easy⁺

Electric sprayer

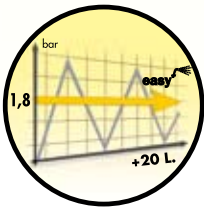

Battery electric sprayer

The Easy+ sprayer includes an electric charger and 4 rechargeable batteries type C/HR-14 of 3000 mAh (use only rechargeable batteries).

Constant pressure

The innovative compressor taken by this model allows a more professional application, as the spraying is made at a constant pressure. With only one load of batteries (8 h.) more than 20 l. can be sprayed (adjustable cone nozzle).

Easy to use No effort

Just press on the switch of the compressor and the sprayer is automatically pressurized and it is ready to be used.

Set of nozzles

Supplied with a set of nozzles suitable for treatments with herbicides, insecticides and fungicides.

Hose

It includes a 1.8 m hose to cover a bigger working area.

Shoulder pads

For more comfort.
