

INSTRUCTION

Alfa Romeo Giulia GTA Style Spoiler

ARGL-69

1. This product is Designed to replace the OEM – original part , so you have to remove the existing part

2. Unscrew the bold from the spoiler
3. Before adding the adhesive clean a little bit the behind of the carbon fibre with sandpaper. Add adhesive all the corners and the middle of the behind part of carbon fibre as you seen from the photo.
Red lines shows the where you need to add adhesive
(We recommended Black Bodywork Silicon Glue such as 3M or Wurth)
4. Fix it and wait until the glue get hard.
