

The all **new** SIGNLUX™

The best things are always simple, and our latest LED sign light is jam-packed full of new ideas and innovative design.

The new sleek and stylish
45mm casing is the slimmest available in the UK with integral drivers.

The new IP68 connector
is concealed within a new cast aluminium chamber and sits comfortably in a step grommet allowing cables to freely pass through for easy installation of longer runs.

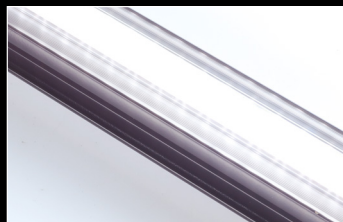

Smart new cast end caps with rear entry cable glands, tidy and conceal unsightly cables from view.

The clip fix uses a clever and unique spring clip fixing captive in the channel at the rear of the sign light. The clip slides and springs over a retaining nipple on the bracket fixing.

Behind Signlux Mini's 90° magnifying lens, the superb 1650 lumen 14.4W per metre LEDs deliver a punch to sign fascias and an unrivalled performance of even illumination.

The new Multi Bracket is double slotted allowing the fitter to orientate the back plate fixing position from horizontal to vertical in an instant.

The **evolution** of LED sign lighting has arrived.
