Introduction

Thank you very much for purchasing your LED TV. It serves as a normal colour TV and a PC monitor. To enjoy your set fully from the very beginning, read this manual carefully and keep it handy for future reference.

INSTALLATION

① Locate the receiver in the room where direct light does not strike the screen. Total darkness or a reflection on the picture screen can cause eyestrain. Soft and indirect lighting is recommended for comfortable viewing.

② Allow enough space between the receiver and the wall to permit ventilation.

③ Avoid excessively warm locations to prevent possible damage to the cabinet or premature component failure.

④ This TV can be connected to AC 100-240V~ 50/60HZ.

⑤ Do not install the TV in a location near heat sources such as radiators, air ducts, direct sunlight, or in closed compartments and closed areas. Do not cover the ventilation openings when using the TV.

⑥The indicator light will last for about 30 seconds after the power has been turned off.

Wait until the indicator light goes out before repowering the TV.

Warning

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

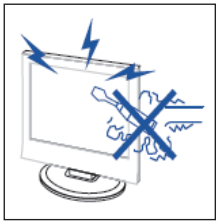
CAUTION: TO AVOID THE RISK OF ELECTRIC SHOCK.
DO NOT REMOVE COVER (OR BACK).
NO USER- SERVICEABLE PARTS INSIDE.
REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

This symbol is intended to alert the user to avoid the risk of electric shock. This equipment may only be disassembled by qualified service personnel.

This symbol is intended to alert the user to the presence of important operation and maintenance instructions in the literature accompanying the equipment.

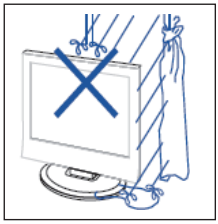
An apparatus with Class I construction shall be connected to a MAINS socket outlet with protcctive earthing connection.
Where the MAINS plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.

Caution



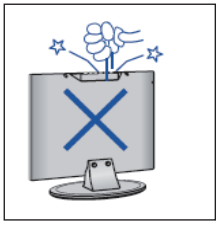
Caution

High voltages are used in the operation of this product. Do not open the product's casing. Refer servicing to qualified service personnel .



Caution

To prevent fire or electrical shock hazard, do not expose the main unit to moisture. do not place objects filled with liquids, such as vases, on the apparatus.



Caution

Do not drop or push objects into the television cabinet slots or openings. Never spill any kind of liquid on the television receiver.

Caution

Avoid exposing the main unit to direct sunlight and other sources of heat. Do not stand the television receiver directly on other products which give off heat: e. g. video cassette players and audio amplifiers. Do not block the ventilation holes in the back cover. Ventilation is essential to prevent failure of electrical components. Do not squash power supply cord under the main unit or other heavy objects.

Caution

Troubleshooting

Before consulting service personnel, check the following chart for possible solutions.

PROBLEM	SOLUTION
TV will not turn on	●Make sure the power cord is plugged in. ●The batteries in the remote control may be drained; replace the batteries.
No picture, no sound	●Check the cable between TV and antenna/ external AV device. ●Press the power button on the remote. ●Press the SOURCE button the remote, then press the "▲/▼"button repeatedly to select the TV source.
Poor picture, sound OK	●Check the cable between TV and antenna/ external AV device. ●Try another channel, the station may have broadcast difficulties. ●Adjust the brightness/contrast in the Video menu. Check that the unit is set to PAL
Audio noise	●Move any infrared equipment away from the TV.

The TFT LED panel uses a panel consisting of sub pixels which requires sophisticated technology to produce. However, there may be a small number of bright or dark pixels on the screen. These pixels will have no impact on the performance of the product.
