Porcelain pet urns

Discover our porcelain urns

This stylish pet urns are part of our unique collection of porcelain urns. These urns are created by the artisans of Baccini Cremation Partner (B-CP) from Italy.

The urns are, so to speak, “Made in Italy”, which represents a commitment to detail and a focus on producing high-quality products. B-CP places great importance on sustainability and has initiated several sustainability projects.

The collection includes urns for rabbits, dogs and cats. The design is unique, with each piece crafted from high-quality materials that make it easily recognisable. The items are suitable for placement both indoors and outdoors.

Funeral Products, Atlantis Memorials, and Funeral Projects are all part of the parent company Global Products Group. This structure allows for unified management under a sustainable policy that is officially certified at level 3 according to the CSR Performance Ladder!

During this certification, we were evaluated on 31 CSR themes, which range from child labour and corruption to transport and energy use, among others. These themes are also linked to the globally recognised Sustainable Development Goals of the United Nations, making the certification internationally recognised!

What is our common goal? What does this CSR policy entail? What progress has been made and what areas can be improved? You can read all about it in the Global Products Group's annual CSR report, available on our website.
