

Sandal Size Chart:

In our size chart, you can find the EU sizes and the equivalent in U.S. sizes.

To order the correct size, we recommend you to measure the exact length of your foot. Measure your foot from your heel to the end of your fingers (in centimeters). With this measure; you can check in the Size Chart, column Foot Size in CM; for your exact size.

Note: The column Foot Size in CM (centimeters) is the measurement of the foot, not of the sandal.
