WHO ARE WE?

De Witte is an innovative partner of the distributor for high-quality cleaning products. As a Belgian family business, we import, assemble and personalise a wide range of products from microfibre cloths, sprayers and foamers to brushes, handles and disinfection and dosing systems. As a partner, we work closely with distributors in industries including hygiene, automotive, food and agriculture.

De Witte has been combining quality with a personal approach for almost 40 years. What began in 1989 with founder Dirk De Witte has grown into an experienced team of around 25 employees, with his son Wout at the helm. Every day, we process, personalise and ship orders from our wide range of products to more than 40 countries.

WHAT IS SO SPECIAL ABOUT DE WITTE?

Our goal is to help build the future and growth of our customers. As a pioneer in microfibres, De Witte is fully committed to innovation. In fact, we were the first in Europe to launch microfibre cloths on rolls. And even today, we continue to move forward: this year, we are the first in Europe to introduce microfibre cloths certified for food contact in accordance with European standards. On top of that, we constantly look for alternative and eco-friendly packaging options that meet the changing needs of our customers and the market.

Fast and reliable delivery is not an extra for us, but a given. With more than 6,000 pallet spaces and over 1,000 product references in stock, we guarantee continuity and permanent availability. Thanks to our central location, close to the port of Antwerp, we can always guarantee a smooth delivery to customers in Europe and far beyond.

601.100.010 | 40 x 80 cm | green

601.100.011 | 40 x 80 cm | pink

601.100.012 | 40 x 80 cm | blue

Packed per 25 | 100 pieces

601.100.013 | 60 x 70 cm | yellow

601.100.014 | 60 x 70 cm | green

601.100.015 | 60 x 70 cm | pink

601.100.016 | 60 x 70 cm | blue

601.100.017 | 60 x 70 cm | orange

Packed per 25 | 100 pieces

For small sizes | p. 10

FLOOR CLOTH WITH OPENING

- Absorbent and premium floor cloth with opening in the middle
- Can be slid over the handle of a squeegee
- The opening ensures the cloth does not detach during cleaning
- **300 g/m²**

690.400.002 | 50 x 70 cm | green

Packed per 5 | 20 bags

QUADRI

- Very strong microfibre cloth
- Absorbent and durable
- Easy to wring out
- Ideal as a large working or drying cloth
- **320 g/m²**

615.900.494 | 50 x 60 cm | blue

615.900.450 | 40 x 80 cm | blue

Packed per 5 | 20 bags

For small sizes | p. 10

TRICOT FIRST

- Microfibre cloth with good cleaning properties at a very competitive price
- Use dry for dusting and wet with or without a cleaning product to remove dirt and grease
- **200 g/m²**

615.200.264 | 40 x 60 cm | cobalt

Packed per 5 | 20 bags

615.200.274 | 50 x 60 cm | cobalt

Packed per 5 | 40 bags

For small sizes | p. 10

WAFFLED CLOTH

- Highly absorbent and therefore requires little wringing out
- Ideal as a car drying cloth
- Does not scratch the paintwork
- Due to its large surface, liquids are absorbed quickly and easily
- **320 g/m²**

615.400.120 | 60 x 90 cm | violet

Packed individually | 100 pieces

MICROFIBRES

Glass cloths

TOP SILK

- Silky and highly absorbent cloth
- This microfibre quickly dries even the finest wine glasses and mirrors
- Makes everything shine with astonishing results
- Ideal as a dishcloth, glass, mirror or polishing cloth
- **220 g/m²**

460.300.300 | 50 x 70 cm | white

460.300.400 | 50 x 70 cm | grey

460.300.330 | 50 x 70 cm | white - neutral

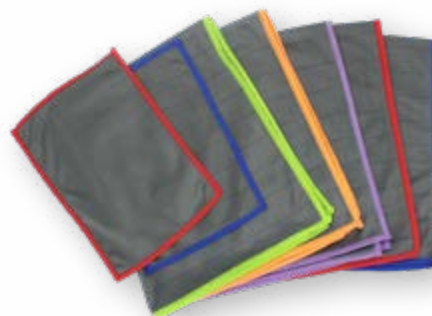

460.300.430 | 50 x 70 cm | grey - neutral

Packed individually | 100 pieces

- **280 g/m²**

460.360.500 | 50 x 70 cm | black - neutral

Packed individually | 100 pieces

CARBON

- Made from 60% rPET (recycled polyester), 20% carbon fibres and 20% polyamide
- The carbon fibres contain graphene, which is 200 times stronger than steel and 5 times lighter than aluminium
- This makes the microfibre cloth flexible but also incredibly strong
- Is antistatic, making it easy for dust to stick onto
- The perfect glass cleaning cloth, but suitable for all purposes
- **400 g/m²**

460.615.202 | 15 x 20 cm | grey with blue edge

460.615.206 | 15 x 20 cm | grey with red edge

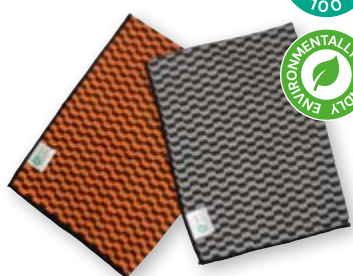

Packed per 5 | 100 bags

QUADRO BRUSH

- Equipped with fibres on all 4 sides to prevent scratches during use
- For faster and more thorough cleaning because a larger surface comes in contact with the brush
- The more than 50,000 brush fibres guarantee an extra-long lifespan
- The feathered fibres are extra soft and ensure scratch-free cleaning
- Good resistance to chemicals

600.000.009 | 25 cm | blue

12 pieces

Fits our handles | p. 35 – 36

DIP BRUSH

- The brush head is equipped with a rubber edge to prevent scratches during use
- The more than 50,000 brush fibres guarantee an extra-long lifespan
- The feathered fibres are extra soft and ensure scratch-free cleaning
- Good resistance to chemicals

600.000.002 | 25 cm | blue

600.000.012 | 25 cm | green

600.000.013 | 25 cm | grey

18 pieces

Fits our handles | p. 35 – 36

DIP BRUSH DELUXE TRIPLE

- The sides of the brush are lined with fibres to prevent scratches during use
- The more than 50,000 brush fibres guarantee an extra-long lifespan
- Extra soft fibres
- Good resistance to chemicals

600.000.011 | 25 cm | blue

📦 24 pieces

Fits our handles | p. 35 - 36

DIP BRUSH DELUXE TRIPLE ANTEX

- The sides of the brush are lined with fibres to prevent scratching during use
- The more than 50,000 brush fibres guarantee an extra-long lifespan
- Extra soft fibres
- Resistant to very high temperatures (> 100 °C)
- Resistant to aggressive products and acids

602.000.072 | 25 cm

📦 24 pieces

Fits our handles | p. 35 - 36

QUADRO BRUSH PREMIUM

- With soft fibres for extra softness and to prevent scratches during use
- The more than 50,000 brush fibres guarantee an extra-long lifespan
- Good resistance to chemicals
- Ideal for carwashes, cars, vans, trucks, caravans, verandas,...

520.100.000 | 36 cm

Packed individually | 📦 12 pieces

Fits our handles | p. 35 - 36

DUO BRUSH MEDIUM HARD FIBRES

- Medium-hard brush for thorough cleaning of hard-to-clean surfaces
- Consists of 2 parts that are seamlessly connected at a 30° angle
- For faster and more thorough cleaning because a larger surface comes in contact with the brush
- Ideal for tarpaulins, stainless steel tanks, machines, floors, walls,...

600.000.015 | 25 cm

📦 18 pieces

Fits our handles | p. 35 - 36

DUO BRUSH HARD FIBRES

- Hard brush for intensive scrubbing of heavily soiled surfaces
- Consists of 2 parts that are seamlessly connected at a 30° angle
- For faster and more thorough cleaning because a larger surface comes in contact with the brush
- Ideal for public works, facades, floors, walls,...

600.000.007 | 25 cm

📦 18 pieces

Fits our handles | p. 35 - 36

DIP BRUSH HARD FIBRES

- Hard brush for intensive scrubbing of heavily soiled surfaces
- The brush head is equipped with a rubber edge to prevent scratches during use
- Ideal for ship decks, public works, facades, floors, walls,...

600.000.008 | 25 cm

📦 18 pieces

Fits our handles | p. 35 - 36

POLYESTER TRUCK BRUSH

- The more than 50,000 brush fibres guarantee an extra-long lifespan
- The feathered bristles are extra soft and ensure scratch-free cleaning
- Good resistance to chemicals

119.100.003 | 25 cm

📦 8 pieces

119.100.004 | 35 cm

📦 6 pieces

Fits our Telescopic Handle Aluminium
(ref. 122.555.10x) | p. 36

SPONGE BRUSH

- Scrubbing brush with soft, synthetic foam
- For efficient cleaning thanks to its wavy surface
- Weighs very little
- Ideal for car cleaning and other delicate surfaces

600.000.801

Packed individually | 📦 40 pieces

Fits our handles | p. 35 - 36

TELESCOPIC FIBREGLASS HANDLE PRO

- Consists of a fibreglass base (Ø 32 mm) and an aluminium extension that is double as thick (Ø 25 mm)
- They do not bend under strong pressure and are much more solid than classic aluminium handles
- Equipped with a robust metal tip

- 600.100.001 | 2 x 1.2 m | blue
- 600.100.002 | 2 x 1.5 m | blue
- 600.100.010 | 3 x 1.5 m, total length = 4.5 m | blue
- 600.100.007 | 2 x 1.2 m | black
- 600.100.008 | 2 x 1.5 m | black
- 600.100.022 | 2 x 1.5 m | green

18 pieces

Fits our brushes | p. 32 - 34

TELESCOPIC ALUMINIUM HANDLE PRO WITH WATER FLOW

- Consists of 2 extendable aluminium parts and is equipped with a universal snap-on coupling and an on/off button for water supply
- They do not bend under strong pressure and are much more solid than classic aluminium handles
- Equipped with a robust metal tip

- 600.100.003 | 2 x 1.2 m | black
- 600.100.004 | 2 x 1.5 m | black
- 600.100.023 | 2 x 1.2 m | green
- 600.100.024 | 2 x 1.5 m | green

18 pieces

Fits our brushes | p. 32 - 34

TELESCOPIC ALUMINIUM HANDLE MI-PRO WITH WATER FLOW

- Handle in aluminium with protective foam
- Equipped with a universal quick coupling and an on/off button for water supply

- 600.100.005 | 2 x 0.9 m | blue
- 600.100.025 | 2 x 0.9 m | green

48 pieces

Fits our brushes | p. 32 - 34

CAR - TRUCK - BOAT - BIKE

BICYCLE BRUSH

- Removes dried and stubborn dirt, even in hard-to-reach areas of a bicycle
- With multi-purpose brushes to clean the brake blades, chains and all other hard-to-reach parts
- Withstands a maximum water temperature of up to 60 °C
- Easy to use for scratch-free cleaning

650.100.100

20 pieces

Nanex uses revolutionary rubber polymer technology and is a high-quality alternative to clay products in car cleaning. The range effortlessly removes resin, wax residue, insects, stains and other contaminants from a car's paintwork, windows and plastic parts. The result is a mirror-smooth surface. Rinse the collected dirt off easily with water.

Features

- Lasts 4 times longer than clay products
- Fast and easy use saves time
- Soft-gliding for a smooth finish
- Easy to rinse with water if dropped on the floor
- Can be used 50 to 60 times

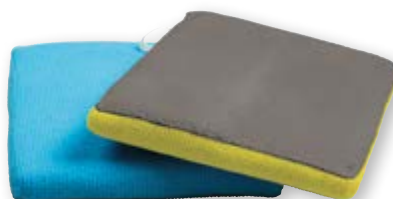

Instructions for use

- For cars that are constantly outdoors or poorly maintained, it is best to use the medium-quality cloth (yellow), for new or well-maintained cars, the fine-quality cloth (blue) is recommended
- Never use Nanex on a dirty car or a hot surface
- Wash car thoroughly and remove tar and grease
- Spray a professional lubricant on the surface
- Use the Nanex on glass for 1 min to remove the protective layer and soften the polymer
- Then gently rub the surface with a Nanex cloth, pad or glove
- Dry with a soft microfibre cloth

NEW

CAR DRYER

- Powerful but compact electric drying gun
- Ideal for drying vehicles safely and efficiently
- Thanks to its warm, filtered air, you can effortlessly blow away water, dust, and dirt from hard-to-reach areas such as grilles, mirrors, seams and ventilation openings
- With a long cord: 6 m
- Lightweight: only 2 kg

830.000.000 | blue/blue

830.000.010 | red/black

Packed individually | 6 pieces

ABSORB-ALL CHAMOIS

- The Absorb-All is an ultra-absorbent synthetic chamois made from PVA, reinforced with a polyester fibre for extra strength and a long lifespan
- Its three-dimensional structure does not damage even the most delicate surfaces
- Easier to wring out than conventional cloths or natural chamois liners
- Dries perfectly without streaks, absorbs up to 5 times its weight in water and lint-free
- Excellent resistance to oils, greases and chemicals
- Lasts longer than natural chamois liners and other synthetic products
- Machine-washable up to 70°C
- Ideal for cars, boats, windows, bathrooms,...

50 pieces

CAR DUSTERS

- The special wax baked into the cotton fibres attracts dust and dirt like a powerful magnet and does not let go
- Guaranteed not to scratch even the most delicate surfaces
- Last for years
- No need to wash or treat with product, the dirtier they get, the better they work
- With its compact and practical shape you can easily access hard-to-reach areas
- The Car Dusters are perfectly suited to keep cars in showrooms dust-free
- The Mini Duster has the same properties but is mainly used to clean car dashboards, computers, TVs, furniture, blinds,...

BUCKET FILTER SETS

- The Bucket Filter is a plastic anti-debris grid that fits into the bottom of several buckets
- It acts as a filter for dirt and grit, which remain at the bottom of the bucket and are not swept up by a sponge, wash mitt or brush
- By rubbing your washing glove, cloth, sponge or brush against the Bucket Filter, dirt will sink to the bottom of the bucket
- The base plates act as baffles, reducing the chance of a whirlpool, which could bring dirt and sand up above the grid
- The Bucket Filter separates dirt from water in a simple but highly efficient manner
- Ideal for use in the automotive industry, garages, carwashes, showrooms, when cleaning vehicles while preventing sand and dirt from damaging paintwork

588.000.000 | set with bucket filter grate insert, white bucket 20 L and seal cover
588.000.002 | set with bucket filter grate insert, black bucket 20 L and seal cover
588.000.007 | set with bucket filter grate insert, white bucket 20 L, seal cover and trolley
588.000.008 | set with bucket filter grate insert, black bucket 20 L, seal cover and trolley

BUCKET FOR BUCKET FILTER

- Bucket made of sturdy plastic
- Large capacity of 20 L
- For optimal safety, use two buckets: one to rinse out your washing glove or cloth and one for clean soap

588.020.001 | bucket 20 L | white
588.020.003 | bucket 20 L | black
 12 pieces

TROLLEY WITH STORAGE COMPARTMENTS

- User-friendly transport trolley with storage compartments for efficient use of the Bucket Filter

SPRAYERS

SPRAYERS

SAMOURAI

- Powerful electric sprayer that runs on a rechargeable lithium-ion battery
- The battery is compact and light, has a long lifespan and works up to 2 h non-stop
- With an integrated 30 L tank that is mounted on a wheeled axle
- Mobile: no water supply, electricity or air pressure needed
- Sprays up to 13 m far and 10 m high
- Areas of application:
 - Living areas: roofs, facades, terraces, anti-moss,...
 - Hygiene and food: kitchens, floors, toilet facilities,...
 - Gardens: flower beds, hedges, insecticides,...
 - Cars: bodywork, windows,...
- Nozzles cannot only be mounted onto the lance but also directly onto the gun
- Delivered with 3 different nozzles that are equipped with a quick coupling: a flat jet nozzle (green), a pin stream (red), a fine and adjustable mist nozzle (stainless steel)

566.000.001 | with 1 battery

566.000.002 | with 2 batteries

566.001.010 | battery charger

566.001.011 | extra battery for Samourai

SAMOURAI BACKPACK

- Powerful electric backpack sprayer that runs on a rechargeable lithium-ion battery
- With an integrated 15 L tank
- The backpack model ensures ergonomic ease of use
- Mobile: no water supply, electricity or air pressure needed
- With a range of up to 8 m
- Nozzles cannot only be mounted onto the lance but also directly onto the gun
- Delivered with 3 different nozzles that are equipped with a quick coupling: a flat jet nozzle (green), a pin stream (red), a fine and adjustable mist nozzle (stainless steel)

566.000.031 | with 1 battery

566.000.032 | with 2 batteries

566.001.011 | extra battery for Samourai

566.001.100 | flat jet nozzle

566.001.101 | point jet nozzle

566.001.102 | fine and adjustable mist nozzle

EXTRA OPTION

598.200.050 | set of 5 spray nozzles (from straight jet to liquid foam: 0°, 15°, 25°, 40°, 65°)

ACCESSORIES SAMOURAI

566.001.125 | quick coupling for connecting the nozzles to 3 and 5m lances

299.400.300 | telescopic spray lance | 3 m
299.400.500 | telescopic spray lance | 5 m

566.001.019 | 10 m extension hose

NEW

E-MOBILOX 12 L

- Electric sprayer on wheels with a 12 L tank and double pump system
- Choose between a manual hand pump or a battery-powered pump for maximum flexibility
- Equipped with a powerful lithium-ion battery for autonomous working for up to approx. 1 h 30
- Lightweight and mobile design with wheels for easy transport
- Supplied with 2 lances (standard + telescopic) and 3 spray nozzles
- Battery easy to charge with the included charger

570.000.001

Packed individually

5

E-SPRAY 1 L

- Electric sprayer with a 1 L bottle that works completely autonomously and is equipped with a lithium-ion battery
- No continuous effort or manual pumping is needed: a light press on the control button is enough
- Equipped with chemical-resistant EPDM seals
- Also works upside down
- With a scale of the content and indication of the battery level
- Supplied as standard with the blue nozzle (**590.001.514** | 1,2 mm)
- Spray nozzle adjustable from mist to straight jet
- Easy to charge with the included USB cable

RED ACID SPRAYER 1.5 L

- Highly resistant to acids
- All metal parts are protected to avoid contact with acid
- Thanks to the graduation, you can easily see the liquid level
- The reinforced bottom ensures good stability

299.500.100

9 pieces

BLACK SOLVENT SPRAYER 1.5 L

- Specifically designed to spray solvents
- The pump body is made of solvent-resistant polyamide
- Thanks to the graduation, you can easily see the liquid level
- The reinforced bottom ensures good stability

299.500.200

9 pieces

FOOD SPRAYER 1.5 L

- Specifically designed for the food industry
- With pressure relief valve
- Compliant with European standards for food contact (EC 1935/2004)
- Ideal for use in commercial kitchens, restaurants, meat and fish factories and other food processing plants

299.300.104

9 pieces

BLUE ALKALINE SPRAYER 1.5 L

- Specifically designed to spray alkaline products
- Thanks to the graduation, you can easily see the liquid level
- The reinforced bottom ensures good stability

299.500.400

9 pieces

360° UNIVERSAL SPRAYER 1.5 L

- Resistant to chemical products
- Also works horizontally and upside down due to its flexible suction tube
- Thanks to the graduation, you can easily see the liquid level
- The reinforced bottom ensures good stability

299.500.300

9 pieces

EXTRA OPTION

FOAM NOZZLE

- For Red Acid Sprayer, Black Solvent Sprayer, Food Sprayer, Blue Alkaline Sprayer and 360° Universal Sprayer

299.300.194

SPRAYERS

BLACK & WHITE 1.5 L

- Hand pump with resistant seals
- With nozzle that is adjustable from mist to pin stream

450.700.150 | 1.5 L | with white tank

Packed individually | 15 pieces

BLACK & WHITE 5 L AND 7 L

- Hand pump with resistant seals
- With nozzle that is adjustable from mist to pin stream
- With pressure relief valve
- Supplied with shoulder strap

450.700.500 | 5 L | with black tank

450.700.700 | 7 L | with black tank

6 pieces

BLACK & WHITE BACKPACK SPRAYER 15 L

- Hand pump with resistant seals
- With nozzle adjustable from mist to pin stream
- Pump with high performance per stroke
- Maximum operating pressure: 4 bar
- Comes with
 - flat jet nozzle
 - double nozzle
 - shower nozzle
 - additional seals kit
- Suitable for right- and left-hand users
- Supplied with comfortable shoulder straps

450.750.000 | with white tank

Packed individually

Manual sprayers

PROTECTION HOOD FOR BLACK & WHITE 5 L AND 7 L

- Protective cover made of polyethylene for targeted spraying with the Black & White 5 L & 7 L

450.400.100

BRASS LANCE 80 CM WITH SWIVEL HEAD FOR BLACK & WHITE 5 L AND 7 L

450.300.120

PROTECTION HOOD FOR BLACK & WHITE 15 L

- Protective cover made of polyethylene for targeted spraying with the Black & White 15 L

450.400.200

TELESCOPIC LANCE BLACK & WHITE 15 L

- 1 m polyethylene lance for the Black & White 15 L

450.300.100 | 2 x 50 cm

SPRAY BOW FOR BLACK & WHITE 15 L

450.300.110 | 60 cm

SPRAYERS

Compressed air sprayers

SPRAY-MATIC

- Compressed air sprayer on wheels with tank in stainless or painted steel
- Not suitable for strong acids
- With snap-on air connection, manometer, pressure relief valve and safety valve
- With product level indicator
- With 10 m spiral hose and a stainless steel lance
- Maximum operating pressure: 8 bar
- Compliant with the European directive for pressure equipment (PED 2014/68/EU)

207.100.101 | 24 L | inox | + 75 cm lance

207.100.102 | 24 L | red | painted steel | + 75 cm lance

207.100.104 | 50 L | red | painted steel | + 90 cm lance

207.100.105 | 100 L | inox | + 90 cm lance

SPRAY-MATIC BRUSH

- Compressed air sprayer with 10 L tank in painted steel
- With quick coupling for compressed air, manometer, safety valve and shut-off valve
- With product level indicator
- With 3 m spiral hose and brush
- Ideal for applying dressings and polishes to car tyres
- Maximum working pressure: 8 bar
- Compliant with the European directive for pressure equipment (PED 2014/68/EU)

207.100.097 | 10 L

NEW

AERO-SPRAY 600 ML

- Compressed air sprayer with 600 ml aluminium tank
- With universal air valve: compatible with standard compressors
- Equipped with a standard double-acting nozzle: for jet and mist
- Includes an additional chemical-resistant mist nozzle for use with solvents and aggressive chemicals
- Maximum working pressure: 6.3 bar

305.000.000

Packed individually |  12 pieces

SPRAYERS

Water pressure sprayers

5

SPRAY-BOY

- Sprayer that automatically dilutes a product with water
- With 9-jet nozzle and rinsing nozzle
- Easy to attach to a water hose, consumes no electricity
- For a wide spray jet with a high flow rate
- Choose the concentration level using the set of supplied measuring tips
- Ideal for the application of cleaning and disinfectant products

FOAMERS

Manual foamers

NEW

RESIST PLUS WITH FOAM NOZZLE

- Sprayer and foamer in one: thanks to the included Foam kit, you can convert the sprayer into a foamer
- With sturdy 6.7 L polypropylene tank (usable volume: 5 L)
- Excellent resistance to aggressive chemicals such as strong acids, solvents and corrosive products
- High-quality, chemically resistant design with FKM seals
- Hand pump with high efficiency per pump stroke
- With hose in PVC reinforced with nylon mesh, lance in fibreglass with polypropylene and FKM, adjustable spray nozzle in polypropylene and FKM
- With pressure relief valve for safe use

575.000.000 | FKM

Packed individually

SPRAY-MATIC 1.5 L FOAM

- Sprayer and foamer in one: thanks to the included foam nozzle, you can convert the sprayer into a foamer
- Remove the foam nozzle to use as a sprayer
- With 1.5 L reservoir and FKM or EPDM seals
- The handle can be blocked for continuous spraying or placed in the safety position
- Foam nozzle included

901.300.100 | FKM | blue

901.300.200 | EPDM | grey

8 pieces

FOAM MASTER

- Foamer with integrated foam sponges for foaming surfaces of up to 1 m²
- Equipped with chemical-resistant seals
- With pressure relief valve of 3 bar
- With flat jet nozzle of 110°
- For better cleaning results due to thick and dry foam
- Ideal for cleaning vehicles and for use in the food industry

901.300.060 | 1.5 L | FKM

901.300.070 | 1.5 L | EPDM

8 pieces

ULTIMATE FOAMER

- Foamer with interchangeable nozzles for foaming surfaces of up to 10 m²
- For foaming larger surfaces without having to pump all the time, including 5 m spiral hose for a long reach
- Equipped with chemical-resistant seals
- With pressure relief valve of 3 bar and pressure regulator
- With flat jet nozzle of 110 °C
- With hand pump and air pressure inlet
- For better cleaning results due to thick and dry foam

229.100.000 | 8 L

3 pieces

FOAMERS

Compressed air foamers

FOAM BOOSTER 1 L

- Compressed air foamer with 1 L reservoir and operating pressure of 6 bar
- Produces extra thick foam even with low-foaming cleaning products
- For a professional result with a small investment
- Dilute the desired product before adding it to the 1 L tank

288.000.610 | 1 L

8 pieces

FOAM BOOSTER 3 L

- Compressed air foamer with 3 L reservoir and operating pressure of 6 bar
- Produces extra thick foam even with low-foaming cleaning products
- For a professional result with a small investment
- Dilute the desired product before adding it to the 3 L tank

288.000.630 | 3 L

6 pieces

FOAM BOOSTER 15 M

- Compressed air foamer with 15 m hose operating pressure of 6 bar
- Produces extra thick foam even with low-foaming cleaning products
- For a professional result with a small investment
- Dilute the desired product before aspiration with the hose

288.000.700 | with 15 m hose

4 pieces

7

FOAM-MATIC

- Compressed air foamer on wheels with tank in stainless or painted steel
- Produces a thick and rich foam that is long-lasting and enhances the product's effect
- Delivered with foam nozzle for foaming and spray nozzle for spraying
- Can be used as a foam and as a mist unit
- Not suitable for strong acids
- With stainless steel tank, trolley, mixing valve for air and product supply, safety valve, pressure regulator, quick coupling for compressed air connection, pressure gauge, level indicator and pressure relief valve
- With indication of the product level
- With 10 m PVC hose and a stainless steel lance
- Compliant with the European directive for pressure equipment (PED 2014/68/EU)

207.200.101 | 24 L | inox | + 75 cm lance

FOAMERS

High-pressure foamers

TURBO FOAM HP

- The foam gun Turbo Foam HP is directly connected to the gun or lance of a high-pressure cleaner
- The venturi effect ensures that the cleaning product is aspirated from the 1 L bottle
- Generates a powerful jet of dry foam that remains on the surface
- Ideal for cleaning cars, floors, machines, facades, terraces, greenhouses,...
- Quality materials guarantee a trouble-free long life and good resistance to chemicals
- With adjustable foam jet
- Maximum pressure: 160 bar
- Flow rate: 20 L/min
- Maximum temperature: 60 °C

FLOOR CLEANING

Handles

ALUMINIUM HANDLE

- Lightweight version

480.400.298 | 1.4 m

 20 pieces

Fits our mop frames | p. 67
Fits our Rakleto (Ref. 130.100.100) | p. 71

TELESCOPIC ALUMINIUM HANDLE

- Solid construction
- Only 70 cm when retracted
- Very practical for sending by post or courier service

480.400.330 | 3 x 0.6 m

 20 pieces

Fits our mop frames | p. 67
Fits our Rakleto (Ref. 130.100.100) | p. 71

TELESCOPIC ALUMINIUM HANDLE

- Solid construction

480.400.300 | 2 x 0.9 m | blue

480.400.305 | 2 x 0.9 m | green

 20 pieces

Fits our mop frames | p. 67
Fits our Rakleto (Ref. 130.100.100) | p. 71

TELESCOPIC ALUMINIUM HANDLE WITH ROTATING BALL GRIP

- The ball grip is ergonomic, made of non-slip material, rotates and reduces pressure on the wrist
- Solid construction

481.100.800 | 2 x 0.8 m

 10 pieces

Fits our mop frames | p. 67
Fits our Rakleto (Ref. 130.100.100) | p. 71

MICROFIBRE MOP BLUE WITH COLOUR CODING

- For mop frames with velcro strips
- Excellent for dry and damp mopping
- The softness of the fibres provides optimal results on all floors, particularly on parquet, laminate, marble and wood
- Equipped with 6 cut-off ribbons for colour coding
- Long lifespan

601.500.002 | 44 x 13 cm

601.500.004 | 60 x 13 cm

📦 100 pieces

Fits our mop frames | p. 67

MICROFIBRE MOP WHITE WITH COLOUR CODING

- For mop frames with velcro strips
- Excellent for dry and damp mopping
- The softness of the fibres provides optimal results on all floors, particularly on parquet, laminate, marble and wood
- Equipped with 4 cut-off ribbons for colour coding
- Long lifespan

601.500.001 | 44 x 13 cm

601.500.003 | 60 x 13 cm

📦 100 pieces

Fits our mop frames | p. 67

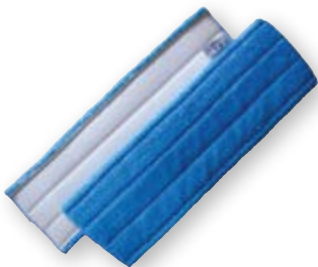

MOP WITH SCOURING STRIPS

- For mop frames with velcro strips
- Excellent for dry and damp mopping
- With strips containing an abrasive ingredient for deep and thorough cleaning
- The absorbent fibres work great on tile floors, linoleum, parquet, marble and wood
- Long lifespan

615.540.540 | 44 x 13 cm

Packed individually | 📦 200 pieces

Fits our mop frames | p. 67

MICROFIBRE MOP PC

- For mop frames with velcro strips
- Extra resistant to chemical products
- Excellent for dry cleaning
- The absorbent fibres work great on tile floors, linoleum, parquet, marble and wood

601.500.012 | 29 x 14 cm

601.500.010 | 44 x 13 cm

📦 200 pieces

Fits our mop frames | p. 67

WAVE PAD

- For mop frames with velcro strips
- With wavy structure on one side and woven structure on the other
- The highly absorbent waves scoop up and retain dirt
- Cleans streak-free and fast and leaves a glossy finish
- Flexible and effortless to wring out
- Ideal for cleaning windows, stairs, toilets or other small areas

620.110.000 | 25 x 14 cm | gold

Packed per 5 | 📦 40 bags

Fits the aluminium mop frame deluxe 25 cm (480.200.226) | p. 67

RASTA MOP WITH VELCRO

- For mop frames with velcro strips
- The microfibre fringes ensure excellent cleaning, both wet and dry

460.200.200 | 44 x 13 cm | blue

460.200.202 | 44 x 13 cm | violet

📦 50 pieces

Fits our mop frames | p. 67

MOPS FOR SHORT USE

- For mop frames with velcro strips
- Easy to attach to a mop frame using our double-sided velcro pad (603.300.000)
- For efficient cleaning
- Works dry and with water or cleaning and disinfecting product
- The Presto model (615.530.001) has 2 flaps that fit into the attachment holes of mop frames
- Washable up to 5 times at 90°C or for single use

615.530.001 | Presto | 46 x 18 cm

615.530.002 | Rapido | 46 x 11 cm

615.530.110 | Recycled Rapido | 46 x 12 cm

📦 500 pieces

Fits our mop frames | p. 67

BJ-ONE FOR SINGLE USE

- To be used with a mop frame with velcro, a double-sided velcro pad, a ZAPA handle or classic handle
- Absorbent non-woven mop for single use
- Ideal for cleaning and disinfecting floors
- Does not fluff or tear thanks to its double texture: with a side to attach to the velcro of the mop and a waffled side to work quickly and efficiently

603.100.200 | bobbin 200 sheets | 20 x 44 cm

603.100.300 | bobbin 150 sheets | 20 x 60 cm

603.200.100 | bag with 50 mops | 12 x 44 cm

603.100.100 | bobbin 200 sheets | 12 x 44 cm

Fits our mop frames | p. 67

DOUBLE-SIDED VELCRO PAD

- For mop frames with velcro strips
- To be used in combination with the BJ-ONE range

603.300.000 | 40 cm

📦 330 pieces

Fits our mop frames | p. 67

FLOOR CLEANING

Mop systems

RAKLETO

- The Rakleto system consists of:
 - A 2 x 0.9 m or 3 x 0.6 m telescopic handle or a 1.4 m aluminium handle
 - Microfibre Rakleto floor cloth 55 x 27 cm (615.400.00x) with very high absorption capacity
 - A Rakleto squeegee (130.100.100): to easily remove all kinds of dirt from floors

130.100.100 | Rakleto

12 pieces

RAKLETO FLOOR CLOTHS

615.400.001 | 55 x 27 cm | yellow

615.400.002 | 55 x 27 cm | green

FLOOR CLEANING

NEW

HANDLE ZAPA PRO

- Handle with integrated reservoir and innovative spray system
- Sprays a precise amount of water or cleaning agent at the touch of a button
- Three powerful spray nozzles ensure an even and targeted distribution on floors
- Compatible with microfibre and disposable mops
- Designed for professionals with lighter handle and improved refill system for leak-free use
- Content reservoir: 600 ml
- Length: 140 cm

481.100.600 | handle | grey

481.100.610 | blue push button

📦 20 pieces

Fits our mop frames (see p. 67) and can be combined with our BJ-One mops for single use (see p. 70), microfibre mops for short-term use (see p. 70), and Comprimex magic pads (see p. 74)

Mop systems with reservoir

HANDLE ZAPA +

- Handle with integrated reservoir and innovative spray system
- Sprays a precise amount of water or cleaning agent at the touch of a button
- Three powerful spray nozzles ensure an even and targeted distribution on floors
- Compatible with microfibre and disposable mops
- Content reservoir: 500 ml
- Length: 145 cm

123.500.500 | handle | blue

123.500.550 | handle | green

📦 20 pieces

Fits our mop frames (see p. 67) and can be combined with our BJ-One mops for single use (see p. 70), microfibre mops for short-term use (see p. 70), and Comprimex magic pads (see p. 74)

MEASURING CUP

- With this measuring cup, you can easily fill the ZAPA handles
- Avoid water spillage thanks to the pointed and convenient spout
- Dose accurately thanks to the indicated graduations
- Content: 1 L

480.200.278

📦 144 pieces

NEW

TURBO MOP DUO

- Compact and foldable mop system with double bucket to wash and dry the mop separately
- Bucket with integrated centrifuge and innovative worm screw mechanism for efficient rinsing and drying
- 360° rotatable mop holder for optimal mobility
- Supplied as a complete set with telescopic handle and 2 washable microfibre mops
- Space-saving design, ideal for small storage spaces

640.200.150 | Turbo Mop DUO | complete set (foldable double bucket with centrifuge + telescopic handle + 2 microfibre mops)

Packed individually | 6 pieces

640.200.530 | trolley for Turbo Mop Duo

640.200.500 | spare mop

640.200.531 | telescopic handle (4 parts)

640.200.532 | disc for attaching mop

TURBO MOP PRO

- Complete double bucket mop system to wash and dry the mop separately
- Activate the integrated rinsing and spinning system via pressure on the handle or the pedal
- Dual function: rinsing in the bucket and drying in the stainless steel basket
- 360° rotatable mop holder for optimal mobility, mop has microfibre fringes for high absorbency
- Supplied as a complete set with 140 cm telescopic handle and 2 washable microfibre mops

640.200.100 | Turbo Mop Pro | complete set (double bucket with centrifuge + telescopic handle + 2 microfibre mops)

Packed individually | 4 pieces

640.200.500 | spare mop

640.200.511 | spare handle | 140 cm

TURBO MOP KOMPAKT

- Compact mop system with integrated centrifuge for efficient rinsing and drying
- The worm screw mechanism lowers the basket for rinsing and raises it for drying
- 360° rotatable mop holder for optimal mobility, mop has microfibre fringes for high absorbency
- Supplied as a complete set with telescopic handle and 2 washable microfibre mops

640.200.125 | Turbo Mop Kompakt | complete set (bucket with centrifuge + telescopic handle + 2 microfibre mops)

Packed individually | 6 pieces

640.200.500 | spare mop

640.200.511 | spare handle | 140 cm

COMPRIMEX MAGIC PAD

- Effortlessly removes traces of shoe soles and wheels
- Excellent results on linoleum, marble and tiles
- Moisten the mop with water and some cleaning product if necessary

250.100.303 | 25 cm | for 25 cm aluminium mop frames

Packed per 5 | 50 bags

250.100.315 | 40 cm | for 40 cm aluminium mop frames

Packed per 5 | 20 bags

Fits our mop frames (see p. 67), our aluminium handles (see p. 68) and our ZAPA handles (see p. 72)

PROMIX MELAMINE PADS

- Highly effective range of melamine pads for single-disc machines and scrubbers
- Effortlessly remove black streaks, oil, grease and dried-in dirt
- Amazing results with just water or a mild detergent
- Guarantee a deep cleaning of all kinds of floors, such as ceramic tile floors, marble, cast floors, polished or coated concrete, epoxy floors, terracotta,...
- Available in the following diameters:
8" (203mm), 10" (254mm), 11" (279mm), 12" (305mm), 13" (330mm), 14" (356mm), 15" (381mm), 16" (406mm), 17" (432mm), 18" (457mm), 19" (483mm), 20" (508mm), 21" (533mm) and L mop version

CLEANING GUNS

4th generation
3rd generation

RED BALL

- Cleaning gun that works with Ball Technology, instead of a rotating metal tube
- With 2-year warranty due to extra-long lifespan: less wear as the internal hose does not rotate
- Operates starting from 4 bar
- Ultra-reliable and high-tech motor
- Equipped with 360° multi-directional air inlet and pressure regulator on the handle
- With easily removable brush

888.000.820

8 pieces

EXTRACTOR FOR RED BALL

- To be mounted onto the Red Ball and connected to the hose of a (water) vacuum cleaner via one of the supplied adapters
- Creates an injection of product under high pressure (compressed air) that immediately releases dirt, and at the same time the dust or water vacuum sucks the dirt solution away
- The result is a perfectly clean and fast-drying surface
- Ideal for deep-cleaning carpets and upholstery
- For safe operation: do not inhale any product mist
- For better results than with injection or extraction machines

888.000.327

20 pieces

BALL BOOSTER

- Cleaning gun that works with Ball Technology, instead of a rotating metal tube
- Operates starting from 4 bar
- Ultra-reliable and high-tech motor
- Equipped with 360° multi-directional air inlet and pressure regulator on the handle
- With easily removable brush

888.000.240

8 pieces

CLEANING GUNS

Air blow guns

NEW

POCKET GUN

- Ultra-compact blow gun for mobile and quick use
- With integrated pressure control button for controlled airflow
- Equipped with a metal carabiner hook so it is always within reach
- Lightweight and durable design for professional use
- Ideal for detailing, maintenance, and quick cleaning on the go

288.100.800

100 pieces

NEW

PALM GUN

- Compact blow gun that sits perfectly in the palm of your hand
- Powerful airflow for cleaning hard-to-reach areas
- Equipped with a 360° rotatable compressed air inlet for optimal freedom of movement
- Simple push-button operation for precise control
- Ideal for workshops, garages, and industrial environments

288.100.700

50 pieces

AERO GUN

- Air blow gun that, like a tornado, sprays swirling air without any product
- Equipped with 360° multi-directional air inlet and pressure regulator on the handle

288.100.640

20 pieces

AERO GUN BLACK

- Air blow gun that, like a tornado, sprays swirling air without any product
- Ultra-reliable and high-tech motor
- Equipped with 360° multi-directional air inlet and pressure regulator on the handle
- With easily removable brush

888.000.390

20 pieces

POWER GUN

- Air blow gun with an airflow that is 5 times more powerful than a classic pistol
- Highly suitable for powerful blow cleaning and fast drying of all kinds of surfaces
- Equipped with 360° multi-directional air inlet and pressure regulator on the handle

888.000.395

20 pieces

POWERJET

- Air blow gun with a strong, focused flat jet, ideal for cleaning or drying hard-to-reach areas
- Has a lower noise level (5 dB) than traditional air blowguns (8 dB)
- Significantly reduces air consumption by optimising the use of compressed air

888.000.500

20 pieces

CLEANING GUNS

Air blow guns

ASPIRO GUN

- The Aspiro Gun is connected to compressed air and a vacuum hose
- Dirt is detached by the compressed air, and at the same time sucked up by the vacuum cleaner

888.000.393

10 pieces

WAX & COATING GUN

- Gun with 4 bar operating pressure that works with a bullet ball instead of a metal tube
- The amount of sprayed product can be regulated with the valve on top of the gun
- Ideal for spraying fine coatings, waxes and leather balm
- Very efficient to remove dirt, dust, grease residue,... on places that are difficult to reach such as:
 - The inside of vehicles, motorbikes and boats
 - Ventilation shafts and vents
 - Dashboards
 - Carpets: textile and plastic
 - Between car seats
 - Around the gear lever
 - Under the bonnet and around door hinges
 - In the glove compartment and small storage compartments
 - Rims

888.000.400

10 pieces

AERO GUN DOUBLE ACTION

- Connects to compressed air and to a vacuum hose
- Dirt is detached by the compressed air, and at the same time sucked up by the vacuum cleaner
- Areas of application:
 - Car: seat covers, carpets (textile and plastic), rear shelves, but can also be used to clean the interior of the vehicle and plastic parts
 - Car body repair shops
 - Bodywork shops
 - Sheet metal repairers
 - Car rental companies
 - Taxis, camping cars
 - For patient transport, ambulances, parcel services,...

10 pieces

288.100.610 | with plastic rotating hose

288.100.620 | with Ball Technology

10

DOSING SYSTEMS

DOSING SYSTEMS

General dosing systems

PORTADOZ

- Portable dilution system mounted directly onto a reservoir with liquid chemical concentrate and on the water network with a universal connection
- Always dilutes the product correctly
- Economical, reliable and made of high-quality materials
- Can be easily mounted on any type of reservoir
- Has the perfect small size for cleaning trolleys
- The reusable dispenser is recommended for diluting bottles or buckets
- With an integrated non-return valve
- Does not have to be attached to a wall
- You can use the Portadoz with different screw lids by using the lock nut and the washer

550.100.100 | for bottles | blue

550.100.110 | for bottles | red

550.200.140 | for buckets and scrubbing machines | grey

QUICK FILL TOWER FOR SCRUBBING MACHINES

- Automatically mixes chemical concentrates with water
- Safer to use as the user does not come in contact with the chemical product
- The 200 L tank deflates in 90 sec
- There is no need for electricity or air pressure

550.300.100 | with 200 L reservoir

550.300.105 | with 300 L reservoir

VENTURI-INJECTOR

- Easy to connect to a water supply, there is no need for electricity
- Automatically dilutes a product concentrate with water
- The correct dilution is set by using the coloured measuring tips between 1 and 43.6%
- 3 positions:
 - Dosing function: for water and a product
 - Rinsing function: only water
 - Self-cleaning function: the Venturi cleans itself
- Inlet and outlet 3/4" M

400.000.900

DOSAPUMP

- Easy and practical solution to manually dose all kinds of products
- Easily attached to a wall
- Push the large button with the palm of your hand for a dose of product
- Three possible dosing settings: 15, 22 and 30 cc
- Shock-resistant housing
- Chlorine-resistant
- Perfect aspiration of viscous products
- Suitable for hotels, restaurants, schools and kitchens
- Ideal for filling sinks, bottles and buckets

205.200.110 | with swivelling anti-drip tube

205.200.100 | with PVC hose

DOSING CAPS

- With these dosing caps you can easily separate an exact quantity of liquid from a bottle
- They are screwed onto a bottle, and by squeezing the bottle with one hand the dosage cap is filled with solution
- A scale enables you to monitor the dosage and squeeze further until the desired dosage is reached
- With a tear-off guarantee strip on the cap that keeps the dosage tube sealed until the first use
- Available in HACCP colours
- Drainable and perfectly resealable
- With integrated anti-splash protection

FOR ACCURATE DOSING WITHOUT ELECTRICITY

Installed directly into the water supply line, Dosatron pumps operate without electricity, using water pressure as its sole power source. On its way through, the water activates the plunger, which takes up the required percentage of concentrate. Inside the pump, the concentrate is mixed with water. The water pressure forces the solution downstream. Once set, the pump requires no further attention. The dose of concentrate will always be strictly proportional to the volume of water entering the pump, whatever variations in flow or pressure may occur in the main line.

DOSATRON D9AL

- Compliant with European standards for food contact (EC 1935/2004), safe for humans and animals
- Developed for large-scale livestock farming and professional production
- Water flow range: 500 L/h - 9 m³/h
- Water pressure: 0,3 - 8 bar
- Maximum water temperature: 40°C
- Connections inlet and outlet: 1 ½" M
- Supplied with wall mount, suction hoses and suction filter

D9AL2N | 0.2 to 2 %

DOSATRON COMPACT D07

- Water flow range: 5 L/h - 0.7 m³/h
- Operating pressure: 0.3 - 6 bar
- Maximum water temperature: 40°C
- Connections inlet and outlet: ¼" M
- Supplied with wall mount, suction hose and suction filter
- Extra option: PVDF body

D07RE125 | 0.15 to 1.25 %

D07RE5 | 0.8 to 5.5 %

DOSATRON DIA4AL

- Water flow range: 4.5 L/h - 2.5 m³/h
- Operating pressure: 0.15 - 5.5 bar
- Maximum water temperature: 40°C
- Connections inlet and outlet: ¼" M
- Supplied with wall mount, suction hose and suction filter

DIA4AL | 1 to 4 %

DOSATRON D3

- Water flow range: 10 L/h - 3 m³/h
- Operating pressure: 0.3 - 6 bar
- Maximum water temperature: 40°C
- Connections inlet and outlet: ¼" M
- Supplied with wall mount, suction hose and suction filter
- Extra option: PVDF body

D3RE3000 | 0.03 to 0.3 %

D3RE2 | 0.2 to 2 %

D3RE5 | 0.5 to 5 %

D3RE10 | 1 to 10 %

D3RE25-IE | 5 to 25 %

DOSATRON D3TRE FOR HIGH TEMPERATURES

- For accurate dosing of liquids with a temperature of up to 70°C
- Water flow range: 100 L/h - 3 m³/h
- Operating pressure: 0.3 - 6 bar
- Maximum water temperature: 70°C
- Connections inlet and outlet: ¼" M
- Supplied with wall mount, suction hose and suction filter
- Supplied with PVDF pump body

D3TRE5 | 0.5 to 5%

D3TRE10 | 1 to 10%

D3TRE3000 | 0.03 to 0.3%

DOSATRON D45

- Water flow range: 100 L/h - 4.5 m³/h
- Operating pressure: 0.5 - 5 bar
- Maximum water temperature: 40°C
- Connections inlet and outlet: 1 ¼" M
- Supplied with wall mount, suction hose and suction filter
- Extra options: IE (external product injection) and PVDF body

D45RE3000 | 0.03 to 0.1%

D45RE15 | 0.2 to 1.5 %

D45RE3 | 0.5 to 3 %

D45RE8 | 3 to 8 %

DOSATRON D20

- Water flow range: 1 m³ - 20 m³/h
- Operating pressure: 0.12 - 10 bar
- Maximum water temperature: 40°C
- Connections inlet and outlet: 2" M Ø 50 x 60 mm
- Supplied with wall mount, suction hose and suction filter

D20WL2 | 0.2 to 2 %

DOSATRON D8

- Water flow range: 500 L/h - 8 m³/h
- Operating pressure: 0.15 - 8 bar
- Maximum water temperature: 40°C
- Connections inlet and outlet: 1 1/2" M
- Supplied with wall mount, suction hose and suction filter

D8RE2 | 0.2 to 2 %

D8RE5 | 1 to 5 %

EXTRA OPTION

PVDF PUMP BODY

- The PVDF pump bodies are resistant to aggressive and corrosive products
- Available for the ranges D07, D25, D3 and D45, standard for the D3TRE range

EXTRA OPTION

EXTERNAL PRODUCT INJECTION

- External product injection (IE) ensures that the product does not pass the pump body
- Available for the ranges D25 and D45

ACCESSORY

HOSE WITH COUPLINGS FOR FOOD INDUSTRY

- Longer or shorter hose available on demand
- Stainless steel lance in 600, 750 or 900 mm
- Fits the following ranges: D07, D25 and D3

801.004.300

DOSING SYSTEMS

- Work with water pressure, there is no need for electricity or compressed air
- With hose and shock-resistant gun
- With CA non-return valve, ACSE approved
- Are connected to a water supply and automatically dilute one or two cleaning or disinfecting products with water
- Ideal for cleaning and disinfecting floors, machines and other surfaces
- Supplied as standard with our food-grade hose with couplings (801.600.xxx, see below)
- With shock-resistant gun with adjustable nozzle
- The correct dilution is set using a set of coloured measuring tips
- 16 different dilutions can be set between 0.5 and 11%
- With coupling between gun and hose
- Operating pressure between 1.5 and 6 bar
- 2 functions: dosing function and rinsing function
- 2 models: for 1 product and 2 products
- Comes with stainless steel barrel support(s)

EXTRA OPTION

COUPLING

- To connect our brushes and handles to the hygiene units

801.600.199

INCLUDED

FOOD-GRADE HOSE WITH COUPLINGS

- Composed of 4 layers that are suitable for use in the food industry
- The outer layer does not leave streaks and is grease-resistant
- Suitable for both water and cleaning products
- Maximum pressure: 20 bar
- Maximum temperature: 70°C
- Including couplings

801.600.080 | 10 m

801.600.085 | 15 m

801.600.100 | 20 m

801.600.102 | 25 m

Hygiene units

HYGIENE UNIT 1 PRODUCT

- With hose and shock-resistant gun

801.001.120 | with 10 m hose

801.001.220 | with 15 m hose

801.001.420 | with 25 m hose

HYGIENE UNIT 2 PRODUCTS

- With hose and shock-resistant gun

801.001.620 | with 10 m hose

801.001.720 | with 15 m hose

801.001.920 | with 25 m hose

HYGIENE UNIT 1 PRODUCT WITH AUTOMATIC REEL IN STAINLESS STEEL

- With hose and shock-resistant gun, mounted on a premium reel in stainless steel

801.001.121 | with 10 m hose

801.001.221 | with 15 m hose

801.001.321 | with 20 m hose

HYGIENE UNIT 2 PRODUCTS WITH AUTOMATIC REEL IN STAINLESS STEEL

- With hose and shock-resistant gun, mounted on a premium reel in stainless steel

801.001.621 | with 10 m hose

801.001.721 | with 15 m hose

801.001.921 | with 20 m hose

HYGIENE UNIT 1 PRODUCT WITH AUTOMATIC REEL IN PVC

- With hose and shock-resistant gun, mounted on a PVC reel

801.001.224 | with 15 m hose

HYGIENE UNIT 2 PRODUCTS WITH AUTOMATIC REEL IN PVC

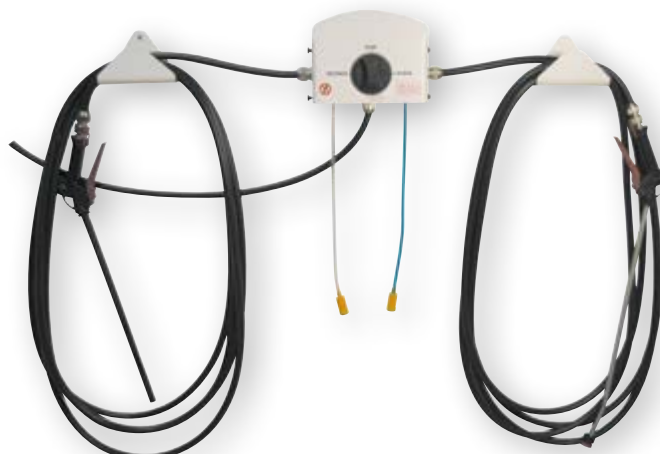

- With hose and shock-resistant gun, mounted on a PVC reel

801.001.724 | with 15 m hose

DOSING SYSTEMS

- Work with water pressure, no need for electricity or compressed air
- Are connected to a water supply and automatically dilute one or two cleaning or disinfecting products with water
- Ideal to spray cars, trucks and other vehicles with a cleaning product
- Equipped with a flat jet nozzle
- The correct dilution is set by using the coloured measuring tips
- 16 different dilutions can be set between 0.5% and 12%
- With coupling between gun and hose
- Operating pressure: between 2 and 6 bar

Spraying units

SPRAYING UNIT 2 PRODUCTS

- Specifically designed to spray 2 products with the same unit
- A cleaning product should be sprayed with the lance in stainless steel and the rinsing and drying product should be sprayed with the lance in PVC
- With hose, lance in stainless steel and lance in PVC

801.015.910 | with 2 x 15 m hose, 60 cm lance in stainless steel and 45 cm lance in PVC and double non-return valve

801.015.920 | with 2 x 25 m hose, 60 cm lance in stainless steel and 45 cm lance in PVC and double non-return valve

EXTRA OPTION

COUPLING

- To connect our brushes and handles to the spraying units

801.600.199

SPRAYING UNIT 1 PRODUCT

- Specifically designed for spraying cleaning products and shampoos
- With hose and lance in stainless steel

801.000.100 | with 10 m hose, 60 cm lance in stainless steel and double non-return valve

801.000.200 | with 15 m hose, 60 cm lance in stainless steel and double non-return valve

801.000.300 | with 25 m hose, 90 cm lance in stainless steel and double non-return valve

801.000.120 | with 10 m hose and a 60 cm lance in stainless steel and CA non-return valve | ACSE approved

801.000.220 | with 15 m hose, 60 cm lance in stainless steel and CA non-return valve | ACSE approved

801.000.320 | with 25 m hose, 90 cm lance in stainless steel and CA non-return valve | ACSE approved

ACID SPRAYING UNIT 1 PRODUCT

- Specifically developed to spray acids such as rim cleaners and descalers
- With Venturi in PVDF, spring in Hastelloy
- With hose and lance in PVC

801.015.700 | with 15 m hose, 60 cm lance in PVC and double non-return valve

801.015.704 | with 25 m hose, 60 cm lance in PVC and double non-return valve

DOSING SYSTEMS

Dilution units

PROMAX

- Automatically dilutes a product concentrate with water
- Quickly fill spray bottles and other reservoirs with ready-made products by pushing the button or lever
- Models with a water flow of 4 L/min are perfect to dilute bottles and sprayers, to dilute buckets and sinks use the 14 L/min models and to dilute scrubbing machines use the 30 L/min models
- The correct dilution is set by using the coloured measuring tips between 0.3 % and 30 %
- The dilution cannot be changed to avoid waste
- Easy to connect in series
- Easy to connect to a water supply line
- There is no need for electricity
- Temperature: up to 40°C
- Operating pressure: 1 to 9 bar

801.004.118 | for 1 product | 4 L/min | with lever | to fill (spray) bottles

801.004.120 | for 1 product | 4 L/min | with button | to fill buckets and sinks

801.004.124 | for 1 product | 14 L/min | with button | to fill buckets and sinks

801.004.126 | for 1 product | 30 L/min | with button | to fill scrubbing machines

801.004.130 | for 4 products | 4 L/min | with lever | to fill (spray) bottles

801.004.131 | for 4 products | 4 L/min | with button | to fill (spray) bottles

801.004.133 | for 4 products | 14 L/min | with button | to fill buckets and sinks

801.004.134 | for 4 products | 30 L/min | with button | to fill scrubbing machines

LOCKABLE CABINET

- To lock products in a safe way
- Suitable for 1 barrel of 5 L or 2 barrels of 2 L
- Dimensions: H 364.5 mm x W 226 mm x D 175 mm

801.004.160

DILUTION UNIT FOR 4 PRODUCTS

- Choose the dilution flow for each of the 4 products: either 7 L/ min or 14L/min
- You can store 4 bottles of 5 L in the lockable cabinet
- The correct dilution is set by using the coloured measuring tips between 0.3 % and 14 %
- Also available for 3 products

550.400.10x | flow rate per product to be chosen

DOSING SYSTEMS

HOSE RACK

- In stainless steel
- Capacity: 25 m

801.500.525

BARREL RACK

- In stainless steel

801.500.600 | for 5 L barrel

801.500.800 | for 10 L barrel

801.500.900 | for 20 or 30 L barrel

Accessories

CHARIOT

- In stainless steel
- Free fixation of unit to chariot

550.500.100

Ideal for our hygiene units | p. 88

WATER FILTERS

- Fine filtration up to 80 micron
- The nylon cartridge can be cleaned and reused

411.200.300 | in- and outlet 3/4" feminine

411.200.400 | in- and outlet 1 1/4" feminine

SHOCK-RESISTANT GUN

- The perfect low-pressure gun for industrial and food-related cleaning
- Adjustable from a fine spray to a jet
- Robust but lightweight design ensures more comfort compared with traditional guns
- Inlet coupling 1/2" F, shaft and spring in stainless steel
- Delivered with quick coupling
- 801.600.200
- Maximum pressure:
 - Blue model: 12 bar
 - White model: 24 bar
- Maximum temperature:
 - Blue model: 50 °C
 - White model: 80 °C

801.004.100 | shock-resistant gun including quick coupling | blue

801.004.104 | shock-resistant gun including quick coupling | white

QUICK COUPLINGS

- Fits the shock-resistant guns, the spray lances in stainless steel and the high resistance spray lances

801.600.200 | 1/2"

801.600.201 | 12 mm x 1/2"

SPRAY LANCE IN STAINLESS STEEL

801.600.590 | 300 mm

801.600.600 | 600 mm

801.600.900 | 900 mm

801.600.480 | 2 x 1 m

Fits our spraying units | p. 89

COUPLINGS

- Fit the spray lances in stainless steel (801.600.xx0)

801.600.200 | 1/2"

110.100.101 | 8 mm x 1/2"

110.100.110 | 10 mm x 1/2"

110.100.102 | 12 mm x 1/2"

BACKFLOW PREVENTER 3/4" M X BA

- Prevents a backflow of product in the water supply

801.500.498

10

SYPHON PUMPS

DOUBLE ACTION

- Manual dispensing systems for pumping liquids from bottles, water bottles, drums or containers
- With patented double action technology: pumps on both the up and down stroke for a continuous flow and less labour during pumping
- Excellent chemical resistance thanks to the polypropylene and LDPE construction
- The supplied adapter connectors are waterproof and do not leak
- With anti-pump safety system
- Delivered with a white safety strap

860.100.100 | double action drum pump 25/5 | for 25 L barrels | 20 pieces

860.100.200 | double action drum pump 60/15 | for 50 L barrels | 15 pieces

860.100.300 | double action drum pump 200/55 | for 200 L barrels | 10 pieces

860.100.400 | double action drum pump 1000/220 | for 1,000 L containers | 10 pieces

SAFETY KIT FOR DOUBLE ACTION

- To be connected to Double Action pumps to safely transfer liquids to a bottle
- Suitable for liquid food products
- Made of HD polyethylene (HDPE)

860.200.001 | safety kit

SAFETY STRAPS FOR DOUBLE ACTION

- Safety strap to distinguish different liquids
- Reduce the risk of errors

860.200.005 | red safety strap

860.200.006 | green safety strap

860.200.007 | blue safety strap

860.200.008 | yellow safety strap

POLYETHYLENE SYPHON PUMP

- For 200 L barrels
- Has good resistance to chemicals

802.100.100

32 pieces

POLYETHYLENE SYPHON PUMP SMALL MODEL

- For 5, 10, 25 and 30 L bottles

802.100.105

100 pieces

POLYPROPYLENE SYPHON PUMP

- For barrels from 25 to 200 L in polypropylene and stainless steel 316
- With telescopic tube and extension
- For water, alcohol, diesel, lubricants, acids and alkalis

802.100.200

10 pieces

DOSING PUMP 20 ML AND 30 ML

- Dosing pump made of polyethylene
- Guarantees an exact dosage of the used products
- Supplied with cap DIN 38/400, which fits the majority of 5 and 10 L barrels
- Output per pump stroke: 20 ml or 30 ml
- Dosing pumps and adapters 40/40 and 42/410 available separately

605.700.020 | set of dosing pump 20 ml (38/400) with adaptors 40/410 and 42/410

605.700.030 | set of dosing pump 30 ml (38/400) with adaptors 40/410 and 42/410

605.700.102 | dosing pump 20 ml | 38/400

605.700.103 | dosing pump 30 ml | 38/400

605.700.140 | adaptor 40/410

605.700.142 | adaptor 42/410

ADAPTER SYPHON PUMP

- Adapter to mount syphon pumps on barrels
- Fits on our syphon pumps in polyethylene and polypropylene

121.400.410 | yellow | for 25, 30 and 60 L barrels | DIN61 → 2" NPS/BSP

121.400.420 | blue | for 200 L barrels | 2"Mauser → 2" NPS/BS

121.400.400 | orange | for 200 L barrels | 56 x 4 → 2" NPS/BSP

FOGGERS

BATTERY FOGGER ULV2

- Fully autonomous electric fogger powered by a powerful lithium-ion battery
- The core of the sprayer is a specially designed anion generator that continuously produces a high concentration of negatively charged anions
- In combination with a disinfectant, this fogger effectively destroys viruses and bacteria
- With 1.8 L reservoir
- Working time: 35 min, extra battery available (440.100.201)
- Maximum range: 5 m

440.100.100

8 pieces

FOGGER DRY BLUE

- Fogger for spraying insecticides, disinfectants and deodorising products
- Equipped with turbine nozzle for an ultra-fine atomization
- Cover an area of 4,000 m² with 4 L of product
- Works with oil or water-based products
- Suitable for indoor and outdoor use
- Voltage: 220-230V
- Maximum range: 6 m

114.300.100

TRIPLE JET FOGGER

- Fogger for spraying insecticides, disinfectants and deodorising products
- Equipped with 3 special turbine heads or an ultra-fine atomization
- The spray head has a range of 60° (40° up and 20° down)
- Cover an area of 4,000 m² with 4 L of product
- Flow rate is adjustable via the control knob
- Works with oil or water-based products, for both indoor and outdoor use
- Voltage: 220-230V
- Maximum range: 15 m

150.100.100

EAGLE BACKPACK FOGGER

- Fogger with comfortable shoulder straps for atomising insecticides, disinfectants and deodorising products
- Equipped with turbine nozzle for an ultra-fine atomization
- The 10 L tank allows you to treat large areas without refilling
- Cover an area of 10,000 m² with 10 L of product
- Flow rate is adjustable via the control knob
- Works with oil or water-based products, for both indoor and outdoor use
- Weight: 4.1 kg
- Voltage: 220-230V
- Maximum range: 6 m

113.000.000

FOGGER ES

- Fogger for spraying insecticides, disinfectants and deodorising products
- Equipped with turbine nozzle for an ultra-fine atomization
- Cover an area of 4,500 m² with 5 L of product
- Content: 5 L
- Atomization: 20 - 60 microns
- Weight: 3,5 kg
- Maximum range: 6 m

114.100.100

DEODORISATION

WHAT IS OZON?

Have you noticed how clean and fresh the air smells after a thunderstorm? That pleasant effect can also be reproduced by the unique ozone module at the heart of our odour control devices. They convert oxygen into ozone, which sterilises the air by destroying bacteria and odour molecules. Ozone has a lifetime of about 35 min and is then automatically converted back into oxygen. Unlike other systems, which only mask odours, ozone gets to the root of the problem so bad odours do not return. Moreover, since ozone is a gas, it penetrates even the most difficult to reach nooks and crannies. Our appliances are portable, compact and have an excellent finish. A standard 220V socket is sufficient to tackle any odour or bacteria problem. Once switched on, these units autonomously provide an odourless and sterile space.

NEW MODEL

SANI-ZONE 10G

- Compact but very powerful ozone generator
- Excellent for removing bad odours, viruses and bacteria in offices, schools, hospitals, hotels and restaurants, food shops and factories, gyms, cars, trucks, boats,...
- Equipped with a timer that automatically switches the appliance off after treatment for safety
- With integrated EMI filter that suppresses unwanted electrical noise, ideal for sensitive environments such as hospitals, offices and around industrial installations
- Supplied with a 220V plug
- Ozone production: 10 g/h
- Maximum coverage area: 150 m²
- Application time: 30 min - 3 h

105.100.110

SANI-ZONE CAR 4G

- Compact but very powerful ozone generator
- Excellent for removing bad odours, viruses and bacteria in cars and trucks
- Equipped with a timer that automatically switches the appliance off after treatment for safety
- With integrated EMI filter that suppresses unwanted electrical noise, ideal for sensitive environments such as hospitals, offices and around industrial installations
- Supplied with a 220V plug and an adapter for a car's cigarette lighter
- Ozone production: 4 g/h
- Maximum coverage area: 90 m²
- Application time: 30 min - 3 h

105.100.120

14

INFRARED DISPENSERS

INFRARED DISPENSERS

MILO DISPENSER WITH INFRARED

- Contactless dispenser with infrared for alcohol gel and hand soap
- Can be mounted on a wall
- With lithium-ion battery, easy to charge via the supplied USB cable or with 3 AA batteries
- Has a modern design that is IPX4 water-resistant
- Content: 320 ml

390.000.100 | for sprays

390.000.200 | for foam

390.000.300 | for soap or gel

OTTO TABLE/BOW REST WITH INFRARED

- Contactless dispenser on a very stable base with a 4 kg weight
- The ideal solution for tables and counters
- With easily refillable reservoir for sprays or foam
- For an exact dose with every use
- Charges via 220V adapter
- Content: 1 L

360.200.500 | for sprays

360.100.400 | draining dish

OTTO DISPENSER WITH INFRARED

- Contactless dispenser, ideal for wall mounting
- The dispenser is available in versions for sprays or foam
- Easy to charge via the supplied 220V adapter or with 4 C batteries
- Content: 1 L

360.000.100 | for sprays

360.100.400 | draining dish

8 pieces

ARNO DISPENSER WITH INFRARED

- Contactless dispenser, ideal for wall mounting
- Suitable for disinfection alcohol and gel
- Easy to charge via the supplied 220V adapter or with 4 AA batteries
- Content: 1 L

310.000.100 | for sprays

8 pieces

ARNO DISINFECTION COLUMN WITH INFRARED

- Contactless dispenser on a very stable base with a 7 kg weight
- With an easily refillable reservoir, suitable for disinfection alcohol and gel
- With transparent level indicator
- For an exact dose with every use
- Content: 1 L

310.000.000 | for sprays

15

DISINFFECTION MATS

DISINFECTION MATS

DISINFECTION MATS

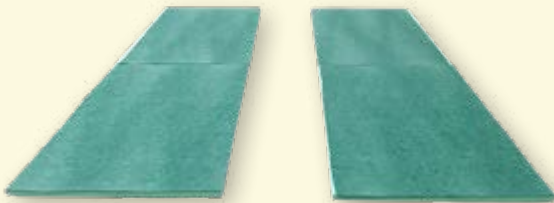

- The disinfectant mats can be filled with any product that is suitable to protect against diseases or organisms that can be transmitted through footwear or vehicle wheels
- The mousse of the mats immediately absorbs the liquid
- When traffic passes over the mat, the treatment solution is passed onto the footwear or wheels, but with almost no leakage that may occur when using a bath-type container
- The waterproof and chemically resistant covers ensure that the product does not leak out of the mat
- The mats are easily cleaned with water
- Suitable for indoor and outdoor use: at building entrances and exits or on vehicle approach routes
- Made of anti-slip material
- Resistant to all weather conditions and chemicals

DISINFECTION MATS WITH COVER

115.100.100 | 60 x 90 x 4 cm | with removable cover | 10 L

115.100.101 | 180 x 90 x 4 cm | with removable cover | 30 L

NEW MODEL

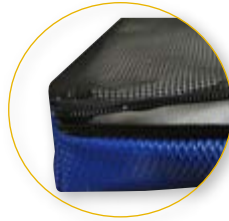

DISINFECTION MATS FOR VEHICLES

- Suitable for slow-moving traffic with a maximum speed of 5 km/h

115.400.360 | 120 x 200 x 5.5 cm | 12 L per mat | set of 4 pieces

DISINFECTION MATS

DISINFECTION MATS WITH ZIP

- The mat with zip can be easily removed from the cover for cleaning
- The 2 cm mats are ideal for disinfecting the wheels of trolleys, forklift trucks, roll containers, transport pallets and other means of transport

115.402.045 | 45 x 60 x 2 cm | cover with zip | 0.8 L

115.404.045 | 45 x 60 x 4 cm | cover with zip | 1.62 L

115.402.060 | 60 x 90 x 2 cm | cover with zip | 1.62 L

115.404.060 | 60 x 90 x 4 cm | cover with zip | 3.24 L

115.402.090 | 90 x 100 x 2 cm | cover with zip | 2.7 L

115.404.090 | 90 x 100 x 4 cm | cover with zip | 5.4 L

115.402.120 | 120 x 200 x 2 cm | cover with zip | 7.2 L

115.404.120 | 120 x 200 x 4 cm | cover with zip | 14.4 L

115.405.090 | 90 x 200 x 5 cm | cover with velcro closing | 13.5 L

WORKING LIGHTS

RECHARGEABLE INTERIOR AND BONNET LIGHT

- An autonomous and rechargeable lamp that can be rotated 360°, without connection to electricity
- Provides a bright, uniform and intense light in 2 modes: one with 800 lumens and one with 1,250 lumens
- Ideal for illuminating dark or hard-to-light areas or places, such as under the bonnet and inside vehicles
- Thanks to the telescopic arms (from 93 - 113 cm) and the included magnets, it can be attached to surfaces of various sizes
- The lamp easily clips out of the rail and can be used for many mobile purposes
- Working time: 2 - 3 h
- Charging time: 3 - 4 h, with the supplied USB charger or additional cigarette lighter charger
- With lithium-ion battery
- With CE and RoHS certificates and protection class IP54

580.100.200 | 113 x 93 x 2.7 cm

6 pieces

RECHARGEABLE INSPECTION LIGHT (WHITE & UV LIGHT)

- A professional and rechargeable LED inspection and working light that rotates 180°
- With adjustable ABS casing and many fastening options: there are 3 powerful magnets attached to the back, bottom and suspension hooks
- Ideal for use in garages, workshops and hard-to-light areas or places
- Has a flashlight on the side with a high intensity of 300 lumens
- Has a UV light on top: ideal for detecting coolant leaks and stains on seats and carpets
- Working time: 3h with the side flashlight, 7h non-stop with the top UV light
- Charging time: 6h with the supplied USB charger and additional cigarette lighter charger
- With lithium-ion battery
- With CE and RoHS certificates and protection class IP54

WORKING LIGHTS

DIMMABLE WORKING LIGHT WITH TWO LED COB ROWS (WHITE LIGHT)

- A dimmable working light, with white LED COB light for a powerful, bright and uniform light
- Ideal for illuminating hard-to-reach areas or places thanks to its flat, narrow shape
- Power: 20W COB LED
- Light intensity: max 880 lumen
- Ideal to illuminate a workshop or a hard-to-light room or place
- Has 2 rows of white light, of which the intensity can be adjusted in stages
- Working time: 6h at reduced power and 3h at maximum power
- Charging time: 3h
- With lithium-ion battery
- With CE and RoHS certificates and protection class IP54

888.888.100 | white | 48 x 5 x 4 cm

DIMMABLE WORKING LIGHT WITH TWO LED ROWS COB (WHITE & YELLOW LIGHT)

- A patented dimmable working light, with white and yellow LED COB light for a powerful, bright and uniform light
- Ideal for illuminating hard-to-reach areas or places thanks to its flat, narrow shape
- Power: 20W COB LED (white light: 10 W & yellow light: 10 W)
- Light intensity
 - White light: max 620 Lumen
 - Yellow light: max 600 Lumen
 - Mix of white and yellow light: max 770 Lumen
- Ideal for high-quality painting, spraying and polishing work
- Many different light combinations are possible to detect colour differences, unevenness and small scratches on paintwork, and polishing imperfections will be detected quicker and easier compared to traditional lamps
- Has 2 rows of light, of which the intensity can be adjusted in stages, and per individual row
- Both rows of light can shine together in different intensity graduations, and it's easy to switch between the 2 types of light
- Operating time: 6h at reduced power and 3h at maximum power
- Charging time: 3h
- With lithium-ion battery
- With CE and RoHS certificates and protection class IP54

DIMMABLE WORKING LIGHT WITH TWO LED COB ROWS (WHITE & UV LIGHT)

- A dimmable working light, with white and UV LED COB light for a powerful, bright and uniform light
- Ideal for illuminating hard-to-reach areas or places thanks to its flat, narrow shape
- Power: 20W COB LED (white light: 10W & UV light: 10W)
- Light intensity:
 - White light: max 620 Lumen
 - UV light: max 5 Lumen
- The UV light is ideal for detecting coolant leaks and stains on seats and carpets
- Has 2 rows of light, of which the intensity can be adjusted in stages, and per individual row
- Both rows of light can shine together in different intensity graduations, and it's easy to switch between the 2 types of light
- Operating time: 6h at reduced power and 3h at maximum power
- Charging time: 3h
- With lithium-ion battery
- With CE and RoHS certificates and protection class IP54

DIMMABLE WORKING LIGHT WITH TWO LED COB ROWS (WHITE LIGHT & RED FLASH)

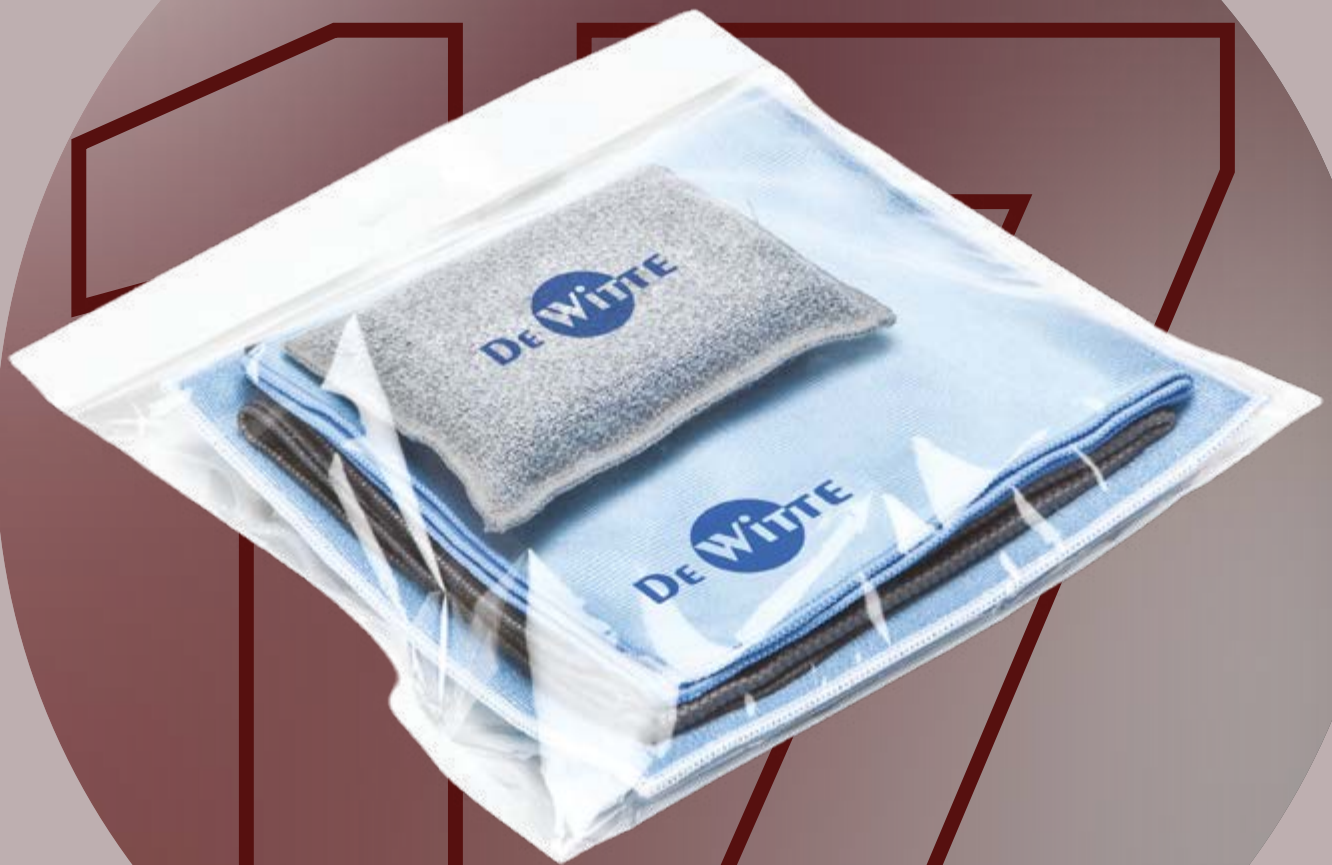

- A dimmable working light, with white and red LED COB light for a powerful, bright and uniform light
- Ideal for illuminating hard-to-reach areas or places thanks to its flat, narrow shape
- Power: 20W COB LED (white light: 10W & red flash: 10W)
- Light intensity:
 - White light: max 620 Lumen
 - Red light: max 142 Lumen
- The red flashlight can be used as an attention grabber during emergencies
- Has 2 rows of light, of which the intensity can be adjusted in stages, and per individual row
- Both rows of light can shine together in different intensity graduations, and it's easy to switch between the 2 types of light
- Operating time: 6h at reduced power and 3h at maximum power
- Charging time: 3h
- With lithium-ion battery
- With CE and RoHS certificates and protection class IP54

PERSONALISATION

PERSONALISATION

Discover the possibilities to personalise our products with your logo and information. Our specialised team will provide you with a personalisation that perfectly matches your brand and corporate identity. Private labelling is an important service within our range and a key element of our collaboration with our customers. For more information about the possibilities and conditions, reach out to your point of contact or e-mail us via info@dewitte.com.

PRINTING

We are happy to print our bottles, microfibre cloths, gloves, and other products with your logo and details.

SPONGES AND MICROFIBRES

- 1 or 2 colours from 96 pieces

EMBROIDERY

Have your logo or text embroidered on our textile products starting from 3,000 items.

PERSONALISATION

LABELS

With our full-colour printing machine, we print high-quality labels with your logo and details of your choice.

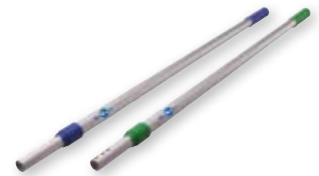

WATER BLADES

- From 96 pieces

BUCKET FILTER

- From 100 pieces

ALUMINIUM HANDLES

- From 100 pieces

PERSONALISED KITS

Compose your own kit of microfibre cloths or sponges. And we will package it in a plastic bag with an insert or label or choose for environmentally-friendly cardboard or glassine packaging. Personalised kits are possible from 100 pieces upwards, depending on the composition of the kit.

WASHING LABELS

Personalise the washing label of our microfibre cloths with a label with 1 or more colours. Ask for the possibilities from 3,000 or 5,000 pieces.

PRODUCTS IN YOUR COLOUR

It is also possible to order products in a colour of your choice, from 5,000 pieces for most microfibre cloths and tex spray trigger sprayers.
