

PROFESSIONAL GEL BRUSHES

Product Description

Exclusive brushes for the nail professional. The Astonishing UV/LED brushes are made with artist quality synthetic hair. The Astonishing Sculpting Gel brush assures easy sculpting with smooth control due to the flat and oval head shape and a light handle in black. The Sculpting Gel brushes allow the pick-up of the sculpting gels to create a great nail structure without any pressure. Due to the nice oval shape makes the perform of smile line very easy.

Features & Benefits

- Made with artist quality synthetic hair
- Easy sculpting with smooth control
- Absolute control in sculpting with a shape, balance and rigidity

Usage

Before using

Every Gel service, it's important to prepare the brush for successful application. Dip the brush into a small amount of Astonishing Sculpting Gel. Place the brush onto the plastic side of a form and work it back and forth, removing any air bubbles. Make sure the brush becomes fully saturated. Once the brush has been prepared, it is important to practice proper care and maintenance.

Storage

If Gel is left in the brush and exposed to light, the Gel will cure, and the brush will no longer be usable. The brush hairs should only be cleaned by wiping on a lint-free pad lightly moistened with 99% Isopropyl Alcohol.

Note: Soaking the Astonishing Gel sculpting brushes in solvent will melt the brush hairs. When not in use, keep the brush away from all light sources to prevent Gel from curing or hardening in the hairs. This includes the Astonishing LED/UV Lamp or any other LED or UV Lamps, true color lights and especially sunlight. If working near a window, always store brushes in a drawer. Do not pull cured Gel out of the brush. This will eventually cause the brush to fray and lose its shape. Once Gel has cured in a brush it cannot be removed.

Specification

	Item no.	Bar code	Packaging	Inner pack / Case pack
Professional Gel Brush #6	1710812005	1116084003857	Plastic Sleeve	-
Professional Gel Brush #4	1710812007	1116084004175	Plastic Sleeve	-
