

ROPOX VARIO CHANGING BED

SPACESAVING CHANGING BED

The Ropox Vario changing bed is mounted on the wall.

The height is adjustable from 30-100cm using the hand control with spiral line.

When the changing bed is not in use, the tabletop can be folded up and locked in a vertical position so that it takes up very little space in the room.

Folding up and down the table top takes place in a muted movement.

Ropox Vario changing bed is available in five models incl. and without a folding side bed rail and mattress adapted to the changing table.

The mattress has a cleaning-friendly surface that makes it easy to clean after use.

ROPOX VARIO CHANGING BED

Height adjustment: 70 cm (30-100 cm)
User weight: 200 kg / DS/EN 12182:2012
