WHO ARE WE?

De Witte is partner of the distributor for high-quality cleaning products. We import, assemble and print a large number of products for cleaning, dosing and disinfection. Our range includes microfibre cloths, sprayers, foamers, brushes and handles, disinfection and dosing systems. Are you a wholesaler in the hygiene, automotive, food or agricultural industry? Then we undoubtedly have what you are looking for.

De Witte is a thriving family business, founded in 1989 by Dirk De Witte. Over the years the company grew, as did its product range. For almost 35 years De Witte has been offering its customers and partners quality with a personal approach. And in 2015 the second generation joined the company with Wout. Today De Witte has over 20 employees and orders are shipped daily to over 40 countries.

WHAT DIFFERENTIATES DE WITTE?

Our goal is to help build a sustainable future for our customers. That is why we have launched many initiatives in recent years: from microfibres made from recycled PET bottles to alternative and environmentally friendly forms of packaging and microfibre cloths on rolls. More than ever, we believe in our role as innovator, point of contact and trendsetter in the cleaning industry.

6.000

PALLETS PERMANENTLY IN STOCK

Fast delivery is extremely important to us. We always have a large number of articles available: with more than 6,000 pallet spaces and permanently more than 1,000 products in stock. And our central location guarantees a smooth delivery to our customers in Europe and beyond.

- 615.450.105** | 38 x 38 cm | black
- 615.450.106** | 38 x 38 cm | uncoloured

Packed per 5 | 60 boxes

NEW

RECYCLED SOFT 83

- Made from 83% rPET (or recycled polyester) and 17% polyamide
- Has an identical cleaning power to that of a classic microfiber cloth, thanks to the polyamide
- Packaged in environmentally friendly, cardboard packaging
- Highly absorbent and has excellent cleaning qualities
- Suitable for all purposes
- 300 g/m²

- 615.450.831** | 38 x 38 cm | uncoloured with yellow edge
- 615.450.832** | 38 x 38 cm | uncoloured with green edge
- 615.450.833** | 38 x 38 cm | uncoloured with red edge
- 615.450.834** | 38 x 38 cm | uncoloured with blue edge
- 615.450.835** | 38 x 38 cm | uncoloured with black edge
- 615.450.836** | 38 x 38 cm | uncoloured with strips for colour coding

Packed per 5 | 60 boxes

LAPAL

- Made from 80% rPET (recycled polyester) and 20% polyamide
- Not dyed and therefore no environmental pollution was caused by the cloths' dyeing process
- Highly absorbent and has excellent cleaning qualities
- For dry, damp and wet use
- General purpose cloth that can be used everywhere
- 300 g/m²

- 950.000.100** | 40 x 40 cm | white

Packed per 5 | 32 boxes

OLYMPIC GOLD WAVE

- With wavy structure on one side and woven structure on the other
- The highly absorbent waves scoop up and retain water or dirt
- For fast and streak-free cleaning with a shiny finish
- Easy and effortless to wring out
- Premium glass cloth but also ideal for drying and removing grease stains
- 560 g/m²

- 620.100.001** | 36 x 36 cm | gold

Packed per 5 | 32 bags

NEW

598.100.002 | polypropylene fibres

Per set of 5

PENCIL BRUSH

- Ideal for cleaning parts and rims
- Made from stiff polyester fibre, suitable for both solvents and water-based products

599.100.100

Nanex uses revolutionary rubber polymer technology and is a high-quality alternative to clay products in car cleaning. The range effortlessly removes resin, wax residue, insects, stains and other contaminants from a car's paintwork, windows and plastic parts. The result is a mirror-smooth surface. Start cleaning by simply rinsing the absorbed dirt with water.

Features

- Lasts 4 times longer than clay products
- Fast and easy use saves time
- Soft-gliding for a smooth finish
- Easy to rinse with water if dropped on the floor
- Can be used 50 to 60 times

Instructions for use

- For cars that are parked outdoors or poorly maintained, use the medium quality cloth (yellow), for new or well-maintained cars the fine quality cloth (blue) is recommended
- Never use Nanex on a dirty car or a hot surface
- Wash car thoroughly and remove tar and grease
- Spray a professional lubricant on the surface
- Use the Nanex on glass for 1 min to remove the protective layer and soften the polymer
- Then gently rub the surface with a Nanex cloth, pad or glove
- Dry with a soft microfibre cloth

FLEXI BLADE

- The soft silicone perfectly adjusts to the contours of the vehicle
- Made of silicone to ensure streak-free and scratch-free cleaning
- For quick drying of vehicles after washing, ideal for plastic, bodywork and windows
- Also works perfectly on other surfaces such as mirrors, windows, showers, tiled walls,...

520.200.000

48 pieces

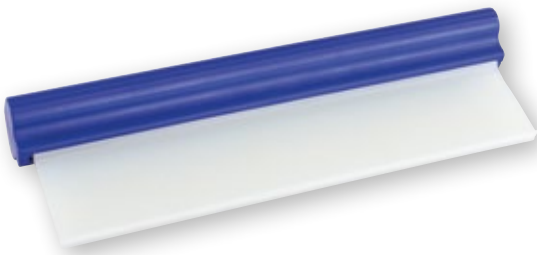

COLORADO DUO BLADE

- The soft silicone perfectly adjusts to the contours of the vehicle
- Go for the Duo Blade effect by drying with the soft silicone blade and using the microfibre side to wipe away remaining drops
- The high-quality microfibre can be easily detached for washing

302.300.100

48 pieces

WATER BLADE

- The soft silicone ensures streak-free and scratch-free cleaning and perfectly adjusts to the contours of the vehicle
- For quick drying of vehicles after washing, ideal for plastic, bodywork and windows
- Also works perfectly on surfaces such as: mirrors, windows, showers, tiled walls,...
- Works 3 times faster than a towel or a chamois

480.100.099

48 pieces

Fits our PRO and MI-PRO handles with ref. 600.100.0xx, see p. 28

SQUEEGEE - SCRUBBER

- The squeegee and washer are mounted on the same handle to be able to work extra fast
- Can be mounted on our handles

600.300.300 | squeegee with 30 cm scrubber

36 pieces

600.300.400 | squeegee with 40 cm scrubber

24 pieces

Fits our PRO and MI-PRO handles with ref. 600.100.0xx, see p. 28

CAR DUSTERS

- The special wax baked into the cotton fibres attracts dust and dirt like a powerful magnet and does not let go
- Guaranteed not to scratch even the most delicate surfaces
- Last for years
- No need to wash or treat with product, the dirtier they get, the better they work
- With its compact and practical shape you can easily access hard-to-reach areas
- The Car Dusters are perfectly suited to keep cars in showrooms dust-free
- The Mini Duster has the same properties but is mainly used to clean car dashboards, computers, TVs, furniture, blinds,...

BUCKET FILTER SETS

- The Bucket Filter is a plastic anti-debris grid that fits into the bottom of several buckets
- It acts as a filter for dirt and grit, which remain at the bottom of the bucket and are not swept up by a sponge, wash mitt or brush
- By rubbing your washing glove, cloth, sponge or brush against the Bucket Filter, dirt will sink to the bottom of the bucket
- The base plates act as baffles, reducing the chance of a whirlpool, which could bring dirt and sand up above the grid
- The Bucket Filter separates dirt from water in a simple but highly efficient manner
- Ideal for use in the automotive industry, garages, carwashes, showrooms, when cleaning vehicles while preventing sand and dirt from damaging paintwork

588.000.000 | set with bucket filter grate insert, white bucket 20 L and seal cover

588.000.002 | set with bucket filter grate insert, black bucket 20 L and seal cover

ABSORB-ALL CHAMOIS

- The Absorb-All is an ultra-absorbent synthetic chamois made from PVA, reinforced with a polyester fibre for extra strength and a long lifespan
- Its three-dimensional structure does not damage even the most delicate surfaces
- Easier to wring out than conventional cloths or natural chamois liners
- Dries perfectly without streaks, absorbs up to 5 times its weight in water and lint-free
- Excellent resistance to oils, greases and chemicals
- Lasts longer than natural chamois liners and other synthetic products
- Machine washable up to 70°C
- Ideal for cars, boats, windows, bathrooms,...

SPRAYERS

SAMOURAI

- Powerful electric sprayer that runs on a rechargeable lithium-ion battery
- The battery is compact and light, has a long lifespan and works up to 2 h nonstop
- With an integrated 30 L tank that is mounted on a wheeled axle
- Mobile: no water supply, electricity or air pressure needed
- Sprays up to 13 m far and 10 m high
- Areas of application:
 - Living areas: roofs, facades, terraces, anti-moss,...
 - Hygiene and food: kitchens, floors, toilet facilities,...
 - Gardens: flower beds, hedges, insecticides,...
 - Cars: bodywork, windows,...
- Nozzles cannot only be mounted on the lance but also directly on the gun
- Delivered with 3 different nozzles that are equipped with a quick coupling: a flat jet nozzle (green), a pin stream (red), an adjustable mist nozzle (white)

566.000.001 | with 1 battery

566.000.002 | with 2 batteries

E-FOAM

- Electric foamer for thick, adhesive foam at the push of a button
- Forget constant effort and manual pressurization
- With 1.8 L reservoir and useful measurement indicator
- Excellent resistance to a wide range of chemicals
- With 3 mm spray nozzle and spray angle of up to 110°
- Lock the control knob for continuous foam
- With integrated pressure relief valve
- With 7.2V lithium-ion battery
- Working time: 1 h
- Lights indicate the battery level

590.200.001

590.200.050 | with neutral bottle

RESIST FOAM

- Foamer with solid tank in polyethylene and chemically resistant seals
- Excellent resistance to aggressive and corrosive chemicals
- Produces a rich foam
- With standard nozzle and foam nozzle (CH6-6004)

CH2637EM | 7.6 L

SPRAY-MATIC 1.5 L FOAM

- Foamer with FKM or EPDM seals and 1.5 L reservoir
- To be used as a sprayer or as a foamer with foam nozzle
- By removing the foam nozzle, the device can be used as a sprayer
- The handle can be blocked for continuous spraying or placed in the safety position
- Foam nozzle included

901.300.100 | FKM | blue

901.300.200 | EPDM | grey

8 pieces

FOAM MASTER

- Foamer with integrated foam sponges for foaming surfaces of up to 1 m²
- Equipped with chemical-resistant seals
- With pressure relief valve of 3 bar
- With flat jet nozzle of 110°
- For better cleaning results due to thick and dry foam
- Ideal for cleaning vehicles and for use in the food industry

901.300.060 | 1.5 L | FKM

901.300.070 | 1.5 L | EPDM

8 pieces

ULTIMATE FOAMER

- Foamer with interchangeable nozzles for foaming surfaces of up to 10 m²
- For foaming larger surfaces without having to pump all the time, including 5 m spiral hose for a long reach
- Equipped with chemical-resistant seals
- With pressure relief valve of 3 bar and pressure regulator
- With flat jet nozzle of 110 °C
- With hand pump and air pressure inlet
- For better cleaning results due to thick and dry foam

229.100.000 | 8 L

FOAMERS

Compressed air foamers

FOAM BOOSTER 1 L

- Compressed air foamer with 1 L reservoir and operating pressure of 6 bar
- Produces extra thick foam even with low-foaming cleaning products
- For a professional result with a small investment
- Dilute the desired product before adding it to the 1 L tank

288.000.610 | 1 L

8 pieces

FOAM BOOSTER 3 L

- Compressed air foamer with 3 L reservoir and operating pressure of 6 bar
- Produces extra thick foam even with low-foaming cleaning products
- For a professional result with a small investment
- Dilute the desired product before adding it to the 3 L tank

288.000.630 | 3 L

6 pieces

FOAM BOOSTER 12 M

- Compressed air foamer with 12 m hose operating pressure of 6 bar
- Produces extra thick foam even with low-foaming cleaning products
- For a professional result with a small investment
- Dilute the desired product before aspiration with the hose

288.000.700 | with 12 m hose

4 pieces

FOAM-MATIC INOX

- Compressed air foamer with tank in stainless steel and trolley
- Produces a thick and rich foam that is long-lasting and enhances the product's effect
- Delivered with foam nozzle for foaming and spray nozzle for spraying
- Can be used as a foam and as a mist unit
- Not suitable for strong acids
- With stainless steel tank, trolley, mixing valve for air and product supply, safety valve, pressure regulator, quick coupling for compressed air connection, pressure gauge, level indicator and pressure relief valve
- With indication of the product level
- With 10 m PVC hose, 75 cm stainless steel lance for the 24 L model and 90 cm for the 50 and 100 L models
- Complies with the European directive 97/23/CEE

207.200.101 | 24 L

207.200.103 | 50 L

207.200.105 | 100 L

FOAM-MATIC IN PAINTED STEEL

- Have the same properties as the Foam-Matics in stainless steel, but have a painted steel tank

207.200.102 | 24 L

207.200.104 | 50 L

NEW

FOAM-BOY

- Foamer that automatically dilutes a product with water
- With 9-jet nozzle, rinsing nozzle and foam cap
- Easy to attach to a water hose, consumes no electricity
- For better cleaning and better penetration with thick and rich foam
- Choose the concentration level using the set of supplied measuring tips
- Ideal for the application of cleaning and disinfectant products

222.100.100 | 1.4 L

222.100.105 | 2.5 L

NEW

NITO FOAMER

- Ideal foamer for professional use
- Automatically dilutes a product with water
- With nickel-plated fittings and robust gun
- Easy to attach to a water hose, consumes no electricity
- Choose the concentration level using the set of supplied measuring tips
- Produces a thick and rich foam that penetrates for longer
- Ideal for intensively cleaning cars, showers or kitchens

235.000.100 | 1.4 L

235.000.110 | 2.5 L

FOAMERS

TURBO FOAM HP

- The foam gun Turbo Foam HP is directly connected to the gun or lance of a high-pressure cleaner
- The venturi effect ensures that the cleaning product is aspirated from the 1 L bottle
- Generates a powerful jet of dry foam that remains on the surface
- Ideal for cleaning cars, floors, machines, facades, terraces, greenhouses,...
- Quality materials guarantee a trouble-free long life and good resistance to chemicals
- With adjustable foam jet
- Maximum pressure: 160 bar
- Flow rate: 20 L/min
- Maximum temperature: 60 °C

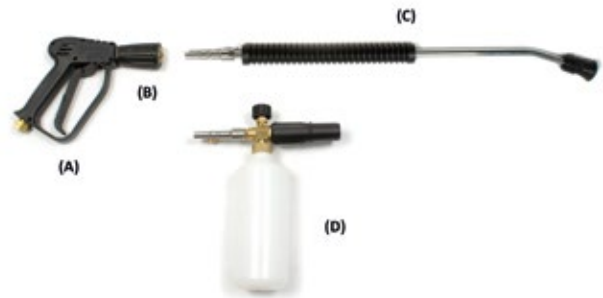

890.100.100 | with 1 L bottle

890.100.110 | with 1 L bottle and quick coupling KW ¼V

FLOOR CLEANING

Mop frames and handles

MOP FRAME DELUXE WITH UNIVERSAL CONNECTION

- For mops with velcro attachment
- Material: aluminium
- With universal connection that fits most handles
- With integrated cloth holders
- With integrated locking mechanism
- Extra solid construction

480.200.226 | 25 cm

480.200.229 | 40 cm

480.200.231 | 55 cm

20 pieces

These mop frames fit the mops on p. 59 - 60

MOP FRAME MEDIKO WITH UNIVERSAL CONNECTION

- For mops with velcro attachment
- Material: aluminium
- With universal connection that fits most handles
- With velcro strips that can slide out of the aluminium plate, replacement kit with 2 velcro strips available (480.200.248)
- With an integrated locking mechanism
- Ultra-thin plate

480.200.238 | 40 cm | blue

480.200.239 | 40 cm | green

480.400.305 | 2 x 0.9 m | green

20 pieces

TELESCOPIC ALUMINIUM HANDLE WITH ROTATING BALL GRIP

- The ball grip is ergonomic, made of non-slip material, rotates and reduces pressure on the wrist
- Solid construction
- Fits all mop frames and the Rakleto system (130.100.100)
- Suitable for all users

481.100.800 | 2 x 0.8 m

10 pieces

WAVE PAD

- For mop frames with velcro strips
- With wavy structure on one side and woven structure on the other
- The highly absorbent waves scoop up and retain dirt
- Cleans streak-free and fast and leaves a glossy finish
- Flexible and effortless to wring out
- Ideal for cleaning windows, stairs, toilets or other small areas

620.110.000 | 25 x 14 cm | gold

Packed per 5 | 40 bags

Fits the aluminium mop frame deluxe 25 cm (480.200.226)

MICROFIBRE MOP WHITE WITH COLOUR CODING

- For mop frames with velcro strips
- Excellent for dry and damp mopping
- The softness of the fibres gives optimal results on all floors, particularly on parquet, laminate, marble and wood
- Equipped with 4 cut-off ribbons for colour coding
- Long lifespan

601.500.001 | 44 x 13 cm

601.500.003 | 60 x 13 cm

100 pieces

MICROFIBRE MOP BLUE WITH COLOUR CODING

- For mop frames with velcro strips
- Excellent for dry and damp mopping
- The softness of the fibres gives optimal results on all floors, particularly on parquet, laminate, marble and wood
- Equipped with 6 cut-off ribbons for colour coding
- Long lifespan

601.500.002 | 44 x 13 cm

601.500.004 | 60 x 13 cm

100 pieces

MICROFIBRE MOP PC

- For mop frames with velcro strips
- Extra resistant to chemical products
- Excellent for dry cleaning
- The absorbent fibres work great on tile floors, linoleum, parquet, marble and wood

601.500.010 | 44 x 13 cm

200 pieces

MOP WITH SCOURING STRIPS

- For mop frames with velcro strips
- Excellent for dry and damp mopping
- With strips containing an abrasive ingredient for deep and thorough cleaning
- The absorbent fibres work great on tile floors, linoleum, parquet, marble and wood
- Long lifespan

615.540.540 | 44 x 13 cm

200 pieces

These mops fit the mop frames on p. 58

RASTA MOP WITH VELCRO

- For mop frames with velco strips
- The microfibre fringes ensure excellent cleaning, both wet and dry

460.200.200 | 44 x 13 cm | blue

460.200.202 | 44 x 13 cm | violet

50 pieces

BJ-ONE

- To be used with a mop frame with velcro, a double-sided velcro pad, a ZAPA+ (123.500.5x0) or classic handle with reservoir
- Absorbent non-woven mop for single use
- Ideal for cleaning and disinfecting floors
- Does not fluff or tear thanks to its double texture: with a side to attach to the velcro of the mop and a waffled side to work quickly and efficiently

603.100.200 | bobbin 200 sheets | 20 x 44 cm

603.100.300 | bobbin 150 sheets | 20 x 60 cm

603.200.100 | bag with 50 mops | 12 x 44 cm

603.100.100 | bobbin 200 sheets | 12 x 44 cm

DOUBLE-SIDED VELCRO PAD

- For mop frames with velco strips
- To be used in combination with the BJ-ONE range

603.300.000 | 40 cm

330 pieces

MOPS FOR SHORT USE

- For mop frames with velco strips, can be easily attached
- For efficient cleaning
- Works dry and with water or cleaning and disinfecting product
- The Presto model (615.530.001) has 2 flaps that fit into the attachment holes of mop frames
- Washable up to 5 times at 90°C or for single use

615.530.001 | Presto | 46 x 18 cm

615.530.002 | Rapido | 46 x 11 cm

615.530.110 | Recycled Rapido | 46 x 12 cm

500 pieces

RAKLETO

- The Rakleto system consists of:
 1. A 2 x 0.9 m or 3 x 0.6 m telescopic handle or a 1.4 m aluminium handle
 2. Microfibre Rakleto mop 55 x 27 cm (615.400.00x) with very high absorption capacity
 3. A Rakleto squeegee (130.100.100): to easily remove all kinds of dirt from floors

FLOOR CLEANING

HANDLE ZAPA+ WITH RESERVOIR

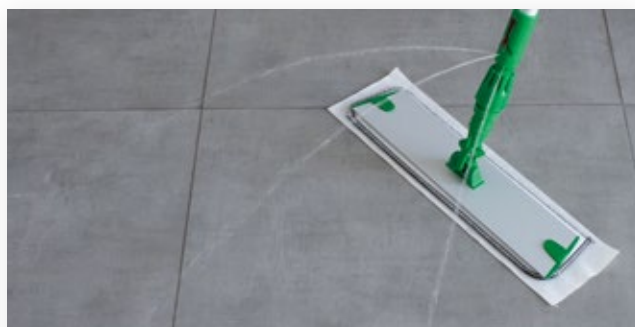

- The ZAPA+ is a handle with a reservoir that is easily filled with water or cleaning product
- With a simple push on the handle's button, the ZAPA+ sprays liquid onto the floor
- Content reservoir: 500 ml
- Length: 145 cm

123.500.500 | blue

123.500.550 | green

20 pieces

Mop systems with reservoir

THE ZAPA+ HANDLE FITS ALL OF OUR ALUMINIUM MOP FRAMES AND CAN BE COMBINED WITH

- BJ-One-mops for single use: to quickly clean small and medium-sized areas. Avoid the washing costs of textiles and prevent the risk of cross-contamination.
- Our microfibre mops or Rapido and Presto mops for short-term use and traditional mop cleaning.
- Comprimex wondermops for removing stains and stubborn dirt.

MEASURING CUP

- With this measuring cup, you can easily fill the ZAPA+ handles
- Avoid water spillage thanks to the pointed and convenient spout
- Dose accurately thanks to the indicated graduations
- Content: 1 L

480.200.278

144 pieces

TURBO MOP PRO

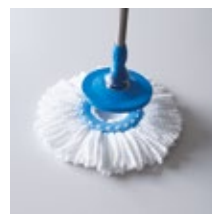

- The Turbo Mop range is a system with a bucket and an integrated rinsing and spinning system. When in use, give the handle a quick click between rinsing and spinning. Click it straight again to rinse.
- The microfibre fringes attract dirt like a magnet and clean deep into the pores of the surface
- Activate the rinsing and spinning system via pressure with the handle or the pedal
- With dual function
 1. Rinse function in the bucket to wash the mop
 2. Spin function in the stainless steel basket to dry the mop
- With basket in durable and hygienic stainless steel
- Delivered in attractive packaging with 2 microfibre mops and a 140 cm handle

NEW

RED BALL

- Cleaning gun that works with Ball Technology, instead of a rotating metal tube
- With 2-year warranty due to extra-long lifespan: less wear as the internal hose does not rotate
- Operates starting from 4 bar
- Ultra-reliable and high-tech motor
- Equipped with 360° multi-directional air inlet and pressure regulator on the handle

888.000.820

8 pieces

NEW

EXTRACTOR FOR RED BALL

- To be mounted on the Red Ball and connected to the hose of a (water) vacuum cleaner via one of the supplied adapters
- Creates an injection of product under high pressure (compressed air) that immediately releases dirt, and at the same time the dust or water vacuum sucks the dirt solution away
- The result is a perfectly clean and fast-drying surface
- Ideal for deep-cleaning carpets and upholstery
- For safe operation: do not inhale any product mist
- For better results than with injection or extraction machines

888.000.327

20 pieces

BALL BOOSTER

- The Ball Booster is a revolutionary cleaning gun that works with Ball Technology, instead of a rotating metal tube
- Operates starting from 4 bar
- Ultra-reliable and high-tech motor
- Equipped with 360° multi-directional air inlet and pressure regulator on the handle

CLASSIC BOOSTER²

- Cleaning gun of the first generation that operates using a plastic rotating tube
- Equipped with 360° multi-directional air inlet and pressure regulator on the handle

888.000.100

8 pieces

FUNNELS FOR THE CLASSIC BOOSTER²

244.500.900 | funnel with small brush

244.500.101 | funnel in stainless steel

AERO GUN

- Air blowgun that, like a tornado, sprays swirling air without any product
- Equipped with 360° multi-directional air inlet and pressure regulator on the handle

288.100.640

 20 pieces

AERO GUN BLACK

- Air blowgun that, like a tornado, sprays swirling air without any product
- Ultra-reliable and high-tech motor
- Equipped with 360° multi-directional air inlet and pressure regulator on the handle
- Easily removable brush

888.000.390

 20 pieces

POWER GUN

- Air blowgun with an airflow that is 5 times more powerful than a classic pistol
- Highly suitable for powerful blow cleaning and fast drying of all kinds of surfaces
- Equipped with 360° multi-directional air inlet and pressure regulator on the handle

888.000.395

 20 pieces

POWERJET

- Air blowgun with a strong, focused flat jet, ideal for cleaning or drying hard-to-reach areas
- Has a lower noise level (5 dB) than traditional air blowguns (8 dB)
- Significantly reduces air consumption by optimising the use of compressed air

888.000.500

 20 pieces

ASPIRO GUN

- The Aspiro Gun is connected to compressed air and a vacuum hose
- The dirt is detached by the compressed air, and at the same time sucked up by the vacuum cleaner

888.000.393

10 pieces

WAX & COATING GUN

- Gun with 4 bar operating pressure that works with a bullet ball instead of a metal tube
- The amount of sprayed product can be regulated with the valve on top of the gun
- Ideal for spraying fine coatings, waxes and leather balm
- Very efficient to remove dirt, dust, grease residue,... on places that are difficult to reach, such as:
 - The inside of vehicles, motorbikes and boats
 - Ventilation shafts and vents
 - Dashboards
 - Carpets: textile and plastic
 - Between car seats
 - Around the gear lever
 - Under the bonnet and around door hinges
 - In the glove compartment and small storage compartments
 - Rims

888.000.400

10 pieces

AERO GUN DOUBLE ACTION

- Connects to compressed air and to a vacuum hose
- Dirt is detached by the compressed air, and at the same time sucked up by the vacuum cleaner
- Areas of application:
 - Car: seat covers, carpets (textile and plastic), rear shelves, but can also be used to clean the interior of the vehicle and plastic parts
 - Car body repair shops
 - Bodywork shops
 - Sheet metal repairers
 - Car rental companies
 - Taxis, camping cars
 - For patient transport, ambulances, parcel services,...

10 pieces

288.100.610 | with plastic rotating hose

288.100.620 | with Ball Technology

PORTADOZ

- Portable dilution system mounted directly onto a reservoir with liquid chemical concentrate and on the water network with a universal connection
- Always dilutes the product correctly
- Economical, reliable and made of high-quality materials
- Can be easily mounted on any type of reservoir
- Has the perfect small size for cleaning trolleys
- The reusable dispenser is recommended for diluting bottles or buckets
- With an integrated non-return valve
- Does not have to be attached to a wall
- You can use the Portadoz with different screw lids by using the lock nut and the washer

- 550.100.100** | for bottles | blue
- 550.100.110** | for bottles | red
- 550.100.120** | for bottles | yellow
- 550.100.130** | for bottles | green
- 550.100.140** | for bottles | grey
- 550.200.100** | for buckets and scrubbing machines | blue
- 550.200.110** | for buckets and scrubbing machines | red
- 550.200.120** | for buckets and scrubbing machines | yellow
- 550.200.130** | for buckets and scrubbing machines | green
- 550.200.140** | for buckets and scrubbing machines | grey

QUICK FILL TOWER FOR SCRUBBING MACHINES

- Automatically mixes chemical concentrates with water
- Safer to use as the user does not come in contact with the chemical product
- The 200 L tank deflates in 90 sec
- There is no need for electricity or air pressure

550.300.100 | with 200 L reservoir

550.300.105 | with 300 L reservoir

VENTURI-INJECTOR

- Easy to connect to a water supply, there is no need for electricity
- Automatically dilutes a product concentrate with water
- The correct dilution is set by using the coloured measuring tips between 1 and 43.6%
- 3 positions:
 1. Dosing function: for water and a product
 2. Rinsing function: only water
 3. Self-cleaning function: the Venturi cleans itself
- Inlet and outlet ¾" M

400.000.900

DOSAPUMP

- Easy and practical solution to manually dose all kinds of products
- Easily attached to a wall
- Push the large button with the palm of your hand for a dose of product
- Three possible dosing settings: 15, 22 and 30 cc
- Shock-resistant housing
- Chlorine-resistant
- Perfect aspiration of viscous products
- Suitable for hotels, restaurants, schools and kitchens
- Ideal for filling sinks, bottles and buckets

205.200.110 | with swivelling anti-drip tube

205.200.100 | with PVC hose

DOSING CAPS

- With the dosing caps you can easily separate an exact quantity of liquid from a bottle
- Are screwed onto a bottle, and by squeezing the bottle with one hand the dosage cap is filled with solution
- A scale enables you to monitor the dosage and squeeze further until the desired dosage is reached
- With a tear-off guarantee strip on the cap that keeps the dosage tube sealed until the first use
- Available in HACCP colours
- Drainable and perfectly resealable
- With integrated anti-splash protection

750.100.010 | transparent

750.100.020 | blue

750.100.030 | red

750.100.040 | yellow

750.100.050 | green

📦 400 pieces

📄 These dosing caps fit our 600 and 1,000 ml bottles on p. 50

FILLING TAPS

- The innovative dispensing taps let you transfer liquids fast, with a constant stream and without bubbling
- The series is designed to support the dosing of large amounts of liquids within a short period
- Suitable for various containers, bottles, jerry cans, barrels and IBCs with an external thread varying from DIN 40 to DIN 61, as well as plastic and steel drums with a ¾ internal thread
- Meet food safety standards

740.113.040 | 13/40 for DIN40 thread | 📦 750 pieces

740.123.045 | 23/45 for DIN45 thread | 📦 350 pieces

740.123.051 | 23/51 for DIN51 thread | 📦 350 pieces

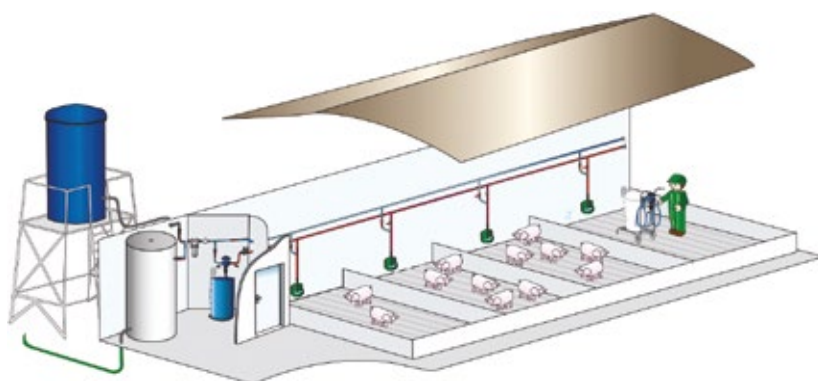

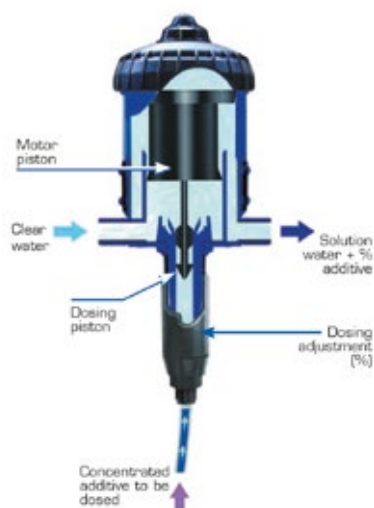

740.123.061 | 23/61 for DIN61 thread | 📦 200 pieces

740.123.134 | 23/3/4" on 2" Mauser-Rough | 📦 175 pieces

740.123.234 | 23/3/4" on 2" Trisure | 📦 175 pieces

FOR ACCURATE DOSING WITHOUT ELECTRICITY

Installed directly in the water supply line, Dosatron pumps operate without electricity, using water pressure as its sole power source. On its way through, the water activates the plunger, which takes up the required percentage of concentrate. Inside the pump, the concentrate is mixed with water. The water pressure forces the solution downstream. Once set, the pump requires no further attention. The dose of concentrate will always be strictly proportional to the volume of water entering the pump, whatever variations in flow or pressure may occur in the main line.

DOSATRON COMPACT 0,7 M³/H

- Water flow range: 5 L- 0.7 m³/h
- Operating pressure: 0.3- 6 bar
- Maximum water temperature: 40°C
- Connections inlet and outlet: ¼" M
- Supplied with wall mount, suction hose and suction filter
- Extra option: PVDF body

D07RE125 | 0.15 to 1.25 %

D07RE5 | 0.8 to 5.5 %

DOSATRON DIA 4 AL

- Water flow range: 4.5 L/h- 2.5 m³/h
- Operating pressure: 0.15- 5.5 bar
- Maximum water temperature: 40°C
- Connections inlet and outlet: ¾" M
- Supplied with wall mount, suction hose and suction filter

DIA 4 AL | 1 to 4 %

DOSATRON D25 RANGE 2.5 M³/H

- Water flow range: 10 L- 2.5 m³/h
- Operating pressure: 0.3- 6 bar
- Maximum water temperature: 40°C
- Connections inlet and outlet: ¾" M
- Supplied with wall mount, suction hose and suction filter
- Extra options: IE (external product injection) and PVDF body

D25RE1500 | 0.07 to 0.2 %

D25RE2 | 0.2 to 2 %

D25RE5 | 1 to 5 %

D25RE10 | 3 to 10 %

DOSATRON RANGE 3 M³/H

- Water flow range: 10 L- 3 m³/h
- Operating pressure: 0.3- 6 bar
- Maximum water temperature: 40°C
- Connections inlet and outlet: ¾" M
- Supplied with wall mount, suction hose and suction filter
- Extra option: PVDF body

D3RE3000 | 0.03 to 0.3 %

D3RE2 | 0.2 to 2 %

D3RE5 | 0.5 to 5 %

D3RE10 | 1 to 10 %

D3RE25-IE | 5 to 25 % (max. 4 bar)

NEW

DOSATRON D3TRE FOR HIGH TEMPERATURES

- For accurate dosing of liquids with a temperature of up to 70°C
- Water flow range: 100 L- 3 m³/h
- Operating pressure: 0.3- 6 bar
- Maximum water temperature: 70°C
- Connections inlet and outlet: ¾" M
- Supplied with wall mount, suction hose and suction filter
- Supplied with PVDF housing

D3TRE5 | 0.03 to 0.3 %

D3TRE10 | 0.5 to 5 %

D3TRE3000 | 0.1 to 10 %

DOSATRON RANGE 4.5 M³/H

- Water flow range: 100 L- 4.5 m³/h
- Operating pressure: 0.5- 5 bar
- Maximum water temperature: 40°C
- Connections inlet and outlet: 1 ¼" M
- Supplied with wall mount, suction hose and suction filter
- Extra options: IE (external product injection) and PVDF body

D45RE3000 | 0.03 to 0.1 %

D45RE15 | 0.2 to 1.5 %

D45RE3 | 0.5 to 3 %

D45RE8 | 3 to 8 %

DOSATRON RANGE 20 M³/H

- Water flow range: 1 m³- 20 m³/h
- Operating pressure: 0.12- 10 bar
- Maximum water temperature: 40°C
- Connections inlet and outlet: 2" M Ø 50 x 60 mm
- Supplied with wall mount, suction hose and suction filter

D20WL2 | 0.2 to 2 %

EXTRA OPTION: PVDF PUMP BODY

- The PVDF pump bodies are resistant to aggressive and corrosive products
- Available for the ranges 0.7, 2.5, 3 and 4.5 m³/h

EXTRA OPTION: EXTERNAL PRODUCT INJECTION

- External product injection (IE) ensures that the product does not pass the pump body
- Available for the ranges 2.5 and 4.5 m³/h

DOSATRON RANGE 8 M³/H

- Water flow range: 500 L- 8 m³/h
- Operating pressure: 0.15- 8 bar
- Maximum water temperature: 40°C
- Connections inlet and outlet: 1 ½" M
- Supplied with wall mount, suction hose and suction filter

D8RE2 | 0.2 to 2 %

D8RE5 | 1 to 5 %

ACCESSORY: HOSE WITH COUPLINGS FOR FOOD INDUSTRY

- Longer or shorter hose available on demand
- Stainless steel lance in 600, 750 or 900 mm
- Fits the following ranges: Compact, 2.5m³/h and 3m³/h

801.004.300

ACCESSORY: 20 M HOSE WITH LANCE IN STAINLESS STEEL + COUPLINGS

- Composed of 4 layers that are suitable for use in the food industry
- The outer layer does not leave streaks and is grease-resistant
- Suitable for both water and cleaning products
- Maximum pressure: 20 bar
- Maximum temperature: 70°C
- Including couplings
- Entry ¾" V for connection to the water supply or Dosatron ranges Compact, 2.5 m³/h and 3 m³/h
- Exit: coupling 801.600.201
- Can be attached to our shock-resistant guns

801.600.085 | 15 m

801.600.100 | 20 m

801.600.102 | 25 m

HYGIENE UNITS

- Work with water pressure, there is no need for electricity or compressed air
- With hose and shock-resistant gun
- With CA non-return valve, ACSE approved
- Are connected to a water supply and automatically dilute one or two cleaning or disinfecting products with water
- Ideal for cleaning and disinfecting floors, machines and other surfaces
- Applicable in a HACCP system
- With robust shock-resistant housing
- With hose that is suitable for use in the food sector, swimming pools and saunas and is resistant up to 70°C
- Made out of 4 layers, the outer one does not form streaks and is grease-resistant
- With shock-resistant gun with adjustable nozzle
- The gun has a low weight for more comfort and is more ergonomic compared to conventional guns
- The correct dilution is set using a set of coloured measuring tips
- 16 different dilutions can be set between 0.5 and 11%
- With coupling between gun and hose
- Operating pressure between 1.5 and 6 bar
- 2 functions: dosing function and rinsing function
- 2 models: for 1 product and 2 products
- Comes with stainless steel barrel support(s)

HYGIENE UNIT 1 PRODUCT

- With hose and shock-resistant gun
- 801.001.120** | with 10 m hose
801.001.220 | with 15 m hose
801.001.420 | with 25 m hose

HYGIENE UNIT 2 PRODUCTS

- With hose and shock-resistant gun
- 801.001.620** | with 10 m hose
801.001.720 | with 15 m hose
801.001.920 | with 25 m hose

HYGIENE UNIT 1 PRODUCT WITH AUTOMATIC REEL IN STAINLESS STEEL

- With hose and shock-resistant gun, mounted on a premium reel in stainless steel
- 801.001.121** | with 10 m hose
801.001.221 | with 15 m hose
801.001.321 | with 20 m hose

HYGIENE UNIT 2 PRODUCTS WITH AUTOMATIC REEL IN STAINLESS STEEL

- With hose and shock-resistant gun, mounted on a premium reel in stainless steel
- 801.001.621** | with 10 m hose
801.001.721 | with 15 m hose
801.001.921 | with 20 m hose

HYGIENE UNIT 1 PRODUCT WITH AUTOMATIC REEL IN PVC

- With hose and shock-resistant gun, mounted on a PVC reel
- 801.001.224** | with 15 m hose

HYGIENE UNIT 2 PRODUCTS WITH AUTOMATIC REEL IN PVC

- With hose and shock-resistant gun, mounted on a PVC reel
- 801.001.724** | with 15 m hose

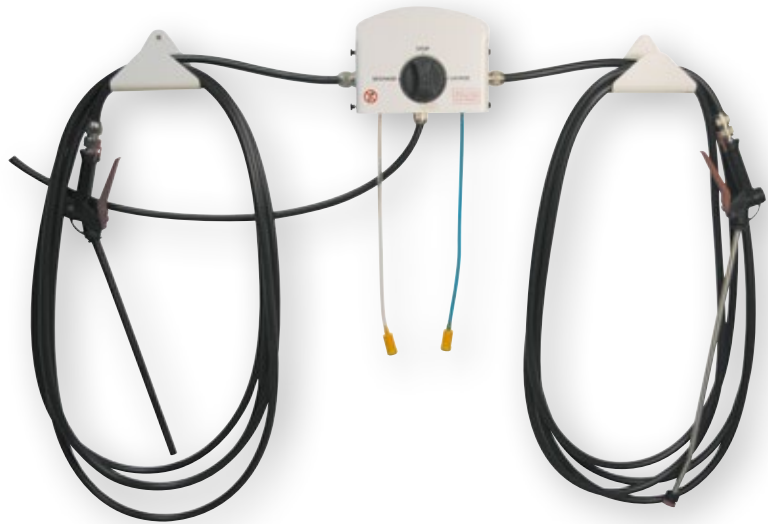

COUPLING

Connect our handles and brushes to the hygiene units with coupling **801.600.199**

801.600.199

SPRAYING UNITS

- Work with water pressure, no need for electricity or compressed air
- Are connected to a water supply and automatically dilute one or two cleaning or disinfecting products with water
- Ideal to spray cars, trucks and other vehicles with a cleaning product
- Equipped with a flat jet nozzle
- The correct dilution is set by using the coloured measuring tips
- 16 different dilutions can be set between 0.5% and 12%
- With coupling between gun and hose
- Operating pressure: between 2 and 6 bar

SPRAYING UNIT 2 PRODUCTS

- Specifically designed to spray 2 products with the same unit
- A cleaning product should be sprayed with the lance in stainless steel and the rinsing and drying product should be sprayed with the lance in PVC
- With hose, lance in stainless steel and lance in PVC

801.015.910 | with 2 x 15 m hose, 60 cm lance in stainless steel and 45 cm lance in PVC and double non-return valve

801.015.920 | with 2 x 25 m hose, 60 cm lance in stainless steel and 45 cm lance in PVC and double non-return valve

SPRAYING UNIT 1 PRODUCT

- Specifically designed for spraying cleaning products and shampoos
- With hose and lance in stainless steel

801.000.100 | with 10 m hose, 60 cm lance in stainless steel and double non-return valve

801.000.200 | with 15 m hose, 60 cm lance in stainless steel and double non-return valve

801.000.300 | with 25 m hose, 90 cm lance in stainless steel and double non-return valve

801.000.120 | with 10 m hose and a 60 cm lance in stainless steel and CA non-return valve | ACSE approved

801.000.220 | with 15 m hose, 60 cm lance in stainless steel and CA non-return valve | ACSE approved

801.000.320 | with 25 m hose, 90 cm lance in stainless steel and CA non-return valve | ACSE approved

ACID SPRAYING UNIT 1 PRODUCT

- Specifically developed to spray acids e.g. rim cleaners and descalers
- With Venturi in PVDF, spring in Hastelloy
- With hose and lance in PVC

801.015.700 | with 15 m hose, 60 cm lance in PVC and double non-return valve

801.015.704 | with 25 m hose, 60 cm lance in PVC and double non-return valve

COUPLING

Connect our handles and brushes to the hygiene units with coupling 801.600.199

801.600.199

PROMAX

- Automatically dilutes a product concentrate with water
- Quickly fill spray bottles and other reservoirs with ready-made products by pushing the button or lever
- Models with a water flow of 4 L/min are perfect to dilute bottles and sprayers, to dilute buckets and sinks use the 14 L/min models and to dilute scrubbing machines use the 30 L/min models
- The correct dilution is set by using the coloured measuring tips between 0.3 % and 30 %
- The dilution cannot be changed to avoid waste
- Easy to connect in series
- Easy to connect to a water supply line
- There is no need for electricity
- Temperature: up to 40°C
- Operating pressure: 1 to 9 bar

- 801.004.118** | for 1 product | 4 L/min | with lever | to fill (spray) bottles
- 801.004.120** | for 1 product | 4 L/min | with button | to fill (spray) bottles
- 801.004.124** | for 1 product | 14 L/min | with button | to fill buckets and sinks
- 801.004.126** | for 1 product | 30 L/min | with button | to fill scrubbing machines
- 801.004.130** | for 4 products | 4 L/min | with lever | to fill (spray) bottles
- 801.004.131** | for 4 products | 4 L/min | with button | to fill (spray) bottles
- 801.004.133** | for 4 products | 14 L/min | with button | to fill buckets and sinks
- 801.004.134** | for 4 products | 30 L/min | with button | to fill scrubbing machines

LOCKABLE CABINET

- To lock products in a safe way
 - Suitable for 1 barrel of 5 L or 2 barrels of 2 L
 - Dimensions: H 364.5 mm x W 226 mm x D 175 mm
- 801.004.160**

DILUTION UNIT FOR 4 PRODUCTS

- Choose the dilution flow for each of the 4 products: either 7 L/ min or 14L/min
 - You can store 4 bottles of 5 L in the lockable cabinet
 - The correct dilution is set by using the coloured measuring tips between 0.3 % and 14 %
 - Also available for 3 products
- 550.400.10x** | Flow rate per product to be chosen

HOSE RACK

- In stainless steel
- Capacity: 25 m

801.500.525

BARREL RACK

- In stainless steel

801.500.600 | for 5 L barrel

801.500.800 | for 10 L barrel

801.500.900 | for 20 L or 30 L barrel

CHARIOT

- In stainless steel
- Ideal for our hygiene units, see p. 78
- Free fixation of unit to chariot

550.500.100

WATER FILTERS

- Fine filtration up to 80 micron
- The nylon cartridge can be cleaned and reused

411.200.300 | in- and outlet 3/4" feminine

411.200.400 | in- and outlet 1 1/4" feminine

SHOCK-RESISTANT GUN

- The perfect low-pressure gun for industrial and food-related cleaning
- Adjustable from a fine spray to a jet
- Robust but lightweight design ensures more comfort compared with traditional guns
- Inlet coupling 1/2 V, shaft and spring in stainless steel
- Delivered with quick coupling 801.600.200
- Maximum pressure: Blue model: 12 bar
- White model: 24 bar
- Maximum temperature: Blue model: 50°C
- White model: 80°C

801.004.100 | shock-resistant gun including quick coupling | blue

801.004.104 | shock-resistant gun including quick coupling | white

QUICK COUPLINGS

- Fits the shock-resistant guns, the spray lances in stainless steel and the high resistance spray lances

801.600.200 | 1/2"

801.600.201 | 12 mm x 1/2"

SPRAY LANCE IN STAINLESS STEEL

- Fits our spraying units, see p. 79

801.600.480 | 2 x 1 m

COUPLINGS

- Fit the spray lances in stainless steel (801.600.xx0)

801.600.200 | 1/2"

110.100.101 | 8 mm x 1/2"

110.100.110 | 10 mm x 1/2"

110.100.102 | 12 mm x 1/2"

BACKFLOW PREVENTER 3/4 M X BA

- Prevents a backflow of product in the water supply

801.500.498

SYPHON PUMPS

NEW

DOUBLE ACTION

- Manual dispensing system for pumping liquids from bottles, water bottles, drums or containers
- With patented double action technology: pumps on both the up and down stroke for a continuous flow and less labour during pumping
- Excellent chemical resistance thanks to the polypropylene and LDPE construction
- The supplied adapter connectors are waterproof and do not leak
- With anti-pump safety system
- Delivered with a white safety strap

860.100.100 | double action drum pump 25/5 | for 25 L barrels | 20 pieces

860.100.200 | double action drum pump 60/15 | for 50 L barrels | 15 pieces

860.100.300 | double action drum pump 200/55 | for 20 L barrels | 10 pieces

860.100.400 | double action drum pump 1000/220 | for 1,000 L containers | 10 pieces

NEW

SAFETY KIT FOR DOUBLE ACTION

- To be connected to Double Action pumps to safely transfer liquids to a bottle
- Suitable for liquid food products
- Made of HD polyethylene (HDPE)

860.200.001 | safety kit

SAFETY STRAPS FOR DOUBLE ACTION

- Safety strap to distinguish different liquids
- Reduce the risk of errors

860.200.005 | red safety strap

860.200.006 | green safety strap

860.200.007 | blue safety strap

860.200.008 | yellow safety strap

POLYETHYLENE SYPHON PUMP

- Syphon pump for 200 L barrels
- High-quality pump in polyethylene at a very competitive price
- Has good resistance to chemicals

802.100.100

32 pieces

POLYETHYLENE SYPHON PUMP SMALL MODEL

- Syphon pump for 5, 10, 25 and 30 L bottles

802.100.105

100 pieces

POLYPROPYLENE DRUM PUMP

- Syphon pump for barrels from 25 to 200 L in polypropylene and stainless steel 316
- With telescopic tube and extension
- For water, alcohol, diesel, lubricants, acids and alkalis

802.100.200

10 pieces

DOSING PUMP 20 ML AND 30 ML

- Dosing pump made of polyethylene
- Guarantees an exact dosage of the used products
- Supplied with cap DIN 38/400, which fits the majority of 5 and 10 L water bottles
- Output per pump stroke: 20 ml or 30 ml
- Dosing pumps and adapters 40/40 and 42/410 available separately

605.700.020 | set of dosing pump 20 ml (38/400) with adaptors 40/410 and 42/410

605.700.030 | set of dosing pump 30 ml (38/400) with adaptors 40/410 and 42/410

605.700.102 | dosing pump 20 ml | 38/400

605.700.103 | dosing pump 30 ml | 38/400

605.700.140 | adaptor 40/410

605.700.142 | adaptor 42/410

ADAPTER SYPHON PUMP

- Adapter to mount syphon pumps on barrels
 - Fits on our syphon pumps in polyethylene and polypropylene
- 121.400.410** | yellow | for 25, 30 and 60 L barrels | DIN61 → 2" NPS/BSP
- 121.400.420** | blue | for 200 L barrels | 2" Mauser → 2" NPS/BS
- 121.400.400** | orange | for 200 L barrels | 56 x 4 → 2" NPS/BSP

FOGGERS

BATTERY FOGGER ULV2

- Fully autonomous electric fogger powered by a powerful lithium-ion battery
- The core of the sprayer is a specially designed anion generator that continuously produces a high concentration of negatively charged anions
- In combination with a disinfectant, this fogger effectively destroys viruses and bacteria
- With 1.8 L reservoir
- Working time: 35 min, extra battery available (440.100.201)
- Maximum range: 5 m

440.100.100

8 pieces

BLACK NEON FOGGER

- Fully autonomous electric fogger with a last generation lithium-ion battery
- With ultra-fine nano nozzle that can be adjusted from dry (where surfaces are immediately dry) to wet fog
- Neon LED lights visualise the spray mist
- With suction filter in plastic for better chemical resistance
- Made of light material with ergonomic handle
- Working time: 70 min

170.000.100

FOGGER DRY BLUE

- Fogger for spraying insecticides, disinfectants and deodorising products
- Equipped with turbine nozzle for an ultra-fine atomization
- Cover an area of 4,000 m² with 4 L of product
- Works with oil or water-based products
- Suitable for indoor and outdoor use
- Voltage: 220-230V
- Maximum range: 6 m

114.300.100

TRIPLE JET FOGGER

- Fogger for spraying insecticides, disinfectants and deodorising products
- Equipped with 3 special turbine heads or an ultra-fine atomization
- The spray head has a range of 60 ° (40° up and 20° down)
- Cover an area of 4,000 m² with 4 L of product
- Flow rate is adjustable via the control knob
- Works with oil or water-based products, for both indoor and outdoor use
- Voltage: 220-230V
- Maximum range: 15 m

150.100.100

EAGLE BACKPACK FOGGER

- Fogger with comfortable shoulder straps for atomising insecticides, disinfectants and deodorising products
- Equipped with turbine nozzle for an ultra-fine atomization
- The 10 L tank allows you to treat large areas without refilling
- Cover an area of 10,000 m² with 10 L of product
- Flow rate is adjustable via the control knob
- Works with oil or water-based products, for both indoor and outdoor use
- Weight: 4.1 kg
- Voltage: 220-230V
- Maximum range: 6 m

113.000.000

FOGGER ES

- Fogger for spraying insecticides, disinfectants and deodorising products
- Equipped with turbine nozzle for an ultra-fine atomization
- Cover an area of 4,500 m² with 5 L of product
- Content: 5 L
- Atomization: 20- 60 microns
- Weight: 3,5 kg
- Maximum range: 6 m

114.100.100

DEODORISATION

WHAT IS OZON?

- Have you noticed how clean and fresh the air smells after a thunderstorm? That pleasant effect can also be reproduced by the unique ozone module at the heart of our odour control devices. They convert oxygen into ozone, which sterilises the air by destroying bacteria and odour molecules. Ozone has a lifetime of about 35 minutes and is then automatically converted back into oxygen.
- Unlike other systems, which only mask odours, ozone gets to the root of the problem so bad odours do not return. Moreover, since ozone is a gas, it penetrates even the most difficult to reach nooks and crannies.
- Our appliances are portable, compact and have an excellent finish. A standard 220V socket is sufficient to tackle any odour or bacteria problem. Once switched on, these units autonomously provide an odourless and sterile space.

SANI-ZONE

- Compact but very powerful ozone generator
- Excellent for removing bad odours, viruses and bacteria in offices, schools, hospitals, hotels and restaurants, food shops and factories, gyms, cars, trucks, boats,...
- Equipped with a timer, which, for safety reasons, automatically switches the appliance off after treatment
- Supplied with a 220V plug
- Ozone production: 7 g/h
- Maximum coverage area: 120 m²
- Application time: 30 min - 3 h

105.100.100

SANI-ZONE CAR

- Compact but very powerful ozone generator
- Excellent for removing bad odours, viruses and bacteria in cars and trucks
- Equipped with a timer, which, for safety reasons, automatically switches the appliance off after treatment
- Supplied with a 220V plug and an adapter for a car's cigarette lighter
- Ozone production: 4 g/h
- Maximum coverage area: 90 m²
- Application time: 30 min - 3 h

105.100.120

INFRARED DISPENSERS

ARNO DISPENSER WITH INFRARED

- Contactless dispenser, ideal for wall mounting
- Suitable for disinfection alcohol
- Charges via 220V adapter or with 4 AA batteries
- Content: 1 L

310.000.100 | for sprays

15 pieces

OTTO DISPENSER WITH INFRARED

- Contactless dispenser, ideal for wall mounting
- The dispenser is available in versions for sprays or foam
- Charges via 220V adapter or with 4 C batteries
- Content: 1 L

360.000.100 | for sprays

360.000.200 | for foam

360.100.400 | draining dish

15 pieces

ARNO DISINFECTION COLUMN WITH INFRARED

- Contactless dispenser on a very stable base with a 7 kg weight
- With an easily refillable reservoir, suitable for disinfection alcohol
- With transparent level indicator
- For an exact dose with every use
- Content: 1 L

310.000.000 | for sprays

OTTO DISINFECTION COLUMN WITH INFRARED

- Contactless dispenser on a very stable base with a 7 kg weight
- With easily refillable reservoir for sprays or foam
- With transparent level indicator
- For an exact dose with every use
- With on/off button on the outside of the dispenser
- Content: 1 L

360.200.000 | for sprays

360.200.020 | for foam

MILO DISPENSER WITH INFRARED

- Contactless dispenser with infrared for alcohol gel and hand soap
- With the possibility to mount to the wall
- With lithium-ion battery, which charges via the supplied USB cable or with 3 AA batteries
- Has a modern design that is IPX4 water resistant
- Content: 320 ml

390.000.100 | for sprays

390.000.200 | for foam

390.000.300 | for soap or gel

OTTO TABLE/BOW REST WITH INFRARED

- Contactless dispenser on a very stable base with a 4 kg weight
- The ideal solution for tables and counters
- With easily refillable reservoir for sprays or foam
- For an exact dose with every use
- Charges via 220V adapter
- Content: 1 L

360.200.500 | for sprays

360.200.520 | for foam

360.100.400 | draining dish

DISINFECTION MATS

DISINFECTION MATS

- The disinfectant mats can be filled with any product that is suitable to protect against diseases or organisms that can be transmitted through footwear or vehicle wheels
- The mousse of the mats immediately absorbs the liquid
- When traffic passes over the mat, the treatment solution is passed onto the footwear or wheels, but with almost no leakage that may occur when using a bath-type container
- The waterproof and chemically resistant covers ensure that the product does not leak out of the mat
- The mats are easily cleaned with water
- Suitable for indoor and outdoor use: at building entrances and exits or on vehicle approach routes
- Made of anti-slip material
- Resistant to all weather conditions and chemicals

DISINFECTION MATS WITH COVER

115.100.100 | 60 x 90 x 4 cm | with removable cover | 10 L

115.100.101 | 180 x 90 x 4 cm | with removable cover | 30 L

DISINFECTION MATS FOR VEHICLES

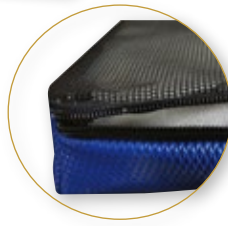

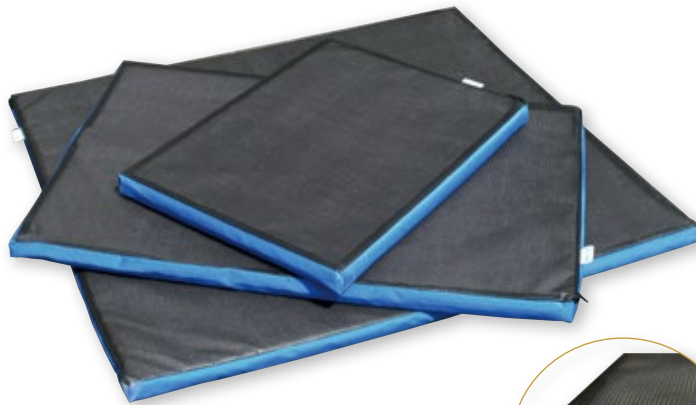

- Drive over the mats with a maximum speed of 5 km/h, without stopping

115.400.350 | 110 x 380 x 5 cm | cover with velcro closing | 90 L per mat | set of 2 pieces

Print the label of your disinfection mats starting from 100 pieces, more info on p. 97 - 98

DISINFECTION MATS

DISINFECTION MATS WITH ZIP

- The mat with zip can be easily removed from the cover for cleaning
- The 2 cm mats are ideal for disinfecting the wheels of trolleys, forklift trucks, roll containers, transport pallets and other means of transport

115.402.045 | 45 x 60 x 2 cm | cover with zip | 0.75 L

115.404.045 | 45 x 60 x 4 cm | cover with zip | 1.5 L

115.402.060 | 60 x 90 x 2 cm | cover with zip | 1.5 L

115.404.060 | 60 x 90 x 4 cm | cover with zip | 3 L

115.402.090 | 90 x 100 x 2 cm | cover with zip | 2.5 L

115.404.090 | 90 x 100 x 4 cm | cover with zip | 5 L

115.402.120 | 120 x 200 x 2 cm | cover with zip | 6 L

115.404.120 | 120 x 200 x 4 cm | cover with zip | 12 L

115.405.090 | 90 x 200 x 5 cm | cover with velcro closing | 12 L

Print the label of your disinfection mats starting from 100 pieces, more info on p. 97 - 98

WORKING LIGHTS

RECHARGEABLE INTERIOR AND BONNET LIGHT

- An autonomous and rechargeable lamp that can be rotated 360°, without connection to electricity
- Provides a bright, uniform and intense light in 2 modes: one with 800 lumens and one with 1,250 lumens
- Ideal for illuminating dark or hard-to-light areas or places, such as under the bonnet and inside vehicles
- Thanks to the telescopic arms (from 93- 113 mm) and the included magnets, it can be attached to surfaces of various sizes
- The lamp easily clips out of the rail and can be used for many mobile purposes
- Working time: 2- 3 h
- Charging time: 3- 4 h, with the supplied USB charger or additional cigarette lighter charger
- With lithium-ion battery
- With CE and RoHS certificates and protection class IP54

580.100.200 | 113 x 93 x 2.7 cm

6 pieces

RECHARGEABLE INSPECTION LIGHT (LED 300 LUMEN – WHITE & UV LIGHT)

- A professional and rechargeable LED inspection and working light that rotates 180°
- With adjustable ABS casing and many fastening options: there are 3 powerful magnets attached to the back, bottom and suspension hooks
- Ideal for use in garages, workshops and hard-to-light areas or places
- Has a flashlight on the side with a high intensity of 300 lumens
- Has a UV light on top: ideal for detecting coolant leaks and stains on seats and carpets
- Working time: 3h with the side flashlight, 7h non-stop with the top UV light
- Charging time: 6h with the supplied USB charger and additional cigarette lighter charger
- With lithium-ion battery
- With CE and RoHS certificates and protection class IP54

580.100.100 | 25.5 x 6 x 4.5 cm

20 pieces

PEN LIGHT

- A compact lamp, which provides a bright light from the side and the top and rotates 180°
- Equipped with an adjustable hanging clip with integrated magnet
- Easy to store in a toolbox, glove compartment or to carry with you
- Weather and shock-resistant

580.100.300 | 17.5 x 2 x 3.5 cm

12 pieces

WORKING LIGHTS

DIMMABLE WORKING LIGHT WITH TWO LED COB ROWS (WHITE LIGHT)

- A dimmable working light, with white LED COB light for a powerful, bright and uniform light
- Ideal for illuminating hard-to-reach areas or places thanks to its flat, narrow shape
- Power: 20W COB LED
- Light intensity: max 880 lumen
- Ideal to illuminate a workshop or a hard-to-light room or place
- Has 2 rows of white light, of which the intensity can be adjusted in stages
- Working time: 6h at reduced power and 3h at maximum power
- Charging time: 3h
- With lithium-ion battery
- With CE and RoHS certificates and protection class IP54

888.888.100 | white | 48 x 5 x 4 cm

20 pieces

DIMMABLE WORKING LIGHT WITH TWO LED ROWS COB (WHITE & YELLOW LIGHT)

- A patented dimmable working light, with white and yellow LED COB light for a powerful, bright and uniform light
- Ideal for illuminating hard-to-reach areas or places thanks to its flat, narrow shape
- Power: 20W COB LED (white light: 10 W & yellow light: 10 W)
- Light intensity
 - White light: max 620 lumen
 - Yellow light: max 600 lumen
 - Mix of white and yellow light: max 770 lumen
- Ideal for high-quality painting, spraying and polishing work
- Many different light combinations are possible to detect colour differences, unevenness and small scratches on paintwork, and polishing imperfections will be detected quicker and easier compared to traditional lamps
- Has 2 rows of light, of which the intensity can be adjusted in stages, and per individual row
- Both rows of light can shine together in different intensity graduations, and it's easy to switch between the 2 types of light
- Operating time: 6h at reduced power and 3h at maximum power
- Charging time: 3h
- With lithium-ion battery
- With CE and RoHS certificates and protection class IP54

888.888.200 | white & yellow | 48 x 5 x 4 cm

20 pieces

DIMMABLE WORKING LIGHT WITH TWO LED COB ROWS (WHITE & UV LIGHT)

- A dimmable working light, with white and UV LED COB light for a powerful, bright and uniform light
- Ideal for illuminating hard-to-reach areas or places thanks to its flat, narrow shape
- Power: 20W COB LED (white light: 10 W & UV light: 10 W)
- Light intensity:
 - White light: max 620 lumen
 - UV light: max 5 lumen
- The UV light is ideal for detecting coolant leaks and stains on seats and carpets
- Has 2 rows of light, of which the intensity can be adjusted in stages, and per individual row
- Both rows of light can shine together in different intensity graduations, and it's easy to switch between the 2 types of light
- Operating time: 6h at reduced power and 3h at maximum power
- Charging time: 3h
- With lithium-ion battery
- With CE and RoHS certificates and protection class IP54

888.888.300 | white & UV | 48 x 5 x 4 cm

20 pieces

DIMMABLE WORKING LIGHT WITH TWO LED COB ROWS (WHITE LIGHT & RED FLASH)

- A dimmable working light, with white and red LED COB light for a powerful, bright and uniform light
- Ideal for illuminating hard-to-reach areas or places thanks to its flat, narrow shape
- Power: 20W COB LED (white light: 10W & red flash: 10W)
- Light intensity:
 - White light: max 620 lumen
 - Red light: max 142 lumen
- The red flashlight can be used as an attention grabber during emergencies
- Has 2 rows of light, of which the intensity can be adjusted in stages, and per individual row
- Both rows of light can shine together in different intensity graduations, and it's easy to switch between the 2 types of light
- Operating time: 6h at reduced power and 3h at maximum power
- Charging time: 3h
- With lithium-ion battery
- With CE and RoHS certificates and protection class IP54

888.888.400 | white & red flash | 48 x 5 x 4 cm

PERSONALISATION

Discover the different possibilities to personalise our products with your logo and information of your choice. A promotional opportunity to reach your customers, who come in contact with your products on a daily basis. A small investment that pays off immediately. Ask for our conditions via info@dewitte.com.

PRINTING

We are happy to print our bottles, microfibre cloths, gloves, and other products with your logo and details.

Sponges and microfibres
1 color from 1,000 pieces

Microfibres
1 color from 1,000 pieces

Washing gloves
1 color from 500 pieces

Sprayers
1 or 2 colours from 96 pieces

Bottles
1 or 2 colours from 560 pieces

Cleaning guns
1 or 2 colours from 96 pieces

EMBROIDERY

We recently started offering embroidery services: you can now have a logo or text embroidered on our textile products. A sustainable personalisation with a luxurious appearance!

PERSONALISATION

LABELS

With our full-colour printing machine, we print high-quality labels with your logo and details of your choice.

Water Blades
from 96 pieces

Bucket Filter
from 100 pieces

Aluminium mop frame handles
from 100 pieces

PERSONALISED KITS

Compose your own kit of microfibre cloths or sponges. And we will package it in a plastic bag with an insert or label or choose for environmentally-friendly cardboard packaging. Personalised kits are possible from 100 pieces upwards, depending on the composition of the kit.

WASHING LABELS

Personalise the washing label of our microfibre cloths with a label with 1 or more colours. Ask for the possibilities from 3,000 or 5,000 pieces.

PRODUCTS IN YOUR COLOUR

It is also possible to order products in a colour of your choice, from 5,000 pieces for most microfibre cloths and tex spray trigger sprayers.
