WHO ARE WE?

De Witte is partner of the distributor for high-quality cleaning products. We import, assemble and print a large number of products for cleaning, dosing and disinfection. Our range includes microfibre cloths, sprayers, foamers, brushes and handles, disinfection and dosage systems. Are you a wholesaler in the hygiene, food, automotive or agricultural industries? Then we undoubtedly have what you are looking for.

De Witte is a thriving family business, founded in 1989 by Dirk De Witte. Over the years the company grew, as did its product range. For more than 30 years De Witte has been offering its customers and partners quality with a personal approach. And in 2015 the second generation joined the company with Wout. Today De Witte has over 20 employees and orders are shipped daily to more than 30 countries.

WHY DE WITTE?

What makes us so special? Our goal is to help build a sustainable future for our customers.

More than ever, we believe in our role as an innovator, point of contact and trendsetter.

We carefully select our products with the highest criteria, such as excellent quality, easy after-sales service, attractive profit margins, while always taking the end-user's needs into account

PERMANENTLY 5,000 PALLETS IN STOCK

Product availability is extremely important to us. That is why we doubled our storage capacity in 2022 with a new warehouse next to the existing building. With over 5,000 pallets we always have a large number of articles available. And our central location guarantees a fast delivery to all of our customers in Europe and beyond.

 - 1 Polish (615.300.200): ideal for polishing

615.900.907

Packed individually per kit

MICROFIBRES

Miscellaneous

FLEXI-DUSTER

- Ideal for cleaning hard-to-reach areas
- Can be bent in any position
- The removable microfiber cover attracts dirt like a magnet and guarantees perfect cleaning
- The microfiber cover can be easily removed and washed

480.400.109 | Flexi-Duster

Packed per 10

480.400.110 | spare cover

Packed individually

Connect our 2 x 90 cm telescopic handle (480.400.300) for working at heights

LAUNDRY BAG

- Excellent quality 50 x 60 cm laundry net for microfiber cloths
- With 4 detachable coloured ribbons for colour coding
- With good quality zipper
- Resistant to 90°C

601.900.999

Per piece

HAND WRINGER

- Mop wringer with a solid steel frame to attach to a wall or table
- With a rotating system to wring out cloths
- With 4 springs to regulate the pressure
- Is self-lubricating: no oils are needed
- Dimensions: 58 x 60 x 23 cm

207.500.500

SPONGES

2

SPONGES

SUBLIMO MAGIC SPONGE

- Removes all kinds of persistent dirt on all surfaces in a surprisingly smooth, quick and efficient way
- Can be used for both professional and household purposes
- Removes all kinds of dirt in the blink of an eye
- Easy to use by moistening with water and/or a cleaning product and rubbing gently

250.100.100 | 110 x 63 x 38 mm

Packed per 10

SUBLIMO BIG MAGIC SPONGE

- Has the same structure and qualities as the Sublimo Magic Sponge
- Has a considerably larger size, to be used as is or to be cut to the desired size
- Easy to use by moistening with water and/or a cleaning product and rubbing gently

250.100.200 | 250 x 120 x 30 mm

Packed individually

COMPRIMEX MAGIC PAD + PAD HOLDER

- Extra compressed, which increases its lifespan up to 5 times
- A combination of a melamine and an abrasive side
- Is extra large and works perfectly in combination with the handy pad holder
- The shape and material of the pad holder ensure comfort and pleasant working conditions

250.100.365 | Comprimex pad | 140 x 80 x 25 mm

260.100.100 | Comprimex pad holder

Packed per 5

COMPRIMEX MAGIC SPONGE

- Extra compressed, which increases its lifespan up to 5 times
- A combination of a melamine and an abrasive side
- Removes all kinds of persistent dirt on all surfaces in a surprisingly smooth, quick and efficient way
- Can be used for both professional and household purposes
- Very easy to use

250.100.310 | 110 x 60 x 30 mm

Packed per 10

DURAGOM II

- Consists of 2 layers: a unique patented melamine blend (for general thorough cleaning) and an abrasive strip (to easily remove stubborn stains)
- Removes all kinds of persistent dirt on all surfaces in a surprisingly smooth, quick and efficient way
- Can be used for both professional and household purposes
- Easy to use by moistening with water and/or a cleaning product and rubbing gently

250.500.100 | 113 x 62 x 35 mm

Packed per 10

SPONGES

MICROFIBRE SCOURING SPONGE DUO

- Microfibre sponge with an abrasive and a soft side
- The abrasive side is an efficient blend of microfibre and an abrasive ingredient
- With sustainable mousse inside
- Can be used anywhere due to its efficiency

615.900.590

Packed per 10

MICROFIBRE SCOURING SPONGE

- Microfibre sponge with 2 abrasive sides
- This abrasive sponge is an efficient blend of microfibre and an abrasive ingredient
- With sustainable mousse inside
- Can be used anywhere due to its efficiency

615.900.591

Packed per 10

BAG 3X MICROFIBRE SCOURING SPONGE DUO BLUE/PINK/GREEN

- Bag with 3 microfibre sponges with an abrasive and a soft side
- The abrasive side is an efficient blend of microfibre and an abrasive ingredient
- With sustainable mousse inside

615.900.288 | blue | pink | green

Packed per 3

DUO SPONGE

- Microfibre sponge with 2 soft sides
- Has a long lifespan
- Perfectly suited to all surfaces
- For gentle and scratch-free cleaning

460.300.110 | blue
460.300.120 | yellow
460.300.121 | green
460.300.122 | pink

Packed per 10

SPONGES

APPLICATOR SPONGE & SUEDE MICROFIBRE

- Ideal for applying protective ceramic coatings, waxes or dressings to vehicles
- The microfiber cloth has wavy edges, an ultra sonic cut and doesn't have a washing label for scratch-free cleaning

430.000.110 | applicator sponge
601.300.200 | suede microfibre

Packed per 10

MICROFIBRE SPONGE

- Very practical, hardwearing sponge that is easy to wring out
- One side is high-quality microfiber with all its advantages
- The other side is a plastic net to remove stubborn dirt
- Perfectly suited to all surfaces

480.400.230

Packed individually

TYRE SPONGE

- Ergonomic sponge for applying tyre gel, dressings and gloss
- Has a curved, semi-circular shape, specially designed to perfectly follow tyre contours
- The optimal cell structure of the pad ensures a perfect application of the product
- An indispensable tool for the demanding professional user, suitable for all tyres

520.200.500

Packed per 10

ANTI-INSECT SPONGE

- Removes insects and caked-on dirt quickly and effortlessly
- Ideal for thoroughly cleaning lights, windows and bumpers of cars, motorbikes, caravans or boats
- Always moisten before use and use only on wet surfaces

275.000.100

Packed per 5

SOOT SPONGE

- Designed for cleaning fire damage remains, made of vulcanised rubber
- Must be used dry
- Takes up all the dust and soot
- Perfectly suited to all surfaces
- Also suitable for removing animal hairs

188.000.000 | with paper inlay
188.000.100 | without paper inlay

GLOVES

Washing gloves

MICROFIBRE WASHING GLOVE RASTA

- One side is made of the same material as our Top-Glass microfibre, which makes it perfect for cleaning windows and cars
- The other side is made of fine microfibre fringes and is perfect for dusting or wet washing and cleaning

460.100.200 | blue
460.100.201 | green
460.100.203 | orange
460.100.204 | red
460.100.205 | black

Packed per 10

Get your Rasta washing gloves printed starting from 500 pieces, more info on p. 92 - 94

WAVE GLOVE

- Has a unique, wavy structure
- The highly absorbent waves scoop up and retain dirt and water
- Leaves any surface streak-free and sparkling clean
- Perfect for cleaning windows, glass, stainless steel, chrome, granite, hobs,...

620.110.100

Packed individually

GLOVE FOR INOX

- The microfibres absorb dirt, clean deep into the pores, giving the surface a beautiful shine
- Works both dry and wet with water and/or detergent
- For scratch-free cleaning of stainless steel, chrome and nickel materials

460.900.100

Packed individually

WASHING GLOVE BLUENET

- Washing mitt of professional quality
- Excellent results in every area
- Great cleaning power and highly absorbent
- Long life span

480.400.200

Packed individually

WASHING GLOVE ELEGANT

- Very suitable for dusting
- Soft and easy to use
- Long life span

380.900.300 | blue
380.900.400 | red

Packed per 5

WASHING GLOVE WATERPROOF

- Absorbs a large amount of water
- Keeps the hands dry and warm
- Very soft, for scratch-free cleaning

206.250.250

Packed individually

WASHING GLOVE POLYWOOL

- Very soft and absorbent fibres
- Excellent cleaning results

480.400.250

GLOVES

Pure hands

HACCP
COMPLIANT

Basic table model

Basic wall/clothing model

PURE HANDS

- Pure Hands prevent possible contamination in the food industry, and make the daily processing of food products much more hygienic
- Consists of a reusable glove with a magnetic bracelet and magnetic base on which the glove can be placed
- The glove can be easily donned and doffed between food pick-up and checkout and can be placed on the base without using the other hand
- Ideal for bakeries, butchers, grocery shops, fishmongers and supermarkets
- Complies with European directives for contact with food
- Recyclable, reusable (e.g. for one day) and therefore cheaper compared to disposable gloves, does not cause irritation or allergies (dermatitis), suitable for both right- and left-handed people
- Available as a wall model or as a 3-finger model, a built-in magnet ensures that the bracelet with glove stays on or hangs from the base
- Basic table model: ideal for placing on a counter or table
- Basic wall and clothing model: ideal for attaching to an apron, a belt or trousers

- 320.100.001 | plexiglass tray for mounting on counter | 1 piece
- 320.100.002 | plexiglass tray for mounting on counter | 2 piece
- 320.100.101 | plexiglass shelf for attachment to belt/wall | 1 piece
- 320.100.102 | plexiglass shelf for attachment to belt/wall | 2 pieces
- 320.200.001 | hygienic mitten 40 microns | 100 pieces
- 320.200.002 | hygienic 3-finger glove 40 microns | 100 pieces

CAR, TRUCK, BOAT, BIKE

CAR, TRUCK, BOAT, BIKE

Brushes

DUO BRUSH

- Consists of 2 parts that are seamlessly connected at a 30° angle
- Faster and more thorough cleaning because a larger surface comes into contact with the brush
- The more than 50,000 brush fibres guarantee an extra-long lifespan
- The feathered fibres are extra soft and ensure scratch-free cleaning
- Good resistance to chemicals

600.000.001 | 25 cm | blue
600.000.003 | 25 cm | grey
600.000.004 | 33 cm | blue

DUO TRUCK BRUSH ANTEX

- Has the same features as the Duo brush (600.000.00x)
- Also resistant to very high temperatures (> 100°C)
- Resistant to aggressive products and acids

602.000.001 | 25 cm | red
602.000.002 | 25 cm | green

QUADRO BRUSH

- Has the same features as the Duo brush (600.000.00x)
- In addition, the 4 sides of the brush head are covered with fibres, for scratch-free cleaning of vehicles

600.000.009 | 25 cm

DIP BRUSH

- The brush head is equipped with a rubber edge to avoid scratches
- The more than 50,000 brush fibres guarantee an extra-long lifespan
- The feathered fibres are extra soft and ensure scratch-free cleaning
- Highly resistant to chemicals

600.000.002 | 25 cm | blue
600.000.012 | 25 cm | green
600.000.013 | 25 cm | grey

DIP BRUSH DELUXE TRIPLE

- The sides of the brush are lined with fibres, so no scratches can be made with the brush head
- The more than 50,000 brush fibres guarantee an extra-long lifespan
- Extra soft fibres
- Highly resistant to chemicals

600.000.011 | 25 cm

These brushes fit the handles on p. 27 - 28

CAR, TRUCK, BOAT, BIKE

Brushes

DIP BRUSH DELUXE TRIPLE ANTEX

- Has the same features as DIP Deluxe Triple brush (600.000.011)
- Also resistant to very high temperatures (> 100°C)
- And resistant to aggressive products and acids

602.000.072 | 25 cm

DUO BRUSH MEDIUM-HARD FIBRES

- Ideal for tarpaulins, stainless steel tanks, machines, floors, walls,...

600.000.015 | 25 cm

DUO BRUSH HARD FIBRES

- Ideal for public works, facades, floors, walls,...

600.000.007 | 25 cm

DIP BRUSH HARD FIBRES

- Ideal for ship decks, public works, facades, floors, walls,...

600.000.008 | 25 cm

QUADRO BRUSH PREMIUM

- The soft fibres ensure extra softness for efficient and scratch-free cleaning
- The more than 50,000 brush fibres guarantee an extra-long lifespan
- Good resistance to chemicals
- Ideal for carwashes, cars, vans, trucks, caravans, verandas,...

520.100.000 | 36 cm

TRUCK BRUSH POLYESTER

- The more than 50,000 brush fibres guarantee an extra-long life span
- The feathered fibres are extra soft and ensure scratch-free cleaning
- Good resistance to chemicals

119.100.002 | 25 cm
119.100.004 | 35 cm

Fits our handles with ref. 122.555.101,
122.555.102 and 122.555.103, see p. 28

These brushes fit the handles on p. 27 - 28

CAR, TRUCK, BOAT, BIKE

Handles

4

TELESCOPIC FIBREGLASS HANDLE PRO

- The PRO handles have a fiberglass base (32 mm) and an aluminium extension that is double as thick (25 mm)
- They do not bend under strong pressure and are much more solid than the classic aluminium handles
- Equipped with a robust metal tip

600.100.001 | 2 x 1.2 m | blue
 600.100.002 | 2 x 1.5 m | blue
 600.100.010 | 3 x 1.5 m, total length = 4.5 m | blue
 600.100.007 | 2 x 1.2 m | black
 600.100.008 | 2 x 1.5 m | black
 600.100.022 | 2 x 1.5 m | green

TELESCOPIC ALUMINIUM HANDLE PRO WITH WATER FLOW

- Have the same features as the Pro handles in fibreglass (600.100.0xx)
- The 2 elements are made of aluminium and the handles are equipped with a universal snap-on coupling and an on/off button for water supply

600.100.003 | 2 x 1.2 m | black
 600.100.004 | 2 x 1.5 m | black
 600.100.023 | 2 x 1.2 m | green
 600.100.024 | 2 x 1.5 m | green

TELESCOPIC ALUMINIUM HANDLE PRO WITH WATER FLOW

- Handle in aluminium with protective foam
- Equipped with a universal quick coupling and an on/off button for water supply

600.100.005 | 2 x 0.9 m | blue
 600.100.025 | 2 x 0.9 m | green

These handles fit the brushes on p. 25 - 26

CAR, TRUCK, BOAT, BIKE

Handles

ALUMINIUM HANDLE WITH WATER FLOW

- Very solid design
- Equipped with a universal snap-on coupling

600.100.074 | 77 cm

FIBREGLASS HANDLE

- Very solid design

600.100.068 | 1.4 m

ALUMINIUM HANDLE WITH WATER FLOW

- Very solid design

600.100.078 | 1.4 m
122.555.102 | 2 x 1.5 m
122.555.103 | 3 x 1.5 m

These handles fit the brushes on p. 25 - 26

TELESCOPIC ALUMINIUM HANDLE

- Handle with a conical tip

122.555.101 | 2 x 1.0 m
122.555.102 | 2 x 1.5 m
122.555.103 | 3 x 1.5 m

Fits our brushes with ref. 119.100.002 and 119.100.004, see p. 26

RAIL IN STAINLESS STEEL WITH 3 HANDLE HOLDERS

- Rail in stainless steel with 3 clamps
- The ingenious wedge system keeps handles nicely and conveniently in place
- Suitable for handles with different diameters from 9 to 35 mm
- The used materials are suitable for the food industry

122.400.400

CAR, TRUCK, BOAT, BIKE

Hand brushes

4

CAR BRUSH

- The more than 20,000 brush fibres guarantee an extra-long life span
- The feathered fibres are extra soft and ensure scratch-free cleaning
- Good resistance to chemicals

600.000.005

CAR BRUSH POLYESTER

- The more than 20,000 brush fibres guarantee an extra-long life span
- The feathered fibres are extra soft and ensure scratch-free cleaning
- Good resistance to chemicals

119.100.005

CAR BRUSH WITH RESERVOIR

- Equipped with a reservoir, which fills up when the brush is immersed in a bucket
- The more than 20,000 brush fibres guarantee an extra-long life span
- The feathered fibres are extra soft and ensure scratch-free cleaning

225.100.100

CAR WASH BRUSH WITH RESERVOIR

- Hand brush with ergonomic handle, water inlet and equipped with a snap-on coupling for water supply

480.500.100

WHEEL BRUSH LONG HANDLE

- The more than 20,000 brush fibres guarantee an extra-long life span
- The feathered fibres are extra soft and ensure scratch-free cleaning
- Good resistance to chemicals

600.000.006

WHEEL BRUSH EZ RED

- To clean any type of rim, thanks to its conical shape and size
- With a rubber tip to avoid scratching the rims
- With soft and flexible fibres
- Perfect for cleaning single and double-spoke rims efficiently and safely
- With ergonomic handle

520.100.100

WHEEL BRUSH SMALL MODEL

- Practical for cleaning hard-to-reach places

600.000.020 | hard fibres
600.000.021 | soft fibres

PENCIL BRUSH

- Ideal for cleaning parts and rims
- Stiff polyester fibre, suitable for both solvents and water-based products

599.100.100

BIKE BRUSH

- To remove dried and stubborn dirt even in the most inaccessible corners of a bike
- With multi-purpose brushes to clean the brake blades, chains and all other hard-to-reach parts
- Withstands a maximum water temperature of up to 60°C
- Easy to use for scratch-free cleaning

650.100.100

CAR, TRUCK, BOAT, BIKE

Nanex

Nanex uses revolutionary rubber polymer technology and is a high-quality alternative to clay products in car cleaning. The range effortlessly removes resin, wax residue, insects, stains and other contaminants from a car's paintwork, windows and plastic parts. The result is a mirror-smooth surface. Start cleaning by simply rinsing the absorbed dirt with water.

Features

- Lasts 4 times longer than clay products
- Fast and easy use saves time
- Soft gliding for a smooth finish
- Easy to rinse with water if dropped on the floor
- Can be used 50 to 60 times

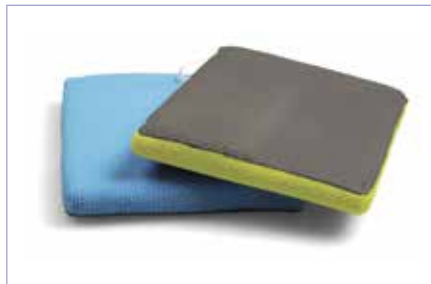

Instructions for use

- For cars that are parked outdoors or poorly maintained, use the medium quality cloth (yellow), for new or well-maintained cars the fine quality cloth (blue) is recommended
- Never use Nanex on a dirty car or a hot surface
- Wash car thoroughly and remove tar and grease
- Spray a professional lubricant on the surface
- Use the Nanex on glass for 1 min to remove the protective layer and soften the polymer
- Then gently rub the surface with a Nanex cloth, pad or glove
- Dry with a soft microfibre cloth

CAR, TRUCK, BOAT, BIKE

Squeegee

4

FLEXI BLADE

- The soft silicone perfectly adjusts to the contours of the vehicle
- Made of silicone to ensure streak-free and scratch-free cleaning
- For quick drying of vehicles after washing, ideal for plastic, bodywork and windows
- Also works perfectly on other surfaces such as mirrors, windows, showers, tiled walls,...

520.200.000 | Flexi Blade

COLORADO DUO BLADE

- Go for the Duo Blade effect by the combination of the soft silicone blade and the microfibre side to absorb the remaining water drops easily
- The high-quality microfibre can be easily detached for washing

302.300.100 | Colorado Duo Blade

WATER BLADES

- The soft silicone perfectly adjusts to the contours of the vehicle
- Made of silicone to ensure streak-free and scratch-free cleaning
- For quick drying of vehicles after washing, ideal for plastic, bodywork and windows
- Also works perfectly on other surfaces such as mirrors, windows, showers, tiled walls,...
- Works 3 times faster than a towel or a chamois

480.100.099 | Water Blade

SQUEEGEE / SCRUBBER

- The squeegee and washer are mounted on the same handle to be able to work extra fast

600.300.300 | squeegee with 30 cm scrubber
600.300.400 | squeegee with 40 cm scrubber

Fits our PRO and MI PRO handles with ref. 600.100.0xx, see p. 27

Fits our PRO and MI PRO handles with ref. 600.100.0xx, see p. 27

CAR, TRUCK, BOAT, BIKE

Car dusters

CAR DUSTERS

- The special wax baked into the cotton fibres attracts dust and dirt like a powerful magnet and does not let go
- Guaranteed not to scratch even the most delicate surfaces
- Last for years
- No need to wash or treat with a product, the dirtier they get, the better they work
- With its compact and practical shape you can easily access hard-to-reach areas
- The Car Dusters are perfectly suited to keep cars in showrooms dust-free
- The Mini Duster has the same properties but is mainly used to clean car dashboards, computers, TVs, furniture, blinds,...

CAR, TRUCK, BOAT, BIKE

Varia

BUCKET FILTER

- The Bucket Filter has a plastic anti-debris grid that fits into the bottom of several buckets
- It acts as a filter for dirt and grit, which remain at the bottom of the bucket and are not swept up by a sponge, wash mitt or brush
- When you run your wash glove, cloth, sponge or brush through the bucket, rub it against the Bucket Filter which will remove dirt and make it sink to the bottom of the bucket
- The base plates act as baffles, reducing the chance of a whirlpool, which could bring dirt and sand up onto the grid
- The Bucket Filter separates dirt from water in a simple but highly efficient manner
- Ideal for use in the automotive industry, garages, carwashes, showrooms, when cleaning vehicles while preventing sand and dirt from damaging paintwork

588.000.000 | set with bucket filter grate insert, white bucket 20 L and seal cover

588.000.005 | set with bucket filter grate insert, white bucket 20 L, seal cover and trolley

TROLLEY

- A handy trolley simplifies the use of the bucket filter

588.010.005 | trolley for 20 L bucket

BUCKET FOR BUCKET FILTER

- Bucket made of sturdy plastic
- Large capacity of 20 L
- For optimal safety, use two buckets, one to rinse out your washing glove or cloth and one for clean soap

588.020.001 | bucket 20 L | white

588.020.003 | bucket 20 L | black

STORAGE TRAY

588.010.030 | storage tray

GRATE INSERT

588.000.001 | bucket filter grate insert

SEAL COVER

- The lid or seal cover can be screwed onto the bucket hermetically so that a full bucket can be transported safely

588.010.001 | seal cover

ABSORB-ALL CHAMOIS

- The Absorb-All is an ultra-absorbent synthetic chamois made from PVA, reinforced with a polyester fibre for extra strength and a long life span
- Its three-dimensional structure does not damage even the most delicate surfaces
- Easier to wring out than conventional cloths or natural chamois liners
- Dries perfectly without streaks, absorbs up to 5 times its weight in water and is lint-free
- Excellent resistance to oils, greases and chemicals
- Lasts longer than natural chamois liners and other synthetic products
- Machine washable up to 70°C
- Ideal for cars, boats, windows, bathrooms,...

Manual sprayers

PRO-MATIC

- Excellent resistance to aggressive and corrosive chemicals
- Pump with high performance per stroke
- With high-density polyethene tank
- With pressure relief valve, Viton seals and gun, lance and nozzle in resistant polyethene
- With extra-long 1.5 m hose in reinforced nylon
- With adjustable nozzle
- Supplied with shoulder strap (except for the 3.8 L model)

CH2634E | 3.8 L
CH2635E | 7.6 L
CH2636E | 11.4 L

PRO-MATIC PREMIUM WITH STAINLESS STEEL LANCE

- With Spray Lance High Resistance: 30 cm for 3.8 L and 45 cm for 7.6 and 11.4 L
- With flat jet nozzle

CH2634E | 3.8 L
CH2635E | 7.6 L
CH2636E | 11.4 L

RESIST

- Excellent resistance to aggressive and corrosive chemicals
- Pump with high performance per stroke
- With high-density polyethene tank and gun, lance and nozzle in resistant polyethene
- With pressure relief valve and Viton seals
- With extra-long 1.5 m hose in reinforced nylon
- With adjustable spray head
- With ergonomic handle
- Supplied with shoulder strap

CH2637E | 7.6 L

RESIST PREMIUM

- The premium version has the same features as the standard Resist, but comes with Spray Lance High Resistance

CH2637EP | 7.6 L

TELESCOPIC LANCE

- With FKM seals
- Fits the Pro-Matic and Resist

208.100.100 | 2 x 0.6 m
208.100.200 | 2 x 1.5 m

SPRAY LANCE HIGH RESISTANCE

- With plastic flat jet nozzle
- With EPDM seals
- Lance in stainless steel
- The spring in the gun is made of Hastelloy
- Fits the Pro-Matic and Resist

900.100.532 | 300 mm
900.100.534 | 450 mm

FOAM NOZZLE

- Fits the Pro-Matic and Resist

A23.081.900

MULTI-JET NOZZLE

- With 4 different spray patterns: flat jet small flow, flat jet large flow, shower spray, pinstream
- Supplied with Pro-Matic and Resist

CH6-4566

Get your Pro-Matics printed starting from 50 pieces, more info on p. 92 - 94

SPRAYERS

Manual sprayers

SPRAY-MATIC 1 L

- Hand pump with FKM or EPDM seals and 1 L reservoir making the product suitable for most solvents
- Excellent resistance to chemicals, ideal to use for a brake cleaner
- Pump cylinder in reinforced polyamide

200.100.020 | FKM/polyamide | red - black
200.100.040 | EPDM | white - black

SPRAY-MATIC 1.8 L

- Hand pump with FKM or EPDM seals and 1.8 L reservoir
- Has the same features as the Spray-Matic 1 L
- This version can also be used with compressed air

200.100.000 | FKM/polyamide red - black
200.100.010 | EPDM | black

SPRAY-MATIC 1.5 L

- Hand pump with FKM or EPDM seals and 1.5 L reservoir
- With nozzle that is adjustable from mist to pin stream
- The handle can be blocked for continuous spraying or safety
- Comes with foam nozzle

901.300.100 | FKM | blue
901.300.200 | EPDM | grey

SPRAYERS

Manual sprayers

RED ACID SPRAYER 1.5 L

- Highly resistant to acids
- All metal parts are protected to avoid contact with acid
- Thanks to the graduation, you can easily see the liquid level
- The reinforced bottom ensures good stability

299.500.100

BLACK SOLVENT SPRAYER 1.5 L

- Specifically designed to spray solvents
- The pump body is made of solvent-resistant polyamide
- Thanks to the graduation, you can easily see the liquid level
- The reinforced bottom ensures good stability

299.500.200

FOOD SPRAYER 1.5 L

- With pressure relief valve
- Food certificate available
- Ideal for use in commercial kitchens, restaurants, meat and fish factories and other food processing plants

299.300.104

BLUE ALCALINE SPRAYER 1.5 L

- Specifically designed to spray alkaline products
- Thanks to the graduation, you can easily see the liquid level
- The reinforced bottom ensures good stability

299.500.400

360° UNIVERSAL SPRAYER 1.5 L

- Resistant to chemical products
- Also works horizontally and upside down due to its flexible suction tube
- Thanks to the graduation, you can easily see the liquid level
- The reinforced bottom ensures good stability

299.500.300

FOAM NOZZLE

- For Red Acid Sprayer, Black Solvent Sprayer, Food Sprayer, Blue Alkaline Sprayer and 360° Universal Sprayer

299.300.194

SPRAYERS

Compressed air sprayers

SPRAY-MATIC IN STAINLESS STEEL

- Compressed air sprayer with tank in stainless steel and trolley
- Not suitable for strong acids
- With snap-on air connection, manometer, pressure relief valve and safety valve
- With product level indicator
- With 10 m spiral hose, 75 cm stainless steel lance for the 24 L model and 90 cm lance for the 50 and 100 L models
- Maximum operating pressure: 8 bar
- Complies with the European directive 97/23/CE

207.100.101 | 24 L
 207.100.103 | 50 L
 207.100.105 | 100 L

SPRAY-MATIC IN PAINTED STEEL

- Have the same features as the Spray-Matics in stainless steel, but have a painted steel tank

207.100.102 | 24 L
 207.100.104 | 50 L

SPRAY-MATIC BRUSH

- Compressed air sprayer with 10 L tank in painted steel
- With quick coupling for compressed air, manometer, safety valve and shut-off valve
- With product level indicator
- With 3 m spiral hose and brush
- Ideal for applying dressings and polishes to car tyres

207.100.097 | 10 L

AERO-SPRAY 500 ML

- Refillable spray that replaces traditional aerosol sprays
- Simply works on air, without any harmful gases that can damage the ozone layer
- Is pressurised with a compressor or (foot) pump
- Applications: for oils, cleaning product, degreasers, disinfection products, lubricants, deodorising products,...
- Delivered with 8 nozzles: 2 coarse, 2 medium, 2 normal, 2 fine

300.100.210 | 500 ml

AERO-SPRAY 1,000 ML

- Refillable spray that replaces traditional aerosol
- Simply works on air, without any harmful gases that can damage the ozone layer
- Is pressurised with a compressor or (foot) pump
- Excellent for solvents but not for water-based products
- Applications: for oils, cleaning product, degreasers, disinfection products, lubricants, deodorising products,...
- With spray nozzle that can spray or pin stream

300.100.300 | 1,000 ml

Get your sprayers printed starting from 96 pieces, more info on p. 92 - 94

SPRAYERS

Water pressure sprayers

CLEAN-BOY SPRAY

- Sprayer that automatically dilutes the product with water
- The dilution is adjustable with the set of provided measuring tips
- Simply connect to a water source, there is no need for electricity
- To rinse with water, disconnect the gun from the reservoir

205.100.200 | 2.8 L

SPRAY LANCE HIGH RESISTANCE

- Spray lance made of stainless steel with EPDM or FKM seals
- The spring in the gun is made of Hastelloy
- With plastic flat jet nozzle

900.100.534 | 450 mm | EPDM
900.100.535 | 450 mm | FKM

TRIGGER SPRAYERS

Sprayers

TEX-SPRAY HEADS FOR 600ML BOTTLES

- Excellent resistance to chemicals
- Spray nozzle adjustable from spray to pin jet
- Neck size: 28/400
- Length of suction tube: 17 cm

605.100.100	white/blue
605.100.200	white/red
605.100.300	white/green
605.100.400	white/yellow
605.100.500	white/white

TEX-SPRAY HEADS FOR 1,000 ML BOTTLES

- Length of suction tube: 25 cm

605.400.100	white/blue
605.400.200	white/red
605.400.300	white/green
605.400.400	white/yellow
605.400.500	white/white

DIRECTIONAL NOZZLE FOR TEX-SPRAY

- Trigger sprayer with adjustable nozzle for users who want to spray accurately and precisely
- Ideal for the agricultural sector when cleaning and disinfecting udders
- Also suitable for cleaning, descaling and disinfecting toilet bowls
- And for disinfecting boots and shoes
- Fits our 17 and 25 cm Tex-Spray triggers

605.200.205

TEX-SPRAY HIGH CHEMICAL RESISTANCE

- Has the same properties as the regular Tex-Spray
- Also resistant to aggressive acids and alkalis
- Neck size: 28/400
- Length of suction tube: 25 cm
- Fit our 600 and 1,000 ml bottles

605.500.200

TEX-SPRAY U.R.

- Has the same properties as the regular Tex-Spray
- Also resistant to aggressive acids and alkalis
- Very suitable for solvents
- Neck size: 28/400
- Length of suction tube: 25 cm
- Fit our 600 and 1,000 ml bottles

605.500.100

SPRAY-TUBE

- Consists of the head of a Tex-Spray, a 1.2 m suction tube and a conical piece which is inserted in the bottle opening
- To spray directly out of 5 and 10 L barrels

605.600.100	white/blue
605.600.200	white/red
605.600.300	white/green
605.600.400	white/yellow

FOAM NOZZLE FOR TEX-SPRAY

605.200.200

EXTENSION FOR TEX-SPRAY

605.200.210 | 10 cm

All Tex-Sprays also work when the bottle is held upside down

TRIGGER SPRAYERS

Sprayers

NEW

MISTO SPRAY

- Chemical-resistant trigger sprayer that does not drip during spraying
- Nozzle with 3 functions: fine mist spray, straight jet and off position
- Available with spray head in 6 different colours
- Extended finger lever provides more comfort during spraying
- Neck size: 28/400
- Length of suction tube: 25 cm
- Fit our 600 and 1,000 ml bottles

986.000.001 | blue
986.000.002 | red
986.000.003 | green
986.000.004 | yellow
986.000.005 | white
986.000.006 | black

DURASPRAY SPRAYERS

- Excellent resistance to chemicals
- Nozzle adjustable from spray to pin jet
- Neck size: 28/400
- Length of suction tube: 25 cm
- Fit our 600 and 1,000 ml bottles

- 250 ml PET bottle and dosing pump that fits the bottle perfectly
- Neck: 24/410
- Output: 1.2 - 2 ml

980.100.120	PET bottle 250 ml
980.200.300	dosing pump for PET fles 250 ml 1.2 - 2 ml

Get your bottles printed starting from 560 pieces, more info on p. 92 - 94

FOGGERS

7

FOGGERS

BATTERY FOGGER ULV2

- Fully autonomous electric fogger powered by a powerful lithium-ion battery
- The core of the sprayer is a specially designed anion generator that continuously produces a high concentration of negatively charged anions
- In combination with a disinfectant, this fogger effectively destroys viruses and bacteria
- With 1.8 L reservoir
- Working time: 35 min, extra battery can be ordered (440.100.201)
- Maximum range: 5 m

440.100.100

BLACK NEON FOGGER

- Fully autonomous electric fogger with a last generation lithium-ion battery
- With ultra-fine nano-nozzle that can be adjusted from dry (where surfaces are immediately dry) to wet fog
- Neon LED lights visualise the spray mist
- With suction filter in plastic for better chemical resistance
- Made of light material with ergonomic handle
- Working time: 70 min

170.000.100

FOGGER DRY BLUE

- Fogger for spraying insecticides, disinfectants and deodorising products
- Equipped with turbine nozzle for an ultra-fine atomization
- Cover an area of 4,000 m² with 4 L of product
- Works with oil or water-based products
- Suitable for indoor and outdoor use
- Voltage: 220 - 230V
- Maximum range: 6 m

114.300.100

TRIPLE JET FOGGER

- Fogger for spraying insecticides, disinfectants and deodorising products
- Equipped with 3 special turbine heads or an ultra-fine atomization
- The spray head has a range of 60° (40° up and 20° down)
- Cover an area of 4,000 m² with 4 L of product
- Flow rate is adjustable via the control knob
- Works with oil or water-based products, for both indoor and outdoor use
- Voltage: 220 - 230V
- Maximum range: 15 m

150.100.100

EAGLE RUGFOGGER

- Fogger with comfortable shoulder straps for atomising insecticides, disinfectants and deodorising products
- Equipped with turbine nozzle for an ultra-fine atomization
- The 10 L tank allows you to treat large areas without refilling
- Cover an area of 10,000 m² with 10 L of product
- Flow rate is adjustable via the control knob
- Works with oil or water-based products, for both indoor and outdoor use
- Weight: 4.1 kg
- Voltage: 220 - 230V
- Maximum range: 6 m

113.000.000

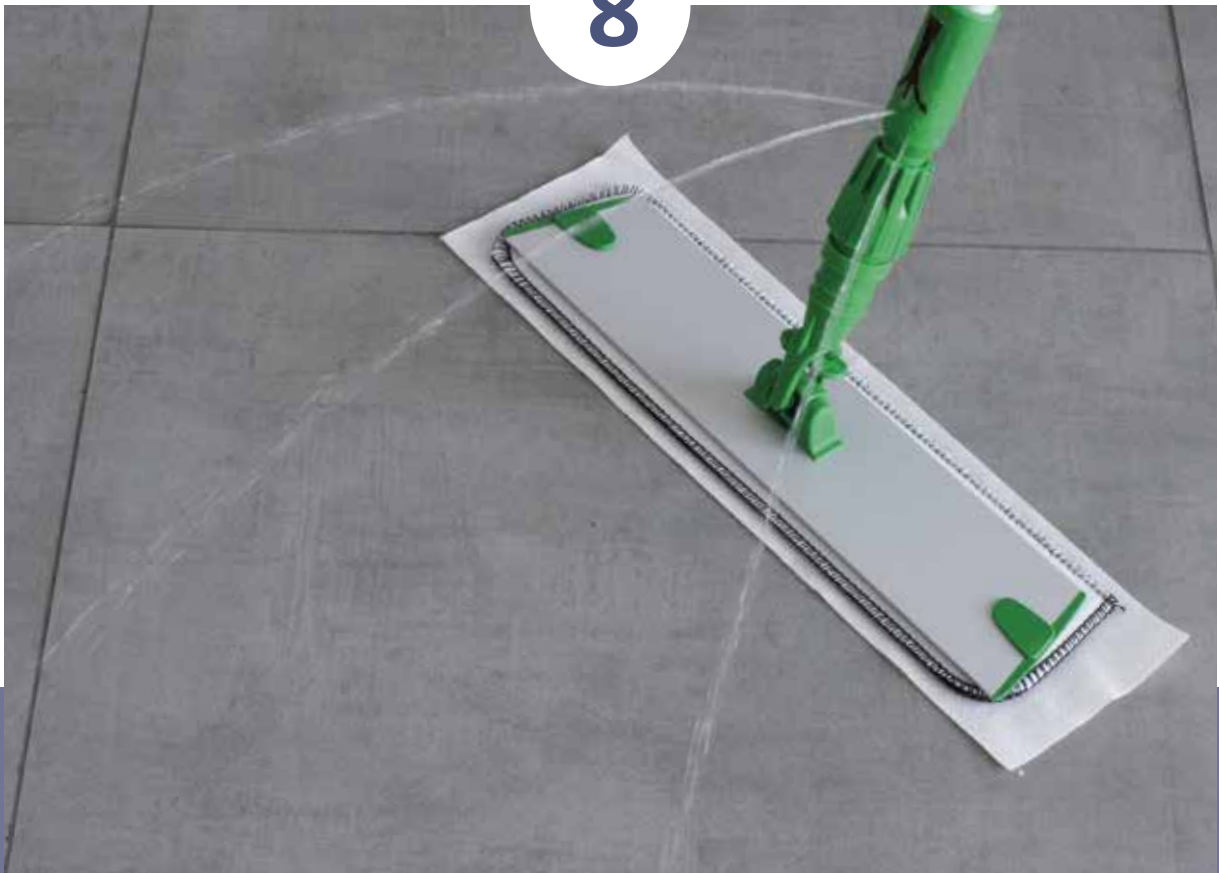

FOGGER ES

- Fogger for spraying insecticides, disinfectants and deodorising products
- Equipped with turbine nozzle for an ultra-fine atomization
- Cover an area of 4,500 m² with 5 L of product
- Content: 5 L
- Atomization: 20 - 60 microns
- Weight: 3.5 kg
- Maximum range: 6 m

114.100.100

Mop frames and handles

MOP FRAME DELUXE WITH UNIVERSAL CONNECTION

- Material: aluminium
- For mops with Velcro
- With universal connection that fits most handles
- With integrated cloth holders
- With an integrated locking mechanism
- Extra solid construction

480.200.226 | 25 cm

480.200.229 | 40 cm

480.200.231 | 55 cm

MOP FRAME MEDIKO WITH UNIVERSAL CONNECTION

- Material: aluminium
- For mops with Velcro
- With universal connection that fits most handles
- With Velcro strips that can slide out of the aluminium plate, replacement kit with 2 velcro strips available (480.200.248)
- With an integrated locking mechanism
- Ultra-thin plate

480.200.238 | 40 cm | blue

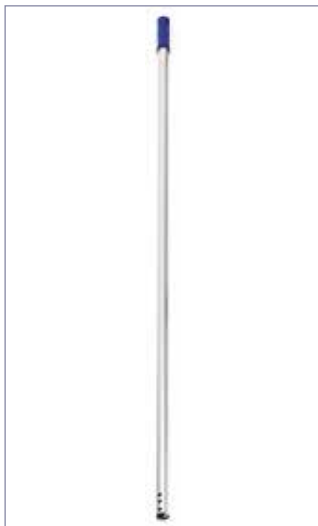

480.200.239 | 40 cm | green

MOP FRAME MEDIKLIP WITH UNIVERSAL CONNECTION

- Material: aluminium
- For mops with Velcro
- With universal connection that fits most handles
- With Velcro strips that can slide out of the aluminium plate, replacement kit with 2 velcro strips available (480.200.248)
- Ultra-thin plate

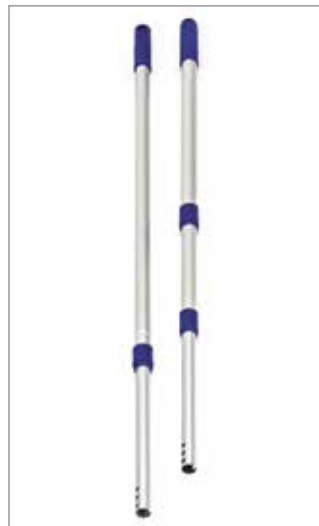

480.200.256 | 40 cm

ALUMINIUM HANDLE

- Fits all mop frames and the Rakleto system (130.100.100)

480.400.298 | 1.4 m

TELESCOPIC ALUMINIUM HANDLE

- Solid construction
- Fits all mop frames and the Rakleto system (130.100.100)
- Suitable for all users
- Only 70 cm when retracted
- Very practical for sending by post or courier service

480.400.330 | 3 x 0.6 m

TELESCOPIC ALUMINIUM HANDLE

- Solid construction
- Fits all mop frames and the Rakleto system (130.100.100)
- Suitable for all users

480.400.300 | 2 x 0.9 m | blue

480.400.305 | 2 x 0.9 m | green

TELESCOPIC ALUMINIUM HANDLE WITH ROTATING BALL GRIP

- The ball grip is ergonomic, made of non-slip material, rotates and reduces pressure on the wrist
- Solid construction
- Fits all mop frames and the Rakleto system (130.100.100)
- Suitable for all users

481.100.800 | 2 x 0.8 m

Get your mop frames printed starting from 96 pieces, more info on p. 92 - 94

FLOOR CLEANING

Mops

NEW

WAVE PAD

- With wavy structure on one side and woven structure on the other
- The highly absorbent waves scoop up and retain dirt and water
- Cleans streak-free and fast and leaves a glossy finish
- Flexible and effortless to wring out
- Ideal for cleaning windows, stairs, toilets or other small areas

620.110.000 | 25 x 14 cm | gold

Packed per 5

Fits the aluminium mop frame deluxe 25 cm (480.200.226) and all aluminium mop frames on p. 51

BJ-ONE

- Absorbent non-woven mop for single use
- Ideal for cleaning and disinfecting floors
- Does not fluff or tear thanks to its double texture: with a side to attach to the Velcro of the mop and a waffled side to work quickly and efficiently
- To be used with a mop frame with Velcro, a double-sided Velcro pad, a ZAPA+ (123.500.5x0) or classic handle with reservoir

603.100.200 | bobbin 200 sheets 20 x 44 cm

603.100.300 | bobbin 150 sheets 20 x 60 cm

603.200.100 | bag with 50 mops 12 x 44 cm

603.100.100 | bobbin 200 sheets 12 x 44 cm

DOUBLE-SIDED VELCRO PAD

- To be used with the BJ-ONE range

603.300.000 | 40 cm

MICROFIBRE MOP WHITE WITH COLOUR CODING

- Excellent for dry and damp mopping
- The softness of the fibres gives optimal results on all floors, particularly parquet, laminate, marble and wood
- Equipped with 6 cut-off ribbons for colour coding
- Very hard-wearing

601.500.001 | 44 x 13 cm

601.500.003 | 60 x 13 cm

MICROFIBRE MOP BLUE WITH COLOUR CODING

- Excellent for dry and damp mopping
- The softness of the fibres gives optimal results on all floors, particularly parquet, laminate, marble and wood
- Equipped with 6 cut-off ribbons for colour coding
- Very hard-wearing

601.500.002 | 44 x 13 cm

601.500.004 | 60 x 13 cm

The mop fit the mop frames on p. 51

FLOOR CLEANING

Mops

MICROFIBRE MOP PC

- Extra resistant to chemical products
- Excellent for dry cleaning
- The absorbent fibres work great on tile floors, linoleum, parquet, marble and wood

601.500.010 | 44 x 13 cm

MOP WITH SCOURING STRIPS

- Excellent for dry and damp mopping
- With strips containing an abrasive ingredient for deep and thorough cleaning
- The absorbent fibres work great on tile floors, linoleum, parquet, marble and wood
- Very hard-wearing

615.540.540 | 44 x 13 cm

MOP RASTA VELCRO

- The microfibre fringes ensure excellent cleaning, both wet and dry

460.200.200 | 44 x 13 cm | blue
460.200.202 | 44 x 13 cm | violet

RAPIDO AND PRESTO FOR SHORT USE

- For efficient cleaning
- Can be easily attached to frames with Velcro
- Works dry, with water or with cleaning and a disinfecting product
- The Presto model (615.530.001) has 2 flaps that fit into the attachment holes of mop frames
- Washable up to 5 times at 60°C or for single use

615.530.001 | Presto | 46 x 18 cm
615.530.002 | Rapido | 46 x 11 cm
615.530.005 | Rapido | 46 x 12 cm

Fits the mop frames on p. 51

FLOOR CLEANING

Mop systems

RAKLETO

- The Rakleto system consists of:
 1. A 2 x 0.9 m or 3 x 0.6 m telescopic handle or a 1.4 m aluminium handle
 2. Microfibre Rakleto mop 55 x 27 cm (615.400.00x) with very high absorption capacity
 3. A Rakleto squeegee (130.100.100): to easily remove all kinds of dirt from the floor

130.100.100 | Rakleto

RAKLETO MOPS

- 615.400.002 | Rakleto mop | green**
- 615.400.003 | Rakleto mop | red**
- 615.400.004 | Rakleto mop | blue**
- 615.400.001 | Rakleto mop | yellow**

MAGIK

- Flip-out mop frame with magnet
- Thanks to an ingenious integrated roller mechanism, so that the handle does not fall over but remains upright
- Convenient and time-saving: no need to put it up against a wall or cleaning trolley
- Very solid design
- Used in combination with our pocket mops

387.100.200 | handle aluminium 140 cm
387.100.100 | mop frame 40 cm

POCKET MOP

- Excellent mop with pockets, flaps and colour coding
- Excellent for dry and damp mopping
- The absorbent fibres work great on tile floors, linoleum, parquet, marble and wood
- Equipped with 6 cut-off ribbons for colour coding
- Very hard-wearing
- Fits the Magik mop frame (387.100.100)

615.540.548 | 46 x 14 cm

POCKET MOP RASTA

- The microfibre fringes ensure excellent cleaning, both wet and dry
- Fits the Magik mop frame (387.100.100)

460.200.502 | violet
460.200.500 | blue

FLOOR CLEANING

Mop system with reservoir or bucket

WATER FEED HANDLE – ZAPA+

- The ZAPA+ is a handle that is easily filled with water or a cleaning product
- With a simple push on the handle's button, the ZAPA+ sprays liquid onto the floor
- Volume reservoir: 500 ml
- Length: 145 cm

123.500.500 | blue
123.500.550 | green

THE ZAPA+ HANDLE FITS ALL OF OUR ALUMINIUM MOP FRAMES AND CAN BE COMBINED WITH

- BJ One-mops for single use: to quickly clean small and medium-sized areas. Avoid the washing costs of textiles and prevent the risk of cross-contamination.
- Our microfibre mops or Rapido and Presto mops for short-term use and traditional mop cleaning.
- Comprimex Magic mops for removing stains and stubborn dirt.

MEASURING CUP

- With this measuring cup, you can easily fill the ZAPA+ handles
- Avoid water spillage thanks to the pointed and convenient spout
- Dose accurately thanks to the indicated graduations
- Volume: 1 L

480.200.278

FLOOR CLEANING

Mop system with reservoir or bucket

The Turbo Mop range is a system with a bucket and an integrated rinsing and spinning system.

When in use, give the handle a quick click between rinsing and spinning. Click it straight again to rinse.

TURBO MOP PRO

- The microfibre fringes attract dirt like a magnet and clean deep into the pores of the surface
- Activate the rinsing and spinning system via pressure with the handle or pedal
- With dual function
 1. Rinse function in the bucket to wash the mop
 2. Spin function in the stainless steel basket to dry the mop
- With basket in durable and hygienic stainless steel
- Delivered in attractive packaging with 2 microfibre mops and a 140 cm handle

640.200.100 | Turbo Mop Pro

640.200.500 | spare mop

640.200.511 | spare handle

TURBO MOP KOMPAKT

- Very compact mop system that is easy to store
- The ingenious worm screw lowers the basket for rinsing and raises it for drying
- The microfibre mop is very absorbent and machine washable

640.200.125 | Turbo Mop Kompakt

640.200.500 | spare mop

640.200.521 | spare handle

FLOOR CLEANING

Melamine floor pads

PROMIX MELAMINE PADS

- Highly effective range of melamine pads for single-disc machines and scrubbers
- Effortlessly remove black streaks, oil, grease and dried-in dirt
- Amazing results with just water or a mild detergent
- Guarantee a deep cleaning of all kinds of floors, such as ceramic tile floors, marble, cast floors, polished or coated concrete, epoxy floors, terracotta,...
- Available in the following diameters: 8" (203 mm), 10" (254 mm), 11" (279 mm), 12" (305 mm), 13" (330 mm), 14" (356 mm), 15" (381 mm), 16" (406 mm), 17" (432 mm), 18" (457 mm), 19" (483 mm), 20" (508 mm), 21" (533 mm) and l-mop version

PROMIX COMPRIMEX
Cleans up to 2,000 m²

PROMIX HD
Patented material that cleans up to 10,000 m²

PROMIX HDS
Patented material that cleans up to 15,000 m²

8

COMPRIMEX MAGIC PAD

- Effortlessly removes traces of shoe soles and wheels
- Excellent results on linoleum, marble and tiles
- Moisten the mop with water and a cleaning product if necessary
- Ideal in combination with our ZAPA+ handle (123.500.5x0) and aluminium mop frames

250.100.300 | 25 cm |
for 25 cm aluminium mop frames
Packed per 4

250.100.304 | 40 cm |
for 40 cm aluminium mop frames

CLEANING GUNS

9

CLEANING GUNS

3rd generation

BALL BOOSTER 3RD GENERATION

- The Ball Booster is a revolutionary cleaning gun that works with Ball Technology, instead of a rotating metal tube
- Operates at 4 bar instead of 6.5 bar
- Ultra-reliable and high-tech motor
- Equipped with 360° multi-directional air inlet and pressure regulator on the handle

888.000.240

UNIQUE FEATURES BALL BOOSTER

	Ultra-reliable and high-tech motor with bearing assembly		Air pressure regulator
	Multi-directional 360° air inlet: - for better stability on horizontal surfaces - for better freedom of movement		Operates at 4 bar instead of the 6.5 bar required by other guns
	Extra seals prevent dirt from getting sucked into the motor		Produces less noise than the traditional cleaning guns
	With extra screw thread in the bottle lid (patented) to which our 600 and 1,000 ml bottles can be attached		Easily removable brush

EXTRACTOR 3RD GENERATION

- The Extractor is mounted on the Ball Booster and connected to the hose of a vacuum cleaner via one of the supplied adapters
- Due to injection of the product at high-pressure (compressed air), the dirt is immediately detached, and at the same time sucked up by the vacuum cleaner
- The result is a perfectly clean and fast-drying surface
- Ideal for deep-cleaning carpets and upholstery
- For safe operation: do not inhale any product mist
- Better results than injection or extraction machines

888.000.326

Get your cleaning guns printed starting from 96 pieces, more info on p. 92 - 94

CLEANING GUNS

2nd generation

BRUSH BLACK BOOSTER

- Ultra-reliable and high-tech motor
- Equipped with 360° multi-directional air inlet and pressure regulator on the handle
- Easily removable brush

888.000.200

Second generation cleaning guns work with a metal tube, driven by a motor with bearings

BLACK BOOSTER³

- Ultra-reliable and high-tech motor
- Equipped with 360° multi-directional air inlet and pressure regulator on the handle

888.000.210

BRUSH BLACK BOOSTER WITH 15 M HOSE

- Ultra-reliable and high-tech motor
- Equipped with 360° multi-directional air inlet and pressure regulator on the handle
- Easily removable brush

888.000.230

MAXX CLEANING GUN

- Model with new stainless steel motor block
- Very powerful device
- With air pressure regulation

777.400.100

FEATURES BRUSH BLACK BOOSTER AND BLACK BOOSTER³

	<p>Ultra-reliable and high-tech motor with bearing assembly</p>		<p>The Brush Black Booster has an easily removable brush</p>	 <p>With extra screw thread in the bottle lid (patented) to which our 600 and 1,000 ml bottles can be attached</p>
	<p>Multi-directional 360° air inlet: - for better stability on horizontal surfaces - for better freedom of movement</p>		<p>Air pressure regulator</p>	

CLEANING GUNS

1st generation

CLASSIC BOOSTER²

- Classic Booster² is a cleaning gun of the first generation that operates using a plastic rotating tube
- Equipped with 360° multi-directional air inlet and pressure regulator on the handle

888.000.100

FEATURES CLASSIC BOOSTER²

	Multi-directional 360° air inlet: - for better stability on horizontal surfaces - for better freedom of movement
	Air pressure regulator
	With extra screw thread in the bottle lid (patented) to which our 600 and 1,000 ml bottles can be attached

FUNNELS FOR THE CLASSIC BOOSTER²

244.500.900 | funnel with small brush

244.500.101 | funnel in stainless steel

Get your bottles printed, more info on p. 92 - 94

CLEANING GUNS

Air blowguns

AERO GUN

- Cleaning gun that sprays swirling air without a product, like a tornado
- Equipped with 360° multi-directional air inlet and pressure regulator on the handle

288.100.640

AERO GUN BLACK

- Cleaning gun that sprays swirling air without a product, like a tornado
- Ultra-reliable and high-tech motor
- Equipped with 360° multi-directional air inlet and pressure regulator on the handle
- Easily removable brush

888.000.390

POWER GUN

- Compressed air gun with an airflow that is 5 times more powerful than a classic pistol
- Highly suitable for powerful blow cleaning and fast drying of all kinds of surfaces
- Equipped with 360° multi-directional air inlet and pressure regulator on the handle

888.000.395

POWERJET

- Cleaning gun with a strong, focused flat jet, ideal for cleaning or drying hard-to-reach areas
- Has a lower noise level (5 dB) than traditional blowguns (8 dB)
- Significantly reduces air consumption by optimising the use of compressed air

888.000.500

CLEANING GUNS

Air blowguns

ASPIRO GUN

- The Aspiro Gun is connected to compressed air and a vacuum hose
- The dirt is detached by the compressed air, and at the same time sucked up by the vacuum cleaner

888.000.393

WAX & COATING GUN

- Gun with 4 bar operating pressure that works with a bullet ball instead of a metal tube
- The amount of sprayed product can be regulated with the valve on top of the gun
- Ideal for spraying fine coatings, waxes and leather balm
- Very efficient to remove dirt, dust, grease residue,... on places that are difficult to reach, such as:
 - The inside of vehicles, motorbikes and boats
 - Ventilation shafts and vents
 - Dashboards
 - Carpets: textile and plastic
 - Between car seats
 - Around the gear lever
 - Under the bonnet and around door hinges
 - In the glove compartment and small storage compartments
 - Rims

888.000.400

AERO GUN DOUBLE ACTION

- Connects to compressed air and a vacuum hose, the dirt is detached by the compressed air, and at the same time sucked up by the vacuum cleaner
- Areas of application:
 - Car: seat covers, carpets (textile and plastic), rear shelves, but can also be used to clean the interior of the vehicle and plastic parts
 - Car body repair shops
 - Bodywork shops
 - Sheet metal repairers
 - Car rental companies
 - Taxis, camping cars
 - For patient transport, ambulances
 - For parcel services

288.100.610 | with plastic rotating hose

288.100.620 | with Ball technology

Print your cleaning guns starting from 96 pieces, more info on p. 92 - 94

FOAMERS

10

FOAMERS

Electric foamers

NEW

LITHIUM-ION
BATTERY

E-FOAM

- Electric foamer for thick, adhesive foam at the push of a button
- Forget constant effort and manual pressurization
- With 1.8 L reservoir and useful measurement indicator
- Excellent resistance to a wide range of chemicals
- With 3 mm spray button and spray angle of up to 110°
- Lock the control knob for continuous foam
- With integrated pressure relief valve
- With 7.2 V lithium-ion battery
- Working time: 1 h
- Lights indicate the battery level

590.200.001

590.200.050 | with a neutral bottle

Print your foamers starting from 96 pieces, more info on p. 92 - 94

FOAMERS

Manual foamers

RESIST FOAM

- Foamer with solid tank in polyethene and chemically resistant seals
- Excellent resistance to aggressive and corrosive chemicals
- Produces a rich foam
- With standard nozzle
- With foam nozzle (A23.081.900)

CH2637EM Resist foam | 7.6 L

SPRAY-MATIC 1.5 L FOAM

- Foamer with FKM or EPDM seals and 1.5 L reservoir
- To be used as a sprayer or as a foamer with foam nozzle
- By removing the foam nozzle, the device can be used as a sprayer
- The handle can be blocked for continuous spraying or placed in the safety position
- Foam nozzle included

901.300.100 | FKM | blue
901.300.200 | EPDM | grey

FOAM MASTER

- Foamer with integrated foam sponges for foaming surfaces of up to 1 m²
- Equipped with chemical-resistant seals
- With pressure relief valve of 3 bar
- Flat jet nozzle of 110°C
- For better cleaning with thick and dry foam
- Ideal for cleaning vehicles and use in the food industry

901.300.060 | 1.5 L | FKM
901.300.070 | 1.5 L | EPDM

ULTIMATE FOAMER

- Foamer with interchangeable nozzles for foaming surfaces of up to 10 m²
- For foaming larger surfaces without having to pump all the time, including 5 m spiral hose for a long reach
- Equipped with chemical-resistant seals
- With pressure relief valve of 3 bar and pressure regulator
- With flat jet nozzle of 110°C
- With hand pump and air pressure inlet
- For better cleaning and long foaming with thick, dry foam

229.100.000 | 8 L

KOMPRESSOR

- Portable, compact compressor with rechargeable and integrated battery
- Ideal in combination with the Ultimate foamer (229.100.000)
- Keeps the Ultimate Foamer under pressure during foaming, so continuous manual pumping is no longer necessary
- Is propelled completely independently thanks to the integrated battery
- The stainless steel housing is solid and resistant
- Suitable for pumping car tires, bicycles and motorcycles, balls, mattresses, inflatable toys with an inflation valve

340.100.100

FOAMERS

Compressed air foamers

FOAM BOOSTER 1 L

- Compressed air foamer with operating pressure of 6 bar
- Produces extra thick foam even with low foaming cleaning products
- For a professional result with a small investment
- Dilute the desired product before adding it to the 1 L tank

288.000.610 | 1 L

FOAM BOOSTER 3 L

- Compressed air foamer with operating pressure of 6 bar
- Produces extra thick foam even with low foaming cleaning products
- For a professional result with a small investment
- Dilute the desired product before adding it to the 3 L tank

288.000.630 | 3 L

FOAM BOOSTER 12 L

- Compressed air foamer with operating pressure of 6 bar
- Produces extra thick foam even with low foaming cleaning products
- For a professional result with a small investment
- Dilute the desired product before aspiration with the hose

288.000.700 | with 12 m hose

FOAM-MATIC IN INOX

- Compressed air foamer with tank in stainless steel and trolley
- Produces a thick and rich foam that is long-lasting and enhances the product's effect
- Can be used as a foam unit and as a mist unit
- Delivered with foam nozzle for foaming and spray nozzle for spraying
- Not suitable for strong acids
- With stainless steel tank, trolley, mixing valve for air and product supply, safety valve, pressure regulator, quick coupling for compressed air connection, pressure gauge, level indicator and pressure relief valve
- With 10 m PVC hose, 75 cm stainless steel lance for the 24 L model and 90 cm for the 50 and 100 L models
- Maximum operating pressure: 8 bar
- Complies with the European directive 97/23/CEE

207.200.101 | 24 L
207.200.103 | 50 L
210.200.105 | 100 L

FOAM-MATIC IN PAINTED STEEL

- Have the same properties as the Foam-Matics in stainless steel, but with tank in painted steel

207.200.102 | 24 L
207.200.104 | 50 L

Print your foamers starting from 96 pieces, more info on p. 92 - 94

FOAMERS

Water pressure foamers

FOAM-BOY

- Foamer with 9-jet nozzle that automatically dilutes the product with water, without wastage or overdosing
- Easily connects to a water source, there is no need for electricity
- Ideal for applying cleaning products and disinfectants
- For better cleaning and long foaming with thick, dry foam
- Set the amount of dilution with the coloured measuring tips: green 2.5%, blue 4%, yellow 5.5% or 12.5% without measuring tip
- To rinse, disconnect the tank via the quick-release coupling and replace with the nozzle with 9 different jets

222.100.100 | 1.4 L

CLEAN BOY FOAM

- Has the same features as the Foam-Boy, but is delivered without the 9 jet nozzle
- Disconnect the tank for rinsing with the powerful water jet from the gun
- Set the dilution amount between 0.8 and 8% with the coloured measuring tips

205.100.100 | 2.8 L

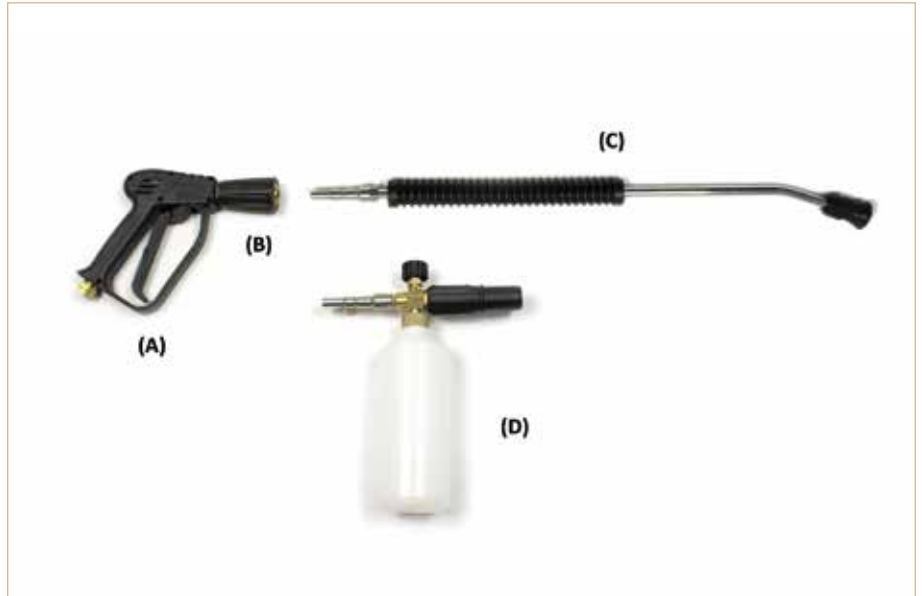

FOAM INJECTOR

- Fits on our 600 ml and 1,000 ml bottles, and other bottles with a 28/400 neck
- Automatically dilutes the product with water
- Easy to connect to a water hose
- With on/off tap to shut off the water supply
- 2 positions: foaming with a product and rinsing with clean water

215.000.001 | without bottle

FOAMERS

High-pressure foamers

TURBO FOAM HP

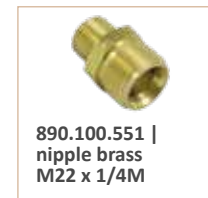

- The foam gun Turbo Foam HP is directly connected to the gun or lance of a high-pressure cleaner
- The venturi effect ensures that the cleaning product is aspirated from the 1 L bottle
- Generates a powerful jet of dry foam that remains on the surface
- Ideal for cleaning cars, floors, machines, facades, terraces, greenhouses,...
- Quality materials guarantee a trouble-free long life and good resistance to chemicals
- With adjustable foam jet
- Maximum pressure: 160 bar
- Flow rate: 20 L/min
- Maximum temperature: 60°C

890.100.100 | with 1 L bottle
 890.100.110 | with 1 L bottle and quick coupling KW 1/4V
 890.100.200 | with 2 L bottle

FOAM KIT

890.100.500 | gun (A)
 890.100.570 | QR Quick coupling KW-V (B)
 890.100.518 | 60 cm high-pressure lance with quick coupling KW-M (C)
 890.100.520 | 90 cm high-pressure lance with quick coupling KW-M (C)
 890.100.110 | Turbo Foam HP with quick coupling KW-M (D)

INFRARED DISPENSERS

11

INFRARED DISPENSERS

NEW

ARNO DISPENSER WITH INFRARED

- Contactless dispenser, ideal for wall mounting
- Suitable for disinfection alcohol
- Charges via 220 V adapter or with 4 AA batteries
- Content: 1 L

310.000.100 | for spray

NEW

OTTO DISPENSER WITH INFRARED

- Contactless dispenser, ideal for wall mounting
- The dispenser is available in versions for alcohol sprays, foam, soap and gel
- Charges via 220 V adapter or with 4 C batteries
- Content: 1 L

360.000.100 | for spray

360.000.200 | for foam

360.000.300 | for soap or gel

NEW

ARNO DISINFECTION COLUMN WITH INFRARED

- Contactless dispenser on a very stable base with a 7 kg weight
- With an easily refillable reservoir, suitable for disinfection alcohol
- With transparent level indicator
- For an exact dose with every use
- Content: 1 L

310.000.000 | for spray

NEW

OTTO DISINFECTION COLUMN WITH INFRARED

- Contactless dispenser on a very stable base with a 7 kg weight
- With an easily refillable reservoir for alcohol sprays, foam, soap and gel
- With transparent level indicator
- For an exact dose with every use
- With on/off button on the outside of the dispenser
- Content: 1 L

360.200.000 | for spray

360.200.020 | for foam

360.200.030 | for soap or gel

NEW

MILO DISPENSER WITH INFRARED

- Contactless dispenser with infrared for alcohol gel and hand soap
- With the possibility to mount to the wall
- With lithium-ion battery, which charges via the supplied USB cable or with 3 AA batteries
- Has a modern design that is IPX4 water resistant
- Content: 320 ml

390.000.100 | for spray

390.000.200 | for foam

390.000.300 | for soap or gel

NEW

OTTO TABLE/BOW REST WITH INFRARED

- Contactless dispenser on a very stable base with a 4 kg weight
- The ideal solution for tables and counters
- With an easily refillable reservoir for alcohol sprays, foam, soap and gel
- For an exact dose with every use
- Charges via 220 V adapter
- Content: 1 L

360.200.500 | for spray

360.200.520 | for foam

360.200.530 | for soap or gel

DOSING SYSTEMS

General dosing systems

PORTADOZ

- Portable dilution system for liquid chemical concentrates
- Always dilutes the product correctly
- Beneficial, reliable and made of high-quality materials
- Can be easily mounted on any type of reservoir with cleaning product
- It has the perfect small size for cleaning trolleys
- The reusable dispenser is recommended for diluting bottles or buckets
- With an integrated non-return valve
- Does not have to be attached to a wall
- You can use the Portadoz with different screw lids by using the lock nut and the washer

550.100.100	for bottles	blue
550.100.110	for bottles	red
550.100.120	for bottles	yellow
550.100.130	for bottles	green
550.100.140	for bottles	grey
550.200.100	for buckets and scrubbing machines	blue

550.200.120	for buckets and scrubbing machines	yellow
550.200.130	for buckets and scrubbing machines	green
550.200.140	for buckets and scrubbing machines	grey

QUICK FILL TOWER FOR SCRUBBING MACHINES

- Automatically mixes chemical concentrates with water
- Safer to use as the user does not come in contact with the chemical product
- The 200 L tank deflates in 90 sec
- There is no need for electricity or air pressure

550.300.100	with 200 L reservoir
550.300.105	with 300 L reservoir

VENTURI-INJECTOR

- Easy to connect to a water supply, there is no need for electricity
- Automatically dilutes a product concentrate with water
- The correct dilution is set by using the coloured measuring tips between 0.3 and 25%
- 3 positions:
 1. Dosing function: water and a product
 2. Rinsing function: only water
 3. Self-cleaning function: the Venturi cleans itself
- Inlet and outlet 3/4" M

400.000.900

DOSAPUMP

- Easy and practical solution to manually dose all kinds of products
- Suitable for hotels, restaurants, schools and kitchens
- Ideal for filling sinks, bottles and buckets
- Push the large button with the palm of your hand for a dose of product
- Three possible dosing settings: 30, 22 and 15 cc
- Shock-resistant housing
- Chlorine-resistant
- Perfect aspiration of viscous products
- Easily attached to a wall

205.200.110	with swivelling anti-drip tube
205.200.100	with PVC hose

DOSING SYSTEMS

Dosing caps

NEW

HACCP
COMPLIANT

DOSING CAPS

- With the dosing caps you can easily separate an exact amount of liquid from a bottle
- Are screwed onto a bottle, and by squeezing the bottle with one hand the dosage cap is filled with solution
- A scale enables you to monitor the dosage and squeeze further until the desired dosage is reached
- With a tear-off guarantee strip on the cap that keeps the dosage tube sealed until the first use
- Available in HACCP colours
- Drainable and perfectly resealable
- With integrated anti-splash protection
- Compatible with our 600 and 1,000 ml bottles

750.100.010 | transparent
750.100.020 | blue
750.100.030 | red

750.100.050 | green

NEW

DISPENSING TAPS

- The innovative dispensing taps let you transfer liquids fast, with a constant stream and without bubbling
- The series is designed to support the dosing of large amounts of liquids within a short period
- Suitable for various containers, bottles, jerry cans, barrels and IBCs with an external thread varying from DIN 40 to DIN 61, as well as plastic and steel drums with a 3/4" internal thread
- Meet food safety standards

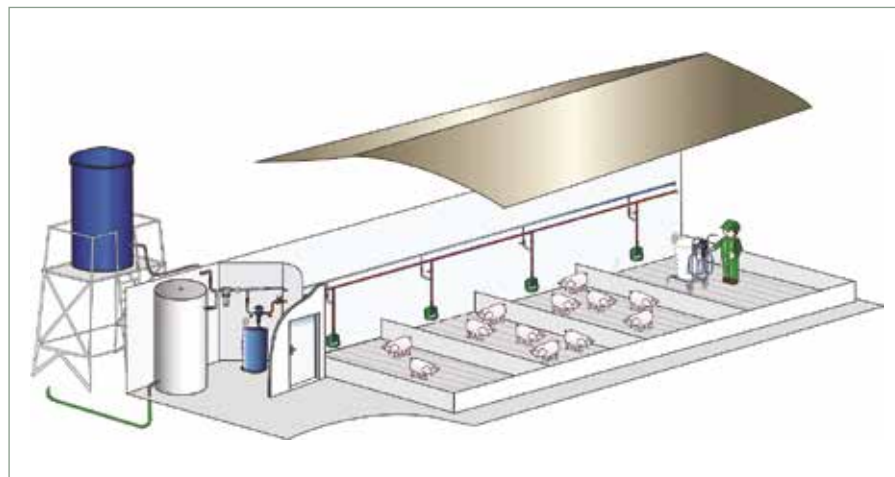

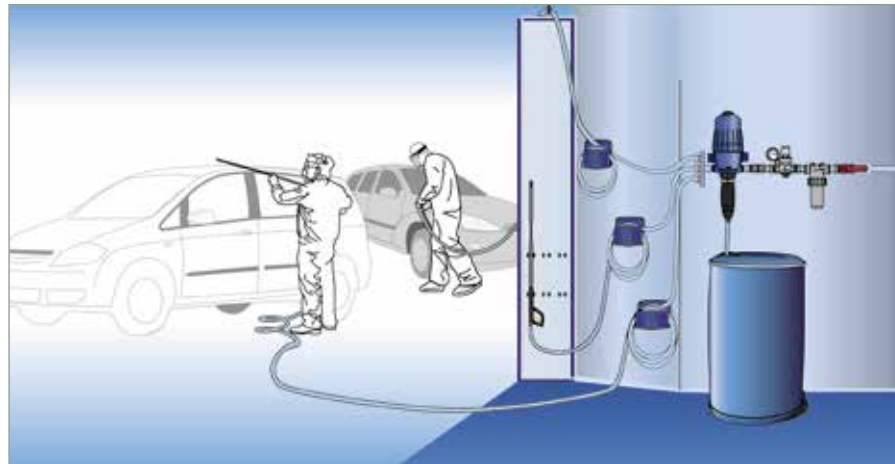

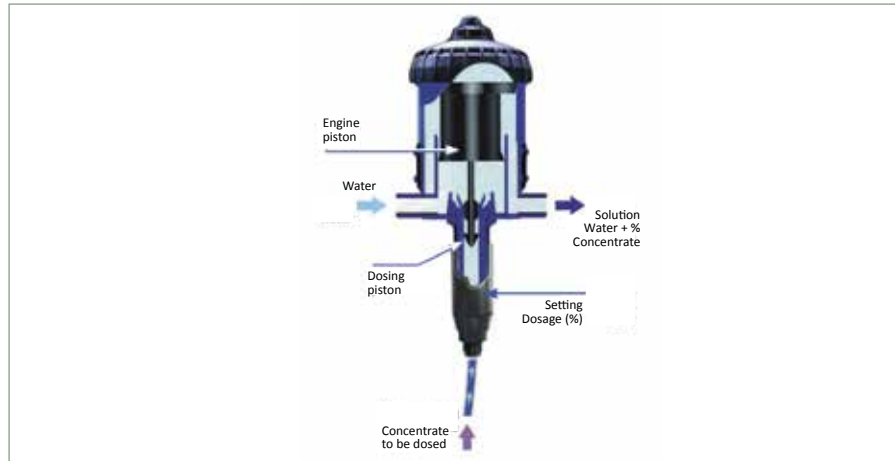

740.113.040 13/40 | for DIN40 thread
740.123.045 | 23/45 for DIN45 thread
740.123.051 | 23/51 for DIN51 thread
740.123.061 | 23/61 for DIN61 thread
740.123.134 | 23/3/4" on 2" Mauser-Rough
740.123.234 | 23/3/4" on 2" Trisure

DOSING SYSTEMS

Dosatron

FOR ACCURATE DOSING WITHOUT ELECTRICITY

Installed directly in the water supply line, Dosatron pumps operate without electricity, using water pressure as its sole power source. On its way through, the water activates the plunger, which takes up the required percentage of concentrate. Inside the pump, the concentrate is mixed with water. The water pressure forces the solution downstream. Once set, the pump requires no further attention. The dose of concentrate will always be strictly proportional to the volume of water entering the pump, whatever variations in flow or pressure may occur in the main line.

D45RE3 | 0.5 to 3 %
D45RE8 | 3 to 8 %

DOSATRON RANGE 8 M³/H

- Water flow range: 500 L - 8 m³/h
- Operating pressure: 0.15 - 8 bar
- Maximum water temperature: 40°C
- Connections inlet and outlet: 1 ½" M
- Supplied with wall mount, suction hose and suction filter

D8RE2 | 0.2 to 2 %
D8RE5 | 1 to 5 %

DOSING SYSTEMS

Dosatron

DOSATRON RANGE 20 M³/H

- Water flow range: 1 m³ - 20 m³/h
- Operating pressure: 0.12 - 10 bar
- Maximum water temperature: 40°C
- Connections inlet and outlet: 2" M Ø 50 x 60 mm
- Supplied with wall mount, suction hose and suction filter

D20WL2 | 0.2 to 2 %

DOSATRON PVDF PUMP BODY

- The PVDF pump bodies are resistant to aggressive and corrosive products
- Available for the ranges 0.7, 2.5 and 4.5 m³

EXTERNAL PRODUCT INJECTION

- External product injection (IE) ensures that the product does not pass the pump body
- Available for the ranges 2.5 and 4.5 m³

DOSATRON PROPORTIONAL HYGIENE UNIT HU1

- Provided with a proportional Dosatron dosing pump
- Operating pressure: 1 - 6 bar
- With integrated anti-pollution BA disconnection
- Filling kit anti-drop 180 cm valve and stainless steel barrel support

HU1D25RE2 | with dosing pump D25RE2 | 0,2 to 2 %

HU1D25RE5 | with dosing pump D25RE5 | 1 to 5 %

HOSE WITH COUPLINGS FOR FOOD INDUSTRY

- Composed of 4 layers that are suitable for use in the food industry, the outer layer does not leave streaks and is grease resistant
- Suitable for both water and cleaning products
- Maximum pressure: 20 bar
- Maximum temperature: 70°C
- Including couplings, entry ¼" V for connection to the water supply or Dosatron ranges Compact, 2.5 m³/h and 3 m³/h
- Exit: coupling 801.600.201
- Can be attached to our shock-resistant guns

801.600.085 | 15 m
801.600.100 | 20 m
801.600.102 | 25 m

20 M HOSE WITH LANCE IN STAINLESS STEEL + COUPLINGS

- Longer or shorter hose available on demand
- Stainless steel lance in stainless steel in 600, 750 or 900 mm
- Fits the following ranges: Compact, 2.5 m³/h and 3 m³/h

801.004.300

DOSING SYSTEMS

Hygiene units

HYGIENE UNITS

- With CA non-return valve, ACSE approved
- Work with water pressure, there is no need for electricity or compressed air
- Are connected to a water supply and automatically dilute one or two cleaning products or disinfecting products with water
- Ideal for cleaning and disinfecting floors, machines and other surfaces
- Applicable in a HACCP system
- With robust shock-resistant housing, the hose is suitable for use in the food sector, swimming pools and saunas and resistant up to 70°C
- Made out of 4 layers, the outer one does not form streaks and is grease-resistant
- Shock-resistant gun with adjustable nozzle
- Has a low weight for more comfort and is more ergonomic compared to conventional guns
- The correct dilution is set using a set of coloured measuring tips, 16 different dilutions can be set between 0.5 and 11% with coupling between gun and hose
- Operating pressure between 1.5 and 6 bar
- 2 functions: dosing function and rinsing function
- 2 models: one for 1 product and one for 2 products, comes with 1 or 2 stainless steel barrel supports depending on the model

HYGIENE UNIT 1 PRODUCT

- With hose and shock-resistant gun

801.001.120 | with 10 m hose
 801.001.220 | with 15 m hose
 801.001.420 | with 25 m hose

HYGIENE UNIT 2 PRODUCTS

- With hose and shock-resistant gun

801.001.620 | with 10 m hose
 801.001.720 | with 15 m hose
 801.001.920 | with 25 m hose

Connect our handles and brushes to the hygiene units with coupling 801.600.199

801.600.199

HYGIENE UNIT 1 PRODUCT WITH AUTOMATIC REEL IN STAINLESS STEEL

- Hose and shock-resistant gun, mounted on a premium reel in stainless steel

801.001.121 | with 10 m hose
 801.001.221 | with 15 m hose
 801.001.321 | with 20 m hose

HYGIENE UNIT 2 PRODUCTS WITH AUTOMATIC REEL IN STAINLESS STEEL

- With hose and shock-resistant gun, mounted on a Premium reel in stainless steel

801.001.621 | with 10 m hose
 801.001.721 | with 15 m hose
 801.001.921 | with 20 m hose

HYGIENE UNIT 1 PRODUCT WITH AUTOMATIC REEL IN PVC

- With hose and shock-resistant gun, mounted on a PVC reel

801.001.224 | with 15 m hose

HYGIENE UNIT 2 PRODUCTS WITH AUTOMATIC REEL IN PVC

- With hose and shock-resistant gun, mounted on a PVC reel

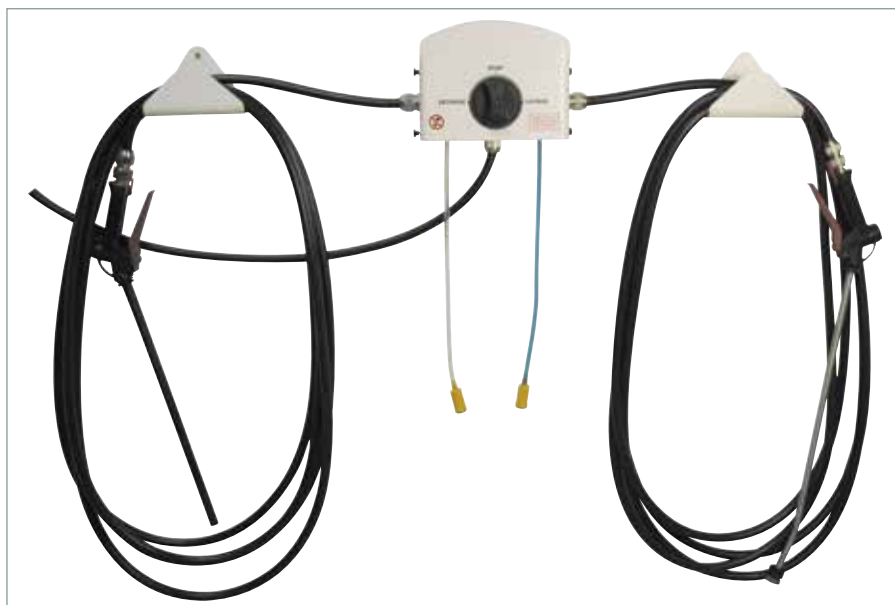

801.001.724 | with 15 m hose

DOSING SYSTEMS

Spraying units

WORK WITH WATER PRESSURE, NO NEED FOR ELECTRICITY OR COMPRESSED AIR

- Are connected to a water supply and automatically dilute one or two cleaning products or disinfecting products with water
- Ideal to spray cars, trucks and other vehicles with a cleaning product
- Equipped with a flat jet nozzle
- The correct dilution is set by using the coloured measuring tips
- 16 different dilutions can be set between 0.5% and 12%
- With coupling between gun and hose
- Operating pressure between 2 and 6 bar
- The spraying unit for 2 products is delivered with stainless steel lance and PVC lance
- The spraying unit for 1 product is delivered with stainless steel lance
- The acid spraying unit for 1 product is delivered with PVC lance

SPRAYING UNIT 2 PRODUCTS

- Specifically designed to spray 2 products with the same unit
- A cleaning product should be sprayed with the lance in stainless steel and the rinsing and drying product should be sprayed with the lance in PVC
- With hose, lance in stainless steel and lance in PVC

801.015.910 | with 2 x 15 m hose, 60 cm lance in stainless steel and 45 cm lance in PVC, with double non-return valve with standard double return valve

801.015.920 | with 2 x 25 m hose, 60 cm lance in stainless steel and 45 cm lance in PVC, with double non-return valve

Connect our handles and brushes to the spraying units with coupling 801.600.199

801.600.199

SPRAYING UNIT 1 PRODUCT

- Specifically designed for spraying cleaning products and shampoos
- With hose and lance in stainless steel

801.000.100 | with 10 m hose and a 60 cm lance in stainless steel, with double non-return valve

801.000.200 | with 15 m hose and a 60 cm lance in stainless steel, with double non-return valve

801.000.300 | with 25 m hose and a 90 cm lance in stainless steel, with double non-return valve

801.000.120 | with 10 m hose and a 60 cm lance in stainless steel, with CA non-return valve, ACSE approved

801.000.220 | with 15 m hose and a 60 cm lance in stainless steel, with CA non-return valve, ACSE approved

801.000.320 | with 25 m hose and a 90 cm lance in stainless steel, with CA non-return valve, ACSE approved

ACID SPRAYING UNIT 1 PRODUCT

- Specifically developed to spray acids e.g. rim cleaners, descalers
- With hose and lance in PVC

801.015.700 | with 15 m hose and 60 cm lance in PVC, with double non-return valve

801.015.704 | with 25 m hose and 60 cm lance in PVC, with double non-return valve

DOSING SYSTEMS

Dilution units

PROMAX

- Automatically dilute a product concentrate with water, quickly fill spray bottles and other reservoirs with ready-made products by pushing the button or the lever
- Models with a water flow of 4 L per min are perfect to dilute bottles and sprayers, to dilute buckets and sinks we recommend the 14 L per min models and for scrubbing machines use the 30 L per min models
- The correct dilution is set by using the coloured measuring tips between 0.3 % and 30 %
- The dilution cannot be changed to exclude waste
- Easy to connect in series
- Easy to connect to a water supply line
- There is no need for electricity
- Temperature: up to 40°C
- Operating pressure: 1 to 9 bar

801.004.118	for 1 product 4 L/min button to fill (spray) bottles
801.004.120	for 1 product 4 L/min button to fill buckets and sinks
801.004.124	for 1 product 14 L/min button to fill scrubbing machines
801.004.126	for 1 product 30 L/min lever to fill (spray) bottles
801.004.130	for 4 products 4 L/min button to fill (spray) bottles
801.004.131	for 4 products 4 L/min button to fill buckets and sinks
801.004.133	for 4 products 14 L/min button to fill scrubbing machines
801.004.134	for 4 products 30 L/min lever to fill (spray) bottles

LOCKABLE CABINET

- To lock products in a safe way
- Suitable for 1 barrel of 5 L or 2 barrels of 2 L
- Dimensions: H 364.5 mm x W 226 mm x D 175 mm

801.004.160

DILUTION UNITS FOR 4 PRODUCTS

- You can choose the dilution flow for each of the 4 products: either 7 L/min or 14 L/min
- You can put 4 to 5 L bottles in the lockable cabinet
- The correct dilution is set by using the coloured measuring tips between 0.3 % and 14 %
- Also available for 3 products

550.400.10x | flow rate per product to be chosen by user

DOSING SYSTEMS

Accessories

HOSE RACK

- In stainless steel
- Capacity: 25 m

801.500.525

BARREL RACK

- In stainless steel

801.500.600 | for 5 L barrel
801.500.800 | for 10 L barrel
801.500.900 | for 20 L or 30 L barrel

CHARIOT

- In stainless steel
- For hygiene units
- Free fixation of unit to chariot

801.002.130

WATER FILTERS

- Fine filtration up to 80 micron
- The nylon cartridge can be cleaned and reused

411.200.300 | in- and outlet 3/4" feminine
411.200.400 | in- and outlet 1 1/4" feminine

SHOCK-RESISTANT GUN

- The perfect low-pressure gun for industrial and food-related cleaning
- Adjustable from a fine spray to a jet
- Robust but lightweight design ensures more comfort compared with traditional guns
- Inlet coupling 1/2 V, shaft and spring in stainless steel
- Delivered with quick coupling 801.600.200
- Maximum pressure: 12 bar (BL model) – 24 bar (WH model)
- Maximum temperature: 50°C (BL model) – 80°C (WH model)

801.004.100 | shock-resistant BL gun, including quick coupling
801.004.104 | shock-resistant WH gun, including quick coupling

801.600.200

801.600.201

QUICK COUPLINGS

- Fits the shock-resistant guns, the spray lances in stainless steel and the high resistance spray lances

801.600.200 | 1/2"
801.600.201 | 12 mm x 1/2"

SPRAY LANCE IN STAINLESS STEEL

- Fits our spraying units

801.600.590 | 300 mm
801.600.600 | 600 mm
801.600.750 | 750 mm
801.600.900 | 900 mm
801.600.480 | 2 x 1 m

801.600.200

110.100.101

110.100.102

110.100.110

COUPLINGS

- Fit the spray lance in stainless steel

801.600.200 | 1/2"
110.100.101 | 8 mm x 1/2"
110.100.102 | 12 mm x 1/2"
110.100.110 | 10 mm x 1/2"

BACKFLOW PREVENTER 3/4 M X BA

- Prevents backflow of product in the water supply

801.500.498

SYPHON PUMPS

13

SYPHON PUMPS

SYPHON PUMP POLYETHENE

- Syphon pump for 200 L barrels
- High-quality pump in polyethene at a very competitive price
- Has good resistance to chemicals

802.100.100

SYPHON PUMP IN POLYETHENE SMALL MODEL

- Syphon pump for 5, 10, 25 and 30 L bottles

802.100.105

DRUM PUMP POLYPROPYLENE

- Syphon pump for barrels from 25 to 200 L in polypropylene and stainless steel 316
- With telescopic tube and extension
- For water, alcohol, diesel, lubricants, acids and alkalis

802.100.200

DOSING PUMP 20 ML AND 30 ML

- Dosing pump made of polyethene
- Guarantees an exact dosage of the used products
- Delivered with 3 different caps (DIN38 - DIN40 - DIN42) that fit on the majority of the 5 and 10 L bottles
- Output per pump stroke: 20 ml, 30 ml

901.200.278 | 20 ml

901.200.275 | 30 ml

POWER PUMP

- To easily transfer liquids: submerge the end of the hose into the liquid and shake it up and down a few times
- Thanks to the self-priming valve, the liquid starts flowing automatically
- For almost all liquids: water, petrol, diesel, insecticides, fertilisers, solvents, detergents,...
- Ideal for siphoning cleaning products and disinfectants, petrol or diesel, for clogged toilets and sinks, aquariums, jacuzzis, swimming pools, emptying radiators, filling motor home water tanks
- Flow rate: 12 L per min

501.100.100

ADAPTER SYPHON PUMP

- Adapter to mount syphon pumps on barrels
- Fits on our syphon pumps in polyethene and polypropylene

121.400.410 | yellow for 25, 30 and 60 L barrels and DIN61 → 2" NPS/BSP

121.400.420 | blue for 200 L barrels and 2" Mauser → 2" NPS/BS

121.400.400 | orange for 200 L barrels and 56 x 4 → 2" NPS/BSP

DEODORISATION

14

DEODORISATION

WHAT IS OZON?

- Have you noticed how clean and fresh the air smells after a thunderstorm? That pleasant effect can also be reproduced by the unique corona discharge tube at the heart of our odour control devices. They convert oxygen into ozone, which sterilises the air by destroying bacteria and odour molecules. Ozone has a lifetime of about 35 minutes and is then automatically converted back into oxygen
- Unlike other systems, which only mask odours, ozone gets to the root of the problem so bad odours do not return. Moreover, since ozone is a gas, it penetrates even the most difficult to reach nooks and crannies
- Our appliances are portable, compact and have an excellent finish. A standard 220 V socket is sufficient to tackle any odour or bacteria problem. Once switched on, these units autonomously provide an odourless and sterile space

SANI-ZONE

- Compact but very powerful ozone generator
- Excellent for removing bad odours, viruses and bacteria in offices, schools, hospitals, hotels and restaurants, food shops and factories, gyms, cars, trucks, boats,...
- Equipped with a timer, which, for safety reasons, automatically switches the appliance off after treatment
- Supplied with a 220 V plug
- Ozone production: 7 g/h
- Maximum coverage area: 120 m³
- Application time: 30 min - 3 h

105.100.100

SANI-ZONE CAR

- Compact but very powerful ozone generator
- Excellent for removing bad odours, viruses and bacteria in cars and trucks
- Equipped with a timer, which, for safety reasons, automatically switches the appliance off after treatment
- Supplied with a 220 V plug and an adapter for a car's cigarette lighter
- Ozone production: 4 g/h
- Maximum coverage area: 90 m³
- Application time: 30 min - 3 h

105.100.120

OZOMATIC

- Powerful ozone generator that destroys odours once and for all
- Neutralises odours caused by tobacco, pets, food waste, urine, paint, meat, fish, fire, chlorine,...
- Destroys bacteria and viruses, and inhibits their growth
- Eliminates expensive labour, refills or chemicals
- In case of a high degree of pollution, such as with gasoline or urine, a longer treatment time is required
- Ozone production: 7 g/h
- Coverage: 700 m³

100.600.230

BIOZONE

- Powerful ozone generator with a more powerful fan (compared to the Ozomatic) that destroys odours once and for all
- Neutralises odours caused by tobacco, pets, food waste, urine, paint, meat, fish, fire, chlorine,...
- Destroys bacteria and viruses, and inhibits their growth
- Eliminates expensive labour, refills or chemicals
- In case of a high degree of pollution, such as with gasoline or urine, a longer treatment time is required
- With an hour counter so you can follow the life cycle of the corona tube, which is also easy to replace
- With a professional timer that can be set to minutes, hours and days
- Ozone production: 7 g/h
- Coverage: 700 m³

100.600.210

DISINFECTION MATS

15

DISINFECTION MATS

DISINFECTION MATS

- The disinfectant mats can be filled with any product that is suitable to protect against diseases or organisms that can be transmitted through footwear or vehicle wheels
- The mousse of the mats immediately absorbs the liquid
- When traffic passes over the mat, the treatment solution is passed onto the footwear or wheels, but with almost no leakage as might occur in a bath-type container
- The waterproof and chemically resistant covers ensure that the product does not leak out of the mat
- The mats are easily cleaned with water
- Suitable for use indoors and outdoors, at building entrances and exits or on vehicle approach routes
- Made of anti-slip material
- Resistant to all weather conditions and chemicals

DISINFECTION MATS WITH COVER

- 115.100.100 | 60 x 90 x 4 cm removable cover | 10 L
- 115.100.101 | 180 x 90 x 4 cm removable cover | 30 L

DISINFECTION MATS FOR VEHICLES

Drive over the mats with a maximum speed of 5 km/h, without stopping

115.400.350 | 110 cm x 380 cm x 5 cm cover with Velcro closing | 90 L per set of 2 pieces

Print the label of your disinfection mats starting from 100 pieces, more info on p. 92 - 94

DISINFECTION MATS

DISINFECTION MATS WITH ZIP

- The mat with zip can be easily removed from the cover for cleaning
- The 2 cm mats are ideal for disinfecting the wheels of trolleys, forklift trucks, roll containers, transport pallets and other means of transport

115.402.045		45 x 60 x 2 cm cover with zip		0.75 L
115.404.045		45 x 60 x 4 cm cover with zip		1.5 L
115.402.060		60 x 90 x 2 cm cover with zip		1.5 L
115.404.060		60 x 90 x 4 cm cover with zip		3 L
115.402.090		90 x 100 x 2 cm cover with zip		2.5 L"
115.404.090		90 x 100 x 4 cm cover with zip		5 L"
115.402.120		120 x 200 x 2 cm cover with zip		6 L
115.404.120		120 x 200 x 4 cm cover with zip		12 L
115.405.090		90 x 200 x 5 cm hoof mat cover with Velcro		12 L

Print the label of your disinfection mats starting from 100 pieces, more info on p. 92 - 94

WORKING LIGHTS

16

WORKING LIGHTS

RECHARGEABLE INTERIOR AND BONNET LIGHT

- An autonomous and rechargeable lamp that can be rotated 360°, without connection to electricity
- Provides a bright, uniform and intense light in 2 modes: one with 800 lumens and one with 1.250 lumens
- Ideal for illuminating dark or hard-to-light areas or places, such as under the bonnet and inside vehicles
- Thanks to the telescopic arms (from 93 - 113 mm) and the included magnets, it can be attached to surfaces of various sizes
- The lamp easily clips out of the rail and can be used for many mobile purposes
- Working time: 2 - 3 h
- Charging time: 3 - 4 h, with the supplied USB charger or additional cigarette lighter charger
- With lithium-ion battery
- With CE and RoHS certificates and protection class IP54

580.100.200 | 113 x 93 x 2.7 cm

RECHARGEABLE INSPECTION LIGHT LED 300 LUMEN – WHITE/UV

- A professional and rechargeable LED inspection and working light that rotates 180°
- With adjustable ABS casing and several fastening options: there are 3 powerful magnets on the back and bottom and suspension hooks
- Ideal for in a garage, workshop and hard-to-light areas or places
- With a flashlight on the side with a high intensity of 300 lumens
- With UV lamp on top, ideal for detecting coolant leaks and stains on seats and carpets
- Working time: 3 h with sidelight, 7 h non-stop with top UV lamp
- Charging time: 6 h with the supplied USB charger and additional cigarette lighter charger
- With lithium-ion battery
- With CE and RoHS certificates and protection class IP54

580.100.100 | 25.5 x 6 x 4.5 cm

PEN LIGHT

- A compact lamp, which provides a bright light from the side and the top and rotates 180°
- Equipped with an adjustable hanging clip with integrated magnet
- Easy to store in a toolbox, glove compartment or to carry with you
- Weather and shock-resistant
- Supplied with 3 AAA batteries
- With lithium-ion battery
- With CE and RoHS certificates and protection class IP54

580.100.300 | 17.5 x 2 x 3.5 cm

WORKING LIGHTS

WORKING LIGHT WITH TWO LED COB ROWS DIMMABLE (WHITE)

- A dimmable working light, with white LED COB light for a powerful, bright and uniform light
- Ideal for illuminating hard-to-reach areas or places thanks to its flat, narrow shape
- Power: 20 W COB LED (white)
- Light intensity: max 880 lumen (white)
- Ideal to illuminate a workshop or a hard-to-light room or place
- With 2 rows of white light, of which the intensity can be regulated in stages
- Working time: 6 h at reduced power and 3 h at maximum power
- Charging time: 3 h
- With lithium-ion battery
- With CE and RoHS certificates and protection class IP54

888.888.100 | white | 48 x 5 x 4 cm

WORKING LIGHT WITH TWO LED ROWS COB DIMMABLE (WHITE/YELLOW)

- A patented dimmable working light, with white and yellow LED COB light for a powerful, bright and uniform light. Ideal for illuminating hard-to-reach areas or places thanks to its flat, narrow shape
- Power: 20 W COB LED (white 10 W & yellow 10 W)
- Light intensity:
 - max 620 lumen (white)
 - max 600 lumen (yellow)
 - max 770 lumen (white + yellow)
- Ideal for high-quality painting, spraying and polishing work
- Many different light combinations are possible to detect colour differences, unevenness and small scratches on paintwork, and polishing imperfections will be detected quicker and easier compared to traditional lamps
- With 2 rows of light, of which the intensity can be adjusted in steps, and per individual row
- Both rows of light can shine together in different intensity graduations, and it's easy to switch between the 2 types of light
- Operating time: 6 h at reduced power and 3 h at maximum power
- Charging time: 3 h
- With lithium-ion battery
- With CE and RoHS certificates and protection class IP54

888.888.200 | white/yellow | 48 x 5 x 4 cm

WORKING LIGHT WITH TWO LED COB ROWS DIMMABLE (WHITE/UV)

- A dimmable working light, with white and UV LED COB light for a powerful, bright and uniform light
- Ideal for illuminating hard-to-reach areas or places thanks to its flat, narrow shape
- Power: 20 W COB LED (white 10 W & UV 10 W)
- Light intensity:
 - max 620 lumen (white)
 - max 5 lumen (UV)
- The white light is ideal for illuminating a workshop and dark room or place
- The UV light is ideal for detecting coolant leaks and stains on seats and carpets.
- With 2 rows of light, of which the intensity can be adjusted in steps, and per individual row.
- Both rows of light can shine together in different intensity graduations, and it's easy to switch between the 2 types of light
- Operating time: 6 h at reduced power and 3 h at maximum power
- Charging time: 3 h
- With lithium-ion battery
- With CE and RoHS certificates and protection class IP54

888.888.300 | white/UV | 48 x 5 x 4 cm

WORKING LIGHT WITH TWO LED COB ROWS DIMMABLE (WHITE/RED FLASH)

- A dimmable working light, with white and red LED COB light for a powerful, bright and uniform light
- Ideal for illuminating hard-to-reach areas or places thanks to its flat, narrow shape
- Power: 20 W COB LED (white 10 W & red 10 W)
- Light intensity:
 - max 620 lumen (white)
 - max 142 lumen (red)
- The white light is ideal for illuminating a workshop and dark room or place
- The red flashlight can be used as an attention grabber in emergencies.
- With 2 rows of light, of which the intensity can be adjusted in steps, and per individual row
- Both rows of light can shine together in different intensity graduations, and it's easy to switch between the 2 types of light
- Operating time: 6 h at reduced power and 3 h at maximum power
- Charging time: 3 h
- With lithium-ion battery
- With CE and RoHS certificates and protection class IP54

888.888.400 | white/red flash | 48 x 5 x 4 cm

PERSONALISATION

17

PERSONALISATION

Discover the different possibilities to personalise our products with your logo and information of your choice. A publicity opportunity for your customers, who come in contact with your products on a daily basis. A small investment that pays off immediately. Ask for our conditions via info@dewitte.com.

PRINTING

We are happy to print our bottles, microfibre cloths, gloves, and other products with your logo and details.

Microfibre scouring sponge and scouring cloth
1 colour from 1,000 pieces

Tricot Luxe:
1 colour from 1,000 pieces

Microfibre Rasta washing glove:
1 colour from 500 pieces

Top Silk:
1 colour from 1,000 pieces

Bottles: 1 or 2 colours from 560 pieces

Cleaning guns: 1 or 2 colours from 96 pieces

Spray-Matic 1 L: 1 or 2 colours from 96 pieces

Red Acid Sprayer: 1 or 2 colours from 96 pieces

Car brush polyester: 1 colour from 100 pieces

PERSONALISATION

LABELS

With our full-colour printing machine, we print professional-quality labels with your logo and details of your choice.

Water blades: from 96 pieces

Bucket Filter: from 100 pieces

Aluminium mop frame handles: from 100 pieces

PERSONALISED KITS

Compose your own kit of microfibre cloths. And we will package it in a plastic bag with a personalised 4-colour insert or label. Personalised kits are possible from 100 pieces upwards, depending on the composition of the kit.

WASHING LABELS

Personalise the washing label of our microfibre cloths with a label with 1 or more colours. Ask for the possibilities from 3,000 or 5,000 pieces.

PRODUCTS IN YOUR COLOUR

It is also possible to order products in your own colour, from 5,000 pieces for most microfibre cloths and tex spray triggers.
