

# SCULPTING GELS

## Product Description

Astonishing Sculpting Gel is a linear linking oligomer polymer with a perfect balance between flexibility and toughness. An innovative UV/LED system specifically formulated pigments for the nail professional. These Sculpting Gels allows the nail professional to create beautiful nail enhancements with ease. Each Sculpting Gel color has consistent thin viscosity allowing the nail professional to maintain a method of application that is consistent. All Sculpting Gel colors match the acrylic color palette (watch out for that white). Available in 6 colors: Clear, Transparent Pink, Soft Cover Blend, Cover, Global White and New Mix.

## Features & Benefits

- Consistent thin viscosity for consistent application
- Non-yellowing formula
- High pigmented
- Curable in Astonishing UV/LED lamp for a perfectly timed cure for C-curve enhancement and finishing polymerization

## Usage

Prepare the natural nail plate. Removing the cuticle and removing any contaminants with Astonishing Blue Scrub and a nail wipe. Take your Astonishing UV/LED Sculpting Gel onto one side of the Astonishing Professional Gel Brush and slide onto the nail plate floating lightly over the natural nail, tip extension or sculpting form. File to finish and apply an Astonishing top coat.
