX5

Say goodbye to half-empty bags and frequent stops

Mowing efficiency is redefined with Kress LiftStream™ — an advanced aerodynamic design that stretches from blade to bag.

Grass trimmer 60 V **Commercial**

Precise performance

Engineered for professionals, Kress grass trimmers ensure steady power output for clean, efficient cuts in varied landscaping tasks.

Versatile trimming solution

Built for flexibility, featuring interchangeable heads and cutter blades to skillfully handle a variety of cleaning tasks.

Effortless line reload

Equipped with a quick-load head to accelerate the process, significantly reducing downtime.

Precision speed control

Offers a safe, efficient solution for maintaining both roadsides and public spaces with its variable speed trigger.

42 cm rear-motor grass trimmer

KC100.9

Excellent performance

With the strength of a 45 cc petrol trimmer, this high-performance tool powers through dense growth and demanding conditions.

Voltage	60 V
Motor type	Brushless
Line diameter	2.4 mm / 2.7 mm
Cutting speed	4200 / 5100 / 5900 rpm
Line feed system	Bump feed
Trimmer head type	Rapid reload
Line reload length	9 m
Weight (bare)	4.6 kg
IP rating	IPX5

42 cm front-motor grass trimmer

KC110.9

Precision handling, pro performance

Lightweight yet powerful, this trimmer features a front-mounted motor for perfect balance and control—ideal for detailed landscaping work.

Voltage	60 V
Motor type	Brushless
Line diameter	2.4 mm / 2.7 mm
Cutting speed	4500 / 5500 rpm
Line feed system	Bump feed
Trimmer head type	Rapid reload
Line reload length	4 m
Weight (bare)	2.97 kg
IP rating	IPX5

Quick-load trimmer head

The quick-load trimmer head is designed for speed and simplicity, allowing for refills in as little as 30 seconds.

Attachment-capable line trimmer 60 V **Commercial**

Powerful performance

Delivers 1.3 kW power, ensuring efficiency and speed across tasks.

Precision speed control

Offers a safe, efficient solution for maintaining both roadsides and public spaces with its variable speed trigger.

Streamlined line reload

Features a quick-load head, significantly reducing downtime and enhancing operational efficiency.

Quick and easy coupling

Enjoy swift, secure attachment changes with the quick-couple system, providing clear feedback for safety and ease of use.

42 cm attachment-capable line trimmer

KC120.9

One tool, endless possibilities

Its quick-change attachment system turns it into a brush cutter, edger, hedge trimmer, or pole saw—giving pros the flexibility to handle any task with one machine.

Voltage	60 V
Motor type	Brushless
Line diameter	2.4 mm / 2.7 mm
Cutting speed	4500 / 5900 rpm

“ Being the first to embrace electric equipment showcases our company as an industry leader committed to innovation and sustainability.”

Jake Reynolds, DW Burr Landscape and Design, Connecticut, USA

Multi-tasking tool power head and attachment

Power head

KAC104

The power head is the core of the multi-tasking tool system, enabling professionals to tackle various tasks with its attachments.

Compatible model	KC120.9
Output power	1.3 kW
Length	83 cm
Weight	2.8 kg
IP rating	IPX5

Grass trimmer attachment

KAC105

The grass trimmer attachment, featuring rapid reload, ensures efficient trimming for professionals.

Compatible model	KC120.9
Cutting width	42 mm
Line reload volume	4 m
Length	98 cm
Weight	1.5 kg
IP rating	IPX5

Straight shaft edger attachment

KAC141

The straight-shaft edger attachment creates sharp and precise edges.

Compatible model	KC120.9
Blade length	20 cm
Length	93 cm
Weight	2.4 kg
IP rating	IPX5

Curved shaft edger attachment

KAC142

The curved-shaft edger attachment maintains neat and exact edges.

Compatible model	KC120.9
Blade length	20 cm
Length	91 cm
Weight	2.3 kg
IP rating	IPX5

Adjustable hedge trimmer attachment

KAC200

The adjustable hedge trimmer attachment with 145° working range, providing the perfect reach and range for conquering varieties of hedges.

Compatible model	KC120.9
Blade length	55 cm
Length	154 cm
Weight	2.7 kg
IP rating	IPX5

Pole saw attachment

KAC361

The pole saw attachment facilitates quick cuts in hard-to-reach areas.

Compatible model	KC120.9
Blade length	25 cm
Length	127 cm
Weight	1.8 kg
IP rating	IPX5

Extension shaft

KAC360

The shaft enhances the reach of pole saw or hedge trimmer attachments.

Compatible model	KC120.9

Voltage	60 V
Motor type	Brushless
Cutting speed	3200 / 4000 spm
Blade length	55 cm
Tooth spacing	34 mm
Weight (bare)	5.4 kg
IP rating	IPX5

Rear-handle chainsaw

60 V Commercial

Ready for unstoppable power?

Delivers consistent performance under varying loads without stalling, unlike 2-stroke engine chainsaws, which often lose power under heavy loads.

Optimized safety integration

Equipped with an inertial brake, anti-trigger battery lock, dual-action trigger, and rear handle protection, ensures secure, reliable operation.

Arborist's power ally

Deliver commercial-grade cutting power with minimal maintenance. Built for arborists, as powerful as gas, offering longer runtime and lower costs. Reliable for demanding professional use.

Precision tension

The tensioning system allows quick, precise adjustments, keeping the chain at optimal tension for better efficiency and extended lifespan.

40 cm chainsaw

KC300.9

Real power
in every cut

With a 24 m/s chain speed and sustained torque across the full RPM range, the KC300.9 cuts fast—and keeps cutting.

Voltage	60 V
Motor type	Brushless
Chain speed	24 m/s
Chain pitch	0.325"lp
Chain gauge	1.1 mm
Weight (bare)	3.7 kg
IP rating	IPX5

40 cm chainsaw

KC310.9

Real power
in every cut

Unlike petrol saws, it won't stall under load, making it ideal for landscaping pros and municipalities needing power, precision, and clean operation.

Voltage	60 V
Motor type	Brushless
Chain speed	24 m/s
Chain pitch	0.325"lp
Chain gauge	1.1 mm
Weight (bare)	2.9 kg
IP rating	IPX5

50 cm chainsaw

KC340.9

For heavy-duty
cutting

Delivering 30 m/s chain speed, this saw is built for heavy-duty felling and pruning. Its sustained torque across the RPM range prevents stalling under load—giving arborists and landscapers full power, clean cuts, and control in every condition.

Voltage	60 V
Motor type	Brushless
Chain speed	30 m/s
Chain pitch	0.325"
Chain gauge	1.3 mm
Weight (bare)	4.8 kg
IP rating	IPX5

NEW

Top-handle chainsaw 60 V **Commercial**

Robust power for precision work

Designed for professional arborists, delivers 2.4 kW power and 24 m/s chain speed, matching a 40 cc petrol chainsaw. It excels in precise cutting with exceptional efficiency and maneuverability.

Built to last

Features a professional-grade cutting system engineered for precision and durability in woodcutting and tree maintenance. A tool built for enduring performance.

Safety first

Prioritizes safety with an inertial brake, dual-action trigger, battery release catch, and multi-hook combination, ensuring reliable and secure operation.

Commercial-grade brushless motor

The brushless motor delivers powerful, efficient performance with a longer lifespan and lower maintenance than gas chainsaws.

35 cm top handle chainsaw

KC320.9

Powerfully lightweight

This arborist-grade top handle saw delivers sustained torque that prevents stalling—offering precise cuts, reduced kickback, and lower running costs than gas or competing battery tools.

Pole saw 60 V **Commercial**

Superior performance

With 1.6 kW power and a 17 m/s chain speed, equivalent to a 30 cc petrol pole saw, the KC330 delivers smooth, continuous cuts for effective pruning and overhead branch cutting.

Commercial grade brushless motor

The commercial-grade brushless motor provides exceptional power, extended runtime, and durability. It offers reliable, maintenance-free performance compared to petrol chainsaws.

Multi-safety design

Features a control panel, trigger guard, brake indicator, status LED, and multiple alarms for safe and efficient operation during demanding tasks.

Balanced design

The rear motor layout and 2-point adjustment of the pole saw enhance balance and ease of use, reducing fatigue in extended cutting tasks.

25 cm telescopic pole saw

KC330.9

Extended precision

Reaching up to 4 meters, this pole saw delivers sustained torque that won't stall under load. Its 2-point adjustable head offers clean, accurate cuts from any angle—ideal for arborists and pros working from the ground up.

Backpack blower 60 V Commercial

Superior performance

With exceptional blowing force, air volume, and air speed, the Kress blower is engineered to deliver top-tier performance among commercial DC blowers.

QuietStorm™ low-noise technology

Kress blowers meet city noise regulations and demanding customer needs, helping you secure low-noise bids while delivering petrol-like blower performance.

Fatigue-less design

The harness is crafted from breathable materials, ensuring air circulation and comfort during extended use.

Precision at your command

The variable speed trigger system allows for precise power adjustments, promoting energy-saving practices and extending battery pack runtime.

30 N backpack blower

KC520.9

Quiet power,
built for big yards

A 30 N backpack blower designed for medium to large residential properties with demanding cleanup needs. Delivering strong airflow at just 79 dB, it is perfect for larger properties and noise-restricted areas.

30 N

Voltage	60 V
Motor type	Brushless
Max. air volume	1360 m³/h
Max. air speed	89 m/s
Weight (bare)	7.4 kg
IP rating	IPX5

NEW

35 N backpack blower

KC500.9

Quiet-zone
compliant

With 35 N of thrust, this quiet machine operates at just 79.5 dB, meeting silent zone requirements with no fumes, no vibration, and top performance. Ideal for cities, campuses, and contractors needing serious output with zero disruption.

35 N

Voltage	60 V
Motor type	Brushless
Max. air volume	1529 m³/h
Max. air speed	85 m/s
Weight (bare)	6.9 kg
IP rating	IPX5

41 N backpack blower

KC501.9

Our most powerful
blower yet

With 41 N of blowing force, this is the most powerful Kress blower to date—engineered for heavy-duty and municipal landscaping. Delivering exceptional performance at only 85.2 dB, it pairs maximum power with minimal noise.

41 N

Voltage	60 V
Motor type	Brushless
Max. air volume	1631 m³/h
Max. air speed	102.5 m/s
Weight (bare)	7.1 kg
IP rating	IPX5

NEW

Handheld blower 60 V **Commercial**

High-efficiency blowing

With an air volume of 1444 m³/h** and 22 N blowing force, this blower is essential for professionals seeking efficiency and reliability in demanding landscaping tasks.

QuietStorm™ low-noise technology

The KC510 meets city noise regulations and customer demands, helping you win bids where low noise is key, while delivering high-end petrol blower performance.

Precision at your command

The variable speed trigger system allows for precise power adjustments, promoting energy-saving practices and extending battery pack runtime.

4-step speed settings

Ultimate control with 4-step speed settings and feathered cruise control for precise airspeed and reduced fatigue during extended use.

22 N handheld blower

KC510.9

Compact power

With 22 N of thrust and air speeds up to 83 m/s, this blower delivers pro-grade output in a lightweight 2.6 kg build. Powered by QuietStorm™ technology, it's ideal for noise-sensitive areas.

22 N

Voltage	60 V

Compatible with Mower

60 V Commercial App

Highly integrated App

All elements of our system work together to form an interconnecting network. Batteries communicate with tools and chargers. Data is sent to the cloud for diagnostic, theft protection, fleet management and much more. All of the information you need is at your fingertips.

Fleet management

Real-time equipment tracking. Manage crews and operators, check out and check in to know equipment inventory. Know how your equipment is used, work history, power consumption, efficiency and more. Manage your customer lists.

Smart control

Display of equipment status and remote control. Theft protection with quick CyberTank lock down upon anti-theft alert. Error notifications, "How to solve" guide, product manuals for troubleshooting anywhere.

Equipment management

Effortlessly connect your devices through the App to track locations, monitor statuses, control remotely, and perform OTA updates. Enjoy streamlined charging management, detailed usage insights, and power consumption data. Simplify inventory tracking with easy check-in and check-out features.

Anti-theft warning

Define an anti-theft zone with CyberTank and get instant alerts if your equipment moves beyond the designated area. Keep your tools secure during brief stops or once they return to your facility.

Customer management

Easily organize and oversee customer details and addresses for enhanced efficiency and convenience.

Crew management

Oversee your team and personnel, control device access and permissions for remote operations using check-in and check-out functionality.

60 V Professional

High performance tools
for pros and homeowners

**Tame tough
landscapes**

Maintain high-demand areas with pro-grade power. The Kress 60 V Pack performs effortlessly to streamline the way you care for large yards, forested landscapes, small farms, and more.

Smartlink

Our intelligent battery control software for battery protection, optimal energy, supply, and communication between the tool, charger, and the battery.

Cell guard

The cells are shielded to prevent vibration and contact with each other (impact protection, vibration protection).

Heatshield

Cells stay cooler longer, increasing efficiency and extending battery life.

**The advantages of
our brushless Kress
motors**

Kress 60 V motors are designed for high loads and optimal combination with our 60 V max batteries. The battery energy is efficiently transformed into performance.

No wear

Unlike brush motors, brushless motors are wear-free:

- No replacing wear parts
- Longer service life
- Improved battery performance and service life

Top energy efficiency

Brushless motors transform energy almost completely into performance:

- 85% energy utilization (compared with 75% for brush motors, 15% for petrol engines)
- No friction losses
- Minimal heat generation

Optimally co-ordinated power

Kress 60 V motors are designed to get the most out of the battery power:

- Optimal energy utilization
- High torque
- No overcharging

Outer-rotor motor

Lawn mower
60 V Professional

**Single lever
height adjustment**

Adjust your cutting height rapidly from one location.

Bag / mulch selector

Quickly switch between mulching or bagging applications. Replaces a traditional mulch plug.

Brushless motor

High-efficiency motor provides more power, extended run time, and longer life.

Torque logic

Maintains cutting power under difficult mowing conditions.

46 cm push mower

KG756E.9

Agile yet powerful

Quiet, zero-emissions, cost-effective and packed with many practical functions, this mower is perfect for precision mowing of mid-size lawns up to 800 m².

1.5 kW

Voltage	60 V
Motor type	Brushless
Cutting mode	mulch / bag / rear side discharge
Cutting height	20 mm - 80 mm
Deck material	Polymer
Bag capacity	55 L
Weight (bare)	24.1 kg
IP rating	IPX4

46 cm self-propelled mower

KG757E.9

High performance with ease of use

This quiet mower delivers cost-effective uncompromising performance and user-comfort with zero emissions, ideal for medium-sized lawns up to 800 m².

1.8 kW

Voltage	60 V
Motor type	Brushless
Cutting mode	mulch / bag / rear side discharge
Cutting height	20 mm - 80 mm
Deck material	Polymer
Bag capacity	55 L
Weight (bare)	26.5 kg
IP rating	IPX4

51 cm self-propelled mower

KG760E.9

High performance with ease of use

Cost effective and quiet with zero-emissions, this mower provides petrol-level power for lawns up to 1000 m².

2.2 kW

Voltage	60 V
Motor type	Brushless
Cutting mode	mulch / bag / side discharge
Cutting height	20 mm - 80 mm
Deck material	Steel
Bag capacity	70 L
Weight (bare)	32 kg
IP rating	IPX4

Grass trimmer 60 V Professional

ECO mode

Extends battery life and is great for trimming in delicate areas.

D-handle

For multiple position operation in trimming and edging.

Brushless motor

High-efficiency motor provides more power, extended run time, and longer life.

Quick load

Dual-line bump feed head features easy line loading with a simple twist of a knob.

38 cm grass trimmer

KG160E.9

Lightweight but powerful

High-Performance string trimmer, with a powerful brushless motor, built for frequent professional-grade garden maintenance.

0.95 kW

Voltage	60 V
Motor type	Brushless
Line diameter	2.4 mm
Cutting speed	6000 rpm
Line feed system	Bump feed
Trimmer head type	Rapid reload
Line reload length	4 m
Weight (bare)	3 kg

41 cm carbon fiber grass trimmer

KG161.9

Lightweight carbon fiber shaft

Equipped with a powerful brushless motor and durable, lightweight carbon fiber shaft, this trimmer delivers gas-like power without emissions, ideal for professional-grade garden upkeep.

0.95 kW

Voltage	60 V
Motor type	Brushless
Line diameter	2.4 mm
Cutting speed	5600 rpm
Line feed system	Bump feed
Trimmer head type	Rapid reload
Line reload length	6 m
Weight (bare)	3.12 kg

38 cm attachment capable grass trimmer

KG163.9

Lightweight and attachable for multi-usage

Powered by a powerful brushless motor, this versatile grass trimmer offers multi-attachment compatibility, ideal for frequent professional grade garden maintenance.

1.2 kW

Voltage	60 V
Motor type	Brushless
Line diameter	2.4 mm
Cutting speed	6000 rpm
Line feed system	Bump feed
Trimmer head type	Rapid reload
Line reload length	6 m
Weight (bare)	4.3 kg

Available attachments:
brush cutter, polesaw,
hedge trimmer, edger.
See more details in
accessories page

Hedge trimmer 60 V Professional

Blade tip guard

Reduces blade wear when cutting near the ground or walls.

64 cm dual laser-cut blades

Extremely sharp dual-sided blade for a clean cut on every branch.

Brushless motor

High-efficiency motor provides more power, extended run time, and longer life.

Handguard

Additional operator protection near the front handle.

64 cm hedge trimmer

KG262.9

Easy to use

Equipped with laser-cut blades and an ergonomic D-grip handle, this quiet hedge trimmer delivers swift cuts of branches up to 2.5 cm thick with zero emissions.

Battery & charger 60 V Professional

The ideal battery
for all jobs

Kress 60 V battery technology

100% compatible with all 60 V Kress outdoor power equipment. All the products in the 60 V range fully exploit the higher power of the 60 V battery. The lithium-ion battery guarantees continuous high power and faster charging. It also stays cool, even with high loads. Our batteries are made from top-quality materials for a longer service life, and they meet all recycling requirements.

Battery & charger

60 V Professional

60 V **2.0 Ah** battery

KA3000

The KA3000 guarantees continuous power and faster charging for the toughest jobs. It has a cooling technology that works even under high loads. It is manufactured from top-quality materials for a longer service life.

Charge time	from 25 min
Weight	1.55 kg
Battery capacity indicator	Yes

60 V **4.0 Ah** battery

KA3002

The KA3002 delivers continuous power and extended runtime for tough jobs. It is engineered with a cooling technology and premium materials that ensure durability and longer service life, even under heavy loads.

Charge time	from 30 min
Weight	2.75 kg
Battery capacity indicator	Yes

60 V **8.0 Ah** battery

KA3018

The KA3018 delivers relentless power for tough tasks, charges rapidly, and it's built with the best materials for an extended lifespan.

Charge time	from 50 min
Weight	2.95 kg
Battery capacity indicator	Yes

60 V **3 A** charger

KA3713

This charger communicates with the battery to balance the cells and monitors temperature and voltage, helping to extend the battery's lifespan.

Weight	1.5 kg
Charge times	
1 × 2.0 Ah	40 min
1 × 4.0 Ah	80 min
1 × 8.0 Ah	160 min

60 V **5 A** fast charger

KA3714

This charger offers fast and efficient charging with its SmartLink battery management and cooling system. It charges batteries in minutes while providing enhanced protection for the cells, ensuring a longer service life.

Weight	1.7 kg
Charge times	
1 × 2.0 Ah	25 min
1 × 4.0 Ah	50 min
1 × 8.0 Ah	100 min

60 V **8 A** dual port charger

KA3706

This dual charger can charge two 60 V batteries at the same time. The built-in SmartLink battery management and cooling system provide a better protection for the battery's cells and they guarantee a longer service life.

Weight	2.8 kg
Charge time	
1 × 2.0 Ah	25 min
2 × 2.0 Ah	30 min
1 × 4.0 Ah	30 min
2 × 4.0 Ah	60 min
1 × 8.0 Ah	60 min
2 × 8.0 Ah	120 min

40 V Range

Dual 20 V batteries
for dominating
40 V performance

Power up your yard

For everyday homeowners, Kress offers a versatile range anchored by a modular 20 V battery pack system. Double up to 40 V for high-powered tasks, or stick with a single 20V module for compactness and ease in lighter duties.

Smartlink

Our intelligent battery control software for battery protection, optimal energy, supply, and communication between the tool, charger, and the battery.

Cell Guard

The cells are shielded to prevent vibration and contact with each other (impact protection, vibration protection).

Heatshield

Cells stay cooler longer, increasing efficiency and extending battery life.

Lawn mower 40 V Range

Single lever height adjustment

Adjust your cutting height rapidly from one location.

Brushless motor

High efficiency motor provides more power, extended run time and longer life.

Battery status easy check on deck

Quickly and easily checking remaining battery status from deck.

37 cm push mower

KG745.9

**Agile and
lightweight**

Ideal for gardens up to 400 m², this compact, lightweight mower facilitates precise mowing with convenient user-friendly features and excels in bagging and mulching.

1.2 kW

Voltage	40 V
