Calculate frame size: Frame size = Profile length + 10,6 cm  
Measure frame size: Until the end of the first slot (not external dimension of second slot)

**INFO & DETAILS**
**Application**

Suspended solutions, illuminated or without light  
Ideal e.g. for fairs, exhibitions, retail, event and more

**formats**

Individual production. Maximum up to 300 x 300 cm

**LIGHTING TECHNOLOGY**
**assembly**

Standard shipping with disassembled profiles. Lighting technology largely pre-assembled. Simple plug-and-play installation of disassembled parts (without electrician) Pre-assembled safety plug (white, 2m cable). VDE compliant. Preassembled cubes can be shipped on request (this will raise shipping costs).

**lighting**

LED lamp or by on-site lighting

**Power / volt**

300 watts / 230 volts

**light color**

Standard approx. 6500 Kelvin (+/- 500 Kelvin)

**LEDs**

Primex uses only reliable LEDs (Nichia, Cree, Epistar, etc.).
