

SOAK OFF STRETCH BASE

Product Description

Your Gelosophy manicure will be smoother than ever with this Soak Off Stretch Base Gel with ridge filling properties. This amazing product smooths out any unevenness of the nails and hardens soft, thin nails. It does not only strengthen the nails, but also allows them to grow without cracking. It creates a flawless foundation for an easy, perfect gel polish application. A must-have with the Gelosophy application!

Features & Benefits

- Creates flawless foundation for polish applications
- Corrects imperfections and fills ridges
- Thicker viscosity than traditional base gel
- Flexible
- Great unique "rubbery" adhesion
- Primer is optional
- Easy brush on application
- Suitable for strengthening - natural nail overlay
- Soaks off within 5-10 min.
- Available in 3 shades

Usage

As base for Gelosophy

Prep as usual, apply one extremely thin adhesion layer, before applying the next one or two thin layers in order to even out surface irregularities. Ensure to cure each layer. Then apply a Gelosophy color of your choice and continue the application as usual. When using with a primer: after using the primer, apply one or two thin layers, no need to apply the extremely thin adhesion layer as stated above.

As strengthener

Prep as usual, apply one thin layer to the entire nail surface. Apply an additional bead to the middle of the nail. Guide it into place using the application brush. Cure UV: 2 min / LED: 30 sec. and cleanse.
