

Important Information about change on AT Brake Pedal:

From July 2015 vehicle production, the brake pedal for AT vehicles has been changed on 6th generation cars from Japan production. The change will affect cars with VINs from:

VIN starting from:			
Car line	Body Type	RHD 	LHD 
Mazda CX-3	SUV	JMZDK*****113955	JMZDK*****113930
Mazda 3 BM	SDN	JMZBM*****310925	JMZBM*****310903
	5HB		
Mazda CX-5 KE	SUV	JMZKE*****440644	JMZKE*****440641
Mazda 6 GJ	WGN	JMZGJ*****326219	JMZGJ*****326082
	SDN	JMZGJ*****326084	JMZGJ*****326081

Please note that this change just affects cars from Japan production (VIN beginning with JMZ). Cars from other production countries (Mexico and Thailand) are not affected for the time being.

As a consequence the currently offer alloy brake pedals for those vehicles cannot be use any more on cars produced after the according VINs.

We are already working on homologation for the new parts. The respective part number will be created in EPS and added to Acc. Base later on in an appropriate time.
