For best results, clean and dry infant's foot before taking print.

Have someone assist you while making the print.

In a matter of seconds...

... you have an everlasting memory

Before you begin

Place the card to be printed on a non-slip surface.

Now you can begin...

1. Hold Magic Footprint printing frame printed side up and place on the card (align printing windows with form squares).
2. To create the print, walk the baby's left foot (from heel to toe) on the Printing Frame using very light pressure. To avoid blurring, use light pressure. To avoid smearing, do not move infant's foot while pressing down.
3. Repeat the process with the right foot.
4. Dust prints with baby powder or flour to prevent smearing.

Hints

The Magic Footprint Set is not a toy.

It is not suitable for children under 14 years of age to play with.

Discard printing frame after using.
