HOW TO MEASURE

To choose the correct size for you, measure yourself directly on your body. These sizes are based on an average height of 166 - 174 cm (5'6 - 5'8). We recommend you keep one fingerbreadth between your body and your tape measure, to ensure the items fit you comfortably without pinching.

- A** Measure around fullest part of your breast.
- B** Measure around your natural waistline.
- C** Measure around the fullest part of your hips.
- D** Measure from mid back (waist) to the nape of your neck
- E** Measure your armlength from shoulder to wrist
- F** Measure around the fullest part of your upper arm
- G** Measure from the top of your inside leg at the crotch down to the ankle bone
