

Sandal Sizes:

In our size chart, you can find the EU sandal sizes and the equivalent in U.S. size.

To order the correct size, we recommend taking the exact measurement of your foot. You stand and measure it from your heel to the end of your fingers. With the accurate measurement of your foot you can check in the column Foot size in CM (centimeters) in our size chart and find the correct size for you.

Note: The column Foot measurement in CM (centimeters) is the measurement of the foot, not of the sandal.
