

# ACRYLIC POWDERS

## Product Description

These Astonishing Acrylic Powders are special formulated powders with controlled sculpture. When used in combination with Astonishing Monomer, Astonishing powders catalyse cross linking and polymerization. Provides outstanding color stability, a perfect balance of rigidity and toughness holding the enhancement in proper form. The surface may be brought to a high shine without dulling or scratching.

The Astonishing Monomer/Polymer combination allows the nail professional to sculpt with ease using one or multiple beads depending on the length of the enhancement. For natural nail overlays, overlay with tip application, and sculpting over an Astonishing sculpting form. Six core powders: White, Cover, Soft Cover, New Mix, Transparent Pink, and Clear.

## Features & Benefits

- Controlled sculpture
- Outstanding color stability
- Ultimate strength and durability
- No lifting and bubbles
- Superior adhesion
- Available in 6 colors

## Usage

Prepare the natural nail plate removing the cuticle and using removing any contaminants with Blue Scrub and a nail wipe. (Apply primer if deemed necessary). Sculpt the nail with Astonishing's monomer (liquid) in combination with Astonishing Powders. Mix ratio should be between 1.5 – 2 parts liquid to 1 part powder. Finish to a high shine using Astonishing's optimal selection of the highest quality of files.
