

IMPORTANT INFORMATION FOR BMC TEAMMACHINE SLR01 DISC OWNERS
Voluntary Recall for Safety Checks

Dear customer

We would like to inform you that we've been notified by BMC that your Teammachine SLR 01 Disc bicycle has to undergo a safety inspection.

BMC has identified a potential safety issue with the fork of the TEAMMACHINE SLR01 DISC models.

The issue exclusively affects the TEAMMACHINE SLR 01 DISC models with disc brakes from the Model Years 2018 and 2019.

Bikes from Model Year 2020 and beyond are not affected.

Owners of TEAMMACHINE SLR01 DISC models from Model Years 2018 and 2019 are requested NOT to use the bike from now on, and to bring the bike to us to carry out the safety check.

We will be able to determine if your fork is safe to ride or needs to be replaced. If a replacement of the fork becomes unavoidable well and BMC will do the utmost to get you back on your bike again as quick as possible.

We sincerely apologize for the inconvenience and would like to express their thanks for your support on the matter.

Please contact us by PHONE / E-MAIL to schedule an appointment for the safety check or visit us at your earliest convenience.

Best regards
