

BULAGGI

the Bag

SPRING-SUMMER 2022

{ PETA-APPROVED
VEGAN }

Timeless elegance with an extravagant touch

The essence of this season is the balance between recognition and surprise. So in the BULAGGI Summer '22 collection, you will find convincing basic bags supplemented with more surprising items, connecting with today's trend themes Protection & Rooted. As always, exuding a character all their own, these bags illustrate how influences from nature still play an important part in the collection.

You will find close-to-nature colours reflected in the collection, ranging from milky, summery pastels to rich natural shades that take us along on a global tour, all translated using clean materials and with minimalistic looks; a blend of natural, versatile shades, generating an abundance of colour compositions, both traditional and ultra-modern. Seeking a new sense of freedom and bonding with nature.

This connection with nature is something that recurs time and again, growing stronger with every season. Our quest is also for this bond with nature, not just in the colour ranges and materials but as part of our production process.

BULAGGI is conscious of its role within the fashion industry. All our bags are **100% vegan** as well as PETA-certified. The ECO-friendly collection has been extended yet again with two new series: Naomi and Clair. More information about this collection and its production process can be found on page 42.

BULAGGI bags feature a luxurious and sophisticated finish, so you can enjoy your bag everyday, again and again. Our passion for colour, convenience and quality is key to every collection.

Annemarieke Schouten-Walraven, owner and designer at BULAGGI.

PROTECTION

“Less but better”

Crisp and clear are the keywords to this theme. The colour palette is fresh, representing the medical cleanliness we've been experiencing. It shows our need for security and protection. Retreating ourselves into a neutral harmony has been an important trend that gives us time and space. Slowing down has changed our tactility. Fashion has turned into a personal comfort zone that gives shape to our need for security. Surfaces are plain with clear, rounded shapes. The colours are milky, summery pastels with bright whites and minimal use of prints.

PROTECTION

ROOTED

“Rewilding ourselves”

Last summer we could not have imagined what has happened over the past year. Let alone imagine the impact this would have on so many facets of our lives. Slowing things down has given us a new sense of freedom and has us bonding with nature. But calmness and tranquility are just one facet of the layered fashion world. The events of last year have also fueled our urge to go outside and explore. Colours reflect a nature walk across the globe, visiting different cultures to create an exciting colourspace for modern nomads. Craftsmanship plays an important role and is seen in wickerwork or materials such as raffia.

BULAGGI goes green

We are aware of the increasing pressure on the environment, and of how this has led to a greater demand for more environmentally-friendly materials. Therefore we have been sourcing new materials that are also more acceptable from an environmental friendly perspective. We are very proud and satisfied that we have succeeded in finding such a eco-friendly, recycled, vegan material.

This season we have expanded our eco-friendly collection with 7 new models. You will find these on the following pages as well as our trusted eco-friendly models.

Besides this BULAGGI takes an extra step in the right direction eco-friendly wise with every collection. From our SS21 onwards we have realized a plastic reduction of as much as 80%! This is accomplished by no longer using polybags but dustbags and/or recycled paper to protect our bags. Also our bags are not stuffed with plastics but with recycled paper instead. By improving ourselves and learning with every collection we achieved a **plastic reduction of nearly 90%** at this moment.

NAOMI
