

# MONOMER

## Product Description

Astonishing Liquid ingredients create a high performance liquid monomer with proprietary rights. This custom blend of ingredients provides superior adhesion, color stability, and a perfect balance of rigidity and toughness (virtually eliminating any chipping or cracking) in the nail enhancement. Reduced odor when used professionally and within a professional environment.

## Features & Benefits

- Superior adhesion
- Color stability
- Perfect balance of rigidity and toughness
- Mix ration 1.5 - 2 parts liquid to 1 part powder

## Usage

Prepare the natural nail plate removing the cuticle and using removing any contaminants with Astonishing Blue Scrub and a nail wipe. (Apply primer if deemed necessary) Sculpt the nail with Astonishing's monomer (liquid) in combination with Astonishing powders. Mix ratio should between 1.5 – 2 parts liquid to 1 part powder. Finish to a high shine using Astonishing's optimal selection of the highest quality of files.
