

SOAK OFF BASE GEL

Product Description

Gelosophy Soak Off Base Gel is a specially formulated soak off UV/LED gel polish. Gelosophy is a non-solvent UV gel polish. It provides the nail professional a primary or add on service. Gelosophy Soak Off Base Gel creates an adhesive layer that secures the base gel to the nail plate without any corrosive properties. This Base Gel has the perfect viscosity for easy application in a thin layer reducing any excess volume.

Features & Benefits

- Easy brush application
- Remarkable adhesive for thin application
- Highest quality brush that remains flexible without splitting for smooth application
- Perfect grip brush handle for secure brush control
- Perfect viscosity

Usage

Lightly roll the bottle between hands. Open the bottle from the Soak Off Base Gel and wipe one side of the brush on the neck of the bottle. Apply base gel (the natural nail plate should be prepped prior to application) over the entire surface of the natural nail plate and cure for 10 seconds in the Astonishing UV/LED Lamp. Gelosophy Soak Off Base Gel is not necessary when applying Gelosophy colors over a nail enhancement.
