

Bombata®

FASHION COLOURS

CATALOGUE 2019

> **Bombata is a colorful collection of briefcases, backpacks, laptop and tablet cases.**

- > This collection was born from the idea to revisit a product generally considered to be too serious and update it in a youthful and fun manner.

The result is a functional and original case with an incredible quality to price ratio.

It is a versatile collection that will be at home in a variety of stores whether it is for its playfulness, its style, its functionality or its prestige.

The Bombata collection is in continuous development to keep up with ever changing electronic market to ensure that our designs are always up to date.

COCCO

- > **Cocco collection was born from the idea of revisiting a classic and valuable leather finish such as crocodile, used on bags with unusual and young colors.**
- > This contrast creates one of the most original and long-lived Bombata collection. For those who do not want to be unnoticed, but with style!

NYLON

> The Nylon collection takes its name from the material with which the bags are made, the ballistic nylon, which makes these products resistant and reliable in everyday work. The union between the Bombata design and this evergreen material creates a collection with a professional but at the same time young look.

> The peculiarity of the external pocket directly on the body of the bag, measures 13" and 15.6", useful to increase the load volume, makes it the most appreciated computer bag by professionals in various sectors.
