

Retractable recessed LED spot PEEK

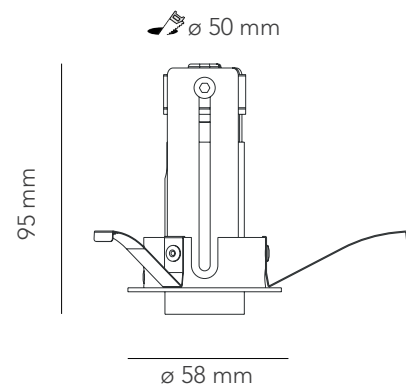

Our PEEK Recessed ceiling spot is characterized by its minimalist design. The spot has a dimension of 30 mm x 65 mm. The spotlights can be pulled out of the sleeve, which gives this spot several possibilities. Use the PEEK ceiling spot as spot by leaving it in the sleeve, pull the spot out of the sleeve for a spot that comes from the ceiling or tilt the spot to illuminate a cabinet wall. Because these PEEK ceiling spots are so minimalist, they do not immediately stand out and can therefore be used in any interior. These spots can be used in your living room, kitchen and bedroom, but also in hotels, restaurants, offices and other public spaces. The PEEK Recessed ceiling spot is equipped with an integrated LED light source and is therefore energy efficient.
