

INSTRUCTIONS

ALFA ROMEO GIULIA REAR SPOILER [ARGL-19]

1. Before adding adhesive please check if it fits by pushing the extreme part and blocking by paper tape. If it fits good it means you can start installing it. As you seen in image distance between spoiler and edge of trunk must be **3-5mm**.

2. Clean up the inner part of the product. After that add adhesive to the lines as is shown on the photo. We recommended **Black Bodywork Silicon Glue** such as **3M** or **Würth**.

NOTE: Thickness of glue must be 2mm.

3. Fix it and wait till the glue get hard.
