

KEEPING THE MEMORY ALIVE

PET URNS & JEWELLERY

Catalogue - Edition 6

KEEPING THE MEMORY ALIVE

Giving people a unique and lasting memory is what we strive for every day. A keepsake that not only captures the essence of the times but also characterizes a beloved pet like no other. To achieve this, we pay close attention to the world around us. Corporate Social Responsibility is deeply rooted into the Funeral Products company culture. It all begins with a deliberate policy. We critically examine the use of natural processes and pure raw materials in the procurement process. We also carefully choose our suppliers and internal business processes.

We always strive to improve our activities by finding ways to do them better, faster, and more sustainably. This is known as the principle of continuous improvement. Our focus is on all human aspects within and beyond the organisation, ensuring that we are responsible and meaningful from raw material to transfer.

Sustainably certified

We are proud to announce that Funeral Products, as part of the Global Products Group, was certified in 2023 according to the requirements of the **CSR Performance ladder level 3**.

The CSR Performance ladder is an internationally recognised certification standard. It objectively demonstrates Corporate Social Responsibility performance through a management system. This makes sustainable development and entrepreneurship concrete.

In addition, the CSR Performance ladder is linked to the well-known 17 Sustainable Development Goals of the United Nations, which are a worldwide guide for addressing issues such as poverty, education, and climate.

To find out our current position, please read our CSR annual report on our website: uk.funeralproducts.eu

What does this mean for you?

Basically that Funeral Products operates in a socially responsible manner. We have obtained a certificate to demonstrate our promise. You can trust that your collaboration with Funeral Products is carried out sustainably. So you can focus on what is important: helping your customer find a lasting and responsible memorial product.

Our promise

The way in which we commemorate our loving pets is constantly changing. We are increasingly looking for a personal memory. One that knows how to reflect the details of a pet's way of life. Funeral Products helps with that.

My name is Michael Brooks and since mid-2016 I have been working within Funeral Products as Director of our UK and Ireland Businesses. With over twelve years of experience as a Sales Manager, I have gained broad expertise in supporting Pet Funeral Directors with their product management with families and business development, account, and sales management for my client's organisations.

In early 2016, I met Peter Biemans, CEO of Funeral Products. His unique views on running a company, but more importantly, his actions to truly implement Corporate Social Responsibility into every fibre of the business made the decision to work with Peter very easy for me.

Later that year, I made the transition by moving from Toronto, Canada to London, England. To be able to assist you locally, but also to be able

to respond adequately to your needs we soon set up the London office. Early on I set the personal goal of supporting Pet Funeral Directors with new business, yet personal, strategies, that meet today's family's needs, but might seem unconventional in this sometimes very traditional sector.

To complement our already complete range of high-quality and guaranteed delivery of family-ready products, we also offer additional insights to the market with a focus on helping the pet owner understand their options through an educational, not a sales approach.

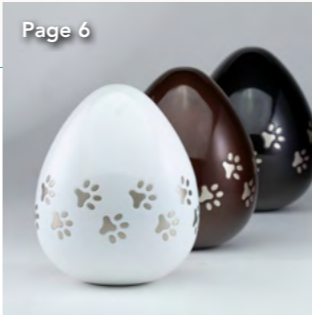

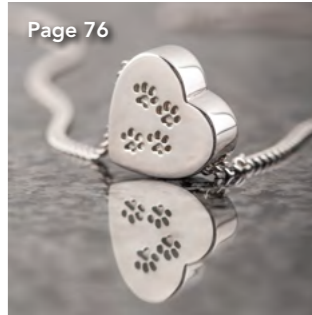

Together with you, we build a bond of trust with pet lovers, through our partner Pet Funeral Directors, providing them more options than they often knew were possible. After all, today's pet families want to access information and to be given the power of choice.

In a world that is rapidly changing more than we have experienced before, today, more than ever, we have the same goal, namely, to provide them with a loving, lasting memory.

Michael Brooks

URNS

Whether it is a dog, a cat or other, our pets are dear to us even long after they are gone. Funeral Products understands this and offers a wide collection of PET urns. Pieces available in different sizes, shapes and made from various premium-quality materials such as brass, aluminium, ceramic, MDF and crystal.

Within our range, we have several unique and exclusive collections. The quality urns from the Odyssee collection for example are characterised by their sublime design and finish. This unique finish provides both a glossy and protective coating to ensure the longevity of the product.

Other special urns are the works of art created by Geert Kunen. These are moulded by hand from clay by the artist himself and are provided with a liquid layer of bronze during the firing process, which adheres to the ceramic. The unique details, the contemporary shapes, along with the special bronze colour and well-thought-out symbolism of Geert's creations are not immediately recognized as an urn, but rather as a piece of art. One that fits into any home decor and at the same time forms a visual memory.

Consolation urns

Losing someone is a major event, especially as a child. Consultation urns allow children to keep a small, lasting memory of their beloved pet. And are therefore a loving remembrance that helps in the grieving process.

HEART URNS

Real love comes from the heart, and that symbolism is the starting point for our collection of heart-shaped urns. These products are made from various high-quality raw materials and are available in various sizes and colours. The bottom of the metal urns is fit with a screw closure that once filled, can be covered with protective felt which is included with the delivery. This, in combination with their stunning finish, means that these metal hearts are at home in any interior. In addition, the special lacquer coating ensures that the keepsake hearts feel smooth and comfortable in the palm of your hand.

CANDLE HOLDERS

Burning a candle provides relief in the broadest sense of the word. The combination ash and candle holders provide a lasting visual memory. The shine of the soft light symbolises eternal love and preserves the special moments you shared.

The crystal candle holders are a unique feature of this collection. These products are individually hand-blown by Bohemian crystal glassmakers. This prestigious rating is given to glass with such a high lead content that it has the ability to shine like a diamond.

ASH JEWELLERY

To always have your beloved pet close to you, we offer a beautiful collection of ash jewellery, consisting of special pendants and charms from exclusive brands such as Atlantis Memorials and Aurora. These pieces are made of 925 Sterling silver, meaning they consist of at least 92.5% silver with the remaining 7.5% consisting of other metals to add strength.

The Embrace bracelets are a fashionable addition to the FP-Originals collection, a unique collection of contemporary wrist jewellery, braided from real leather. This material moulds to the wearer and becomes more beautiful over time. The bracelets also have a 925 Sterling silver clasp with a small, ash chamber. The result is a stylish bracelet, with which you can carry the memories of your pet with you anywhere, anytime in a subtle way.

The silver jewellery pieces from Atlantis Memorials are almost entirely handmade. Their innovative designs with explicit detail are not immediately recognisable as ash containers. To help guarantee a long lifespan of the product, the necklace runs through the piece of jewellery and is not attached to the pendants.
